THE WAR.

net Democratic gain of 4,904. The four wards of this city, thus far reported, show a Democratic loss of 2,164.

Democratic central committee of Brooklyn report that Kings county will give 12,000 majority for Hoffman, and that Geo. Stearns is elected to Congress in the Third District by 8,000 majority over Webster.

Schenectady county gives 85 Democratic majority for Hoffman—a Democratic gain of 261 majority.

In the Twenty-first Congressional District, Roberts, Republican, is elected by 1,500 majority. In Orleans county, Woodford's majority is 1,227—a Democratic gain of nearly 700.

In Jefferson county, Republican majority, 1,500—a Democratic gain of 100. In the Eighth Congressional District, Freeman Clarke, Republican, is elected by 2,500 majority.

In the 30th District, Williams, Democrat, is elected to Congress by 681 majority—a Democratic gain. Democrats are said to concede the election of St. John, Republican, in the 11th District, which is a Republican gain.

Rochester gives Hoffman a majority of 2,000. Troy, N. Y., Nov. 8. J. M. Warren Democrat, is elected to Congress by a very large majority, probably 2,500.

New York, Nov. 9. The Tribune estimates Hoffman's majority in the State at 100,000. It practically gives up the assembly.

ILLINOIS. CHICAGO, November 8. The election has been remarkably quiet and free from excitement.

The day was pleasant until 3 p. m., when it commenced to rain and continued steadily until after the polls closed.

Farwell's election is claimed by two thousand majority. It will require the official vote to decide the rest of the ticket, as very few straight tickets were voted and minor offices are badly mixed.

10:20 p. m.—Returns from the election in this county are extremely meagre, but the indications are very plain that the entire Republican ticket is elected, including Farwell for Congress.

Returns from other portions of the State are so scattering as to be scarcely indicative of the general result.

The question of cremation, or burning dead bodies instead of burying them, for a long time discussed has again been mooted in respect to the victims of the war.

A medical commission has been named in France to examine the subject. The commission will report on the position of bodies produced deleterious gases, the injurious action of which is now admitted by all hygienists.

The quicklime added in the large common pits to hasten the decomposition of bodies does not prevent the disengagement of infectious emanations from all these putrid corpses, and penetrating through the layer of earth which covers the pits, and is inhaled by the people.

The business in Paris is not in a position to receive the influx of refugees from the Prussian army, and the Prussian government is accordingly endeavoring to obtain further concessions from the Paris government.

At headquarters an armistice is considered quite probable. The Tribune correspondent with Garibaldi writes on the 1st: "It is impossible to discover any enthusiasm among the people."

Other than the other evening, the Italian found under her plate, at the supper table, a check for \$5,000 from her father.

Flushing with joy, she passed it to her mother, who in turn handed it to her gentleman next door.

The Democratic newspapers are pitching into the President's Thanksgiving proclamation, as a usurpation, a violation of "State rights," and a terribly objectionable affair in all their wags.

trouble is that, from the Democratic "stand-points," the malcontents don't see anything to be thankful for. The results of the late elections, and the prospects of those to come, are not indicative of an early return of the Democracy to power.

They are not getting a chance at the official flesh pots, and can't work themselves up to the point of rejoicing over the better fortune of their opponents.

A thrifty grape-grower on Catalina Island, near San Luis Obispo, found that some of the pickers he employed would surreptitiously steal his grapes.

tempting fruit, in spite of his utmost watchfulness. Avaricious ingenuity was not to be baffled, however.

The owner provided a lot of gum, ordered the girls to "chew that while the grapes are being snatched the price of it from their wages."

His neighbors propose to distribute about half a pound of bribes down his back, and enter him at the next county fair for the first premium on prize hogs.

Graham bread prevented a terrible case of hydrophobia in Massachusetts a few days ago. The dog in the case had been unwillingly subjected to a boiled-brain diet during his puppyhood.

recognizing, even in the frenzy of madness, the old familiar odor about a man he was about to bite, fled howling away. The fortunate individual was a vegetarian.
