The Nebraska Herald. LOCAL NEWS.

From Thursday's Daily. The weather changed about noon yesterday, and a bitterly cold wind made it uncomfortable this A. M. for outdoor business.

Johnny Stevens was arrested on suspicion of being implicated in the burglary here night before last.

Parties desiring anything in the line are referred to VanArman's establishment on Main Street. See his advertisement in another column.

"One more unfortunate" did not jump from the bridge on Second street into the dark and turbid waters; but was overbalanced by lead whisky last evening and dropped into the creek 30 feet below.

Some of the wisecracks in town account for the burglary committed night before last from the fact that so many "Legislators" were in the city on their way to Lincoln. "Judge not that ye be not judged."

The amount of construction material along the railroad track, although being constantly sent westward, at the rate of fifty car loads per day, does not seem to diminish. Large accessions are being made, and the energy of the company in preparing for a vigorous railroad campaign this summer, promises a speedy connection with the U. P. R. R. Our friends about Kearney must look sharp for the B. & M. next fall.

Mark T. Kelley, of the Little Blue, published at the thriving town of "Jenkins Mills" describes a dance at that place thusly:

The dance on Friday night was a brilliant affair, and well attended, and the festivities were carried on until a late hour. The "Plumps" shone over fair women and brave men, with a continuous blaze of splendor. The "light fantastic toe" kept time to the most ravishing music, until the "wool" small hours of the night, when the whole wound up with a magnificent supper of "cake and oysters."

Several arrests were made by the police yesterday, principally for disturbing the peace. Whisky and pay day were the combined causes.

A car load of wheat was brought down on the eastern bound train from "Hoovers Station" this afternoon. Our farmers will find the advantages of Railroads in the saving of hauling and increased demand before long.

A car load of passengers were detained on the east bank of the river yesterday, owing to the violence of the wind and the floating ice in the river. They crossed this morning and will find some reward in Nebraska for the bother they endured in Iowa.

Bad whisky and flush times with the Railroad hands made quite a number of foolish exhibitions in our streets yesterday. Our police are prompt to suppress such games, and no harm was done beyond a little hair pulling and some poor claret spilled.

Mr. Chas. E. Leber, of Omaha, Nebraska, called this morning. Mr. L. is on his way to Lincoln to procure the aid of our Legislature in securing some pecuniary assistance towards facilitating the immigration of German emigrants to this State. We wish him unbounded success.

The B. & M. R. R. in Iowa are now running in connection with the B. & M. in Nebraska, and have effected arrangements with the Plattsmouth Transfer Company for the transfer of passengers and freight from and to their office in this city.

The B. & M. R. Ticket and Freight Office will be opened in the HERALD building Monday. This Company are running daily the celebrated Pullman Palace Dining and Sleeping Cars, and for speed and safety, offer better facilities to the traveling public than any route open to the east.

We are informed by Mr. C. H. Wentz, agent at Plattsmouth, that tickets will be sold to all the principal cities east, north and south.

Mr. J. D. Simpson will have charge of the office at this place, and we congratulate the Company in securing the services of so efficient and obliging a gentleman as our old friend Prince John.

An exchange in speaking of the drawbacks of a certain city, says it would be a God-send to have about a score of first-class funerals among the old fogies, because of their putting the brakes on to all energetic movements. There are some other cities which could afford to divide the business with them.

We thank the Plattsmouth Herald for its kind reception of our little Story. We know it is but small yet, but we will endeavor to improve it, both in size and appearance, as time advances. If Bro. Hathaway will only aid in this "Capital" business we have entered on, we will, out of our own private means, arm and maintain a sufficient force to keep Red Cloud, Thorpe, Grand, War Cloud, and all the other thriving, murdering, Indian Clouds from harming a hair of "Lo's" Congressional friends' heads, whenever they conclude to come here to Legislate. We are at far work.—Central Star, Ft. Kearney.

It has been proposed in Congress that the United States offer her mediation in the difficulties between the Winnipeggers and the mother country. Disinterested!

New Jersey, looking against the spirit of progress, remains one of the Pennsylvania Dutchman's bull attempting to buck the locomotive off the track. It may evince spunk, but it manifests no good sense nor any great amount of power.

The New York Tribune is very willing to have the National Capital removed west—very—and only asks for two conditions precedent to the removal. First, it must be done by the unanimous consent of the States, and second, it must not cost anything, or at least not the nation. If such conditions are to be complied with, St. Louis will hear Gabriel's trumpet sometime before she hears a President's inaugural address.

A thoughtful father in Michigan, some time since, named his baby "Honor." The boy, Seymour, of riotous notoriety, Seymour, commiserating the little victim, kindly sent him presents to the amount of \$500, as a partial compensation for the wrong done in bestowing such a name.

Had he changed rules, by the process of a "Spanish election," that is Salamanca had his brains "blown out," and some other knave has been made ruler—the new man to hold position until some disaster befell the old one, and then, when he would quietly vacate for his successor. No contests for seats after election, in Spanish countries. The defeated candidate is always quiet.

Read the following letter from one of the oldest and most reliable grocery merchants in the city of Davenport.

FRIEND WALTON: Agreeably to my promise to you when here, I write you, for publication if you see proper, a true statement of the good effects of Roback's Stomach Bitters upon myself. I had been troubled with indigestion for a long time, attended with severe headache, particularly after eating, when fortunately an old soldier friend came into the store and recommended me to use Roback's Bitters. I did so by taking a small wine-glass full just before each meal, and to my great joy I was relieved at once, and am now well by their use. I would not be without them at any price. I have not taken any other medicine since I commenced using the Bitters. And I can say with a clear conscience, try Roback's Bitters—they will do all they are recommended to do—if taken according to directions.

Yours truly, FRANK H. MILLER. Of the firm of Beidback & Miller Wholesale Grocers, Davenport Iowa.
