"Luxuries of Modern Travel."

In these days the taste of the Traveling Public has become exceedingly fastidious. In order to obtain their patronage a Railroad line must be able to insure Safety, Speed and comfortable transportation, by possessing the necessary qualifications of a first-class equipment of coaches and locomotives, a solid road-bed and heavy iron Pullman's Palace Sleeping cars, Pullman's dining cars, a direct route, good connections and careful management.

The Burlington route is making every effort to possess all those qualifications to a high degree, and offers a route to all points east, west, north south, by means of its connections as follows:

1. At Omaha with the Union Pacific.
2. At Plattsmouth with the B. & M. R. R., in Nebraska.
3. At Hamburg, with the St. Joseph Railroad for all points in Kansas & Col.
4. At Quincy, with the Des Moines Valley and north Missouri railroads.
5. At Burlington with the R. C. R. & M. R. R. for Davenport, Muscatine, &c.
6. At Monmouth, with the R. R. I. & St. L. and Western Union Railroads, for St. Paul and points in the north, and for St. Louis and points in the south.
7. At Peoria, with the short line Bloomington route to Indianapolis, Cincinnati, Louisville and all points south and east.
8. At Peoria, with the T., P. & W. R. R., for Logansport, Columbus, &c.
9. At Mendota, with all the Illinois Central.
10. At CHICAGO, with all Trunk lines for the East.

No better advice can be given then, than to Take the Burlington Route." dtf.

LOCAL NEWS

Another suicide was committed in Omaha last Tuesday.

Did the recent meeting in Nebraska City decide what the "annual corn crop of Kentucky" amounts to? Can the *Chronicle* tell us?

Mr. Nye has his new hotel building at Pacific Junction nearly completed. It is all ready for the plasterers, and he thinks he will be ready to open it to the public on the 1st of June.

President Grant either will or will not visit Plattsmouth and the west during the present season and for the life of us we are unable to tell from the various newspaper reports.

Tabor is preaching at the Congregational Church each Sabbath at the usual hours—11 a. m. and 7 p. m. Rev. Mr. Foster pastor. Also Sabbath School at 12 m. each Sabbath.

A party of our citizens went out fishing yesterday, and came in with about 200 pounds of fine fishes. They had in the lot one pike which weighed about five pounds. They made two hauls for the 200 pounds.

Rev. Mr. Foster, pastor of the Congregational Church, is delivering a series of lectures to young men, monthly instead of weekly, as was announced through the columns of the HERALD a few days since.

Our neighbor of the Lincoln *Journal* is mistaken as to the price of wheat in this city when he says it was worth only eighty cents. Wheat has not sold in this city at so low a figure for many months. It is worth from $1 to $1.05 and $1.10

The B. & M. Co. have appointed an agent to visit Brownville to look after the project of extending their Red Oak and Hamburg branch to that city.

A drunk man fired a pistol two or three times at the American flag on the top of the circus pole last Saturday in Nebraska City. He said he was a rebel and didn't like to see that thing up there

Red Oak Daily *Express* is the title of a new six column daily just started at Redoak, Iowa.

The *Express* is a very neatly printed paper, and speaks well for the thrift and enterprize of the publishers and citizens of that place in launching out with a daily during these dull times in the printing business; when nearly all the papers in the country are cutting down, and some entirely suspending.

Mr. John Roth, one of the members of the State Board of Immigration has just returned from locating a colony of eighty-five Swedes in Clay county. Mr. Roth is in Omaha now, but he seems to be working for the interests of the State and the immigrant regardless of the interests of any special locality.

Married on the 18th of May, in Plattsmouth, at the residence of Jas. O'Neill, Esq., by Rev. G. B. Mullis, Theodore Bodien to Miss Lydia O'Neill.

Dick Lenehan, a noble hearted youth who acts as fireman on the Des Moines Valley Railroad, went forward upon his engine, clambered down into the pilot, and leaning forward to his utmost reach, brushed a little toddling child from the track upon which the locomotive was moving with rapidity.—*Ex.*

That same foolish trick has been performed by nearly every "noble hearted engineer" in the country. It always seemed to us very unpretty to "brush the child from the track," when they could just as well have picked it up.—"Brushing it from the track" was liable to cause it to stub its little toe and hurt its little self. Let us have some new version of this daring feat.

The State *Journal* gives as a reason why the policies of insurance on the State buildings were recently cancelled, that the companies became satisfied that parties in Omaha were determined to burn the buildings in order to secure the removal of the seat of government from Lincoln. We think the companies were entirely wrong in their conclusions. While we are forced to admit that the course pursued by the Omaha *Herald* is calculated to incite men to such damnable deeds, yet we do not believe this feeling extends far beyond the confines of the *Herald* sanctum. The people of Omaha do not share in the feelings of the *Herald*, neither do they, in our opinion, endorse the desperate efforts of that sheet to injure Lincoln.

INFORMATION WANTED.

A man by the name of Patrick Wheally, who has been in the employ of the B. & M. R. R. Co., at this place, for some time past, lately sent for his wife, Mary Wheally, who was at Carson City, Nevada, to come to Plattsmouth, Neb. On the 9th of this month Wheally left this place to go to Omaha to meet his wife, whom he was expecting, since which time nothing has been heard of him. Mrs. Wheally arrived here some days since, and the Company have telegraphed to different points, and have passed her over the road to Ottumwa and back; but as yet all efforts have failed to gain any information of the whereabouts of her husband. Mrs. Wheally has a large family of children—eight in number—and is without money, and without friends, and it would be an act of charity to furnish any information which would lead to the parties finding each other. Communications may be sent to Mr. Henry Robertson, Plattsmouth, Nebraska. [Omaha and Council Bluffs papers please notice.]

The Omaha *Tribune* seems desirous of poking at Mr. Schaller, Immigrant Agent in the employ of the B. & M. R. R. Co., because he does not send all the immigrants to that city to be skinned before going onto their homesteads, intimates that *the State* should hold Mr S. responsible. The truth is, Mr Schaller is in no way responsible to either the *Tribune*, Omaha or the State of Nebraska; but is employed and paid by the B. & M. Co., to send immigrants to purchase and settle upon their lands, both in Iowa and Nebraska; and we believe that company is well satisfied with his labors.

STRAWBERRIES.

It is believed by those who claim to know that there will be an abundance of this specie of the berry this season; and from present indications we are led to the same conclusion. The vines which cover the ground for miles around our city, are literaly full of blossoms—the fullest that has been known for many years, so said by many. They are past all danger of being blasted by cold or frosty weather, and we may look for a bountiful harvest of these delicious berries in a very few days, or weeks at farthest. We have been speaking of the wild strawberry, but it is also the general belief that the crop of tame strawberries will be as equally abundant as the wild, if not more so. Mr. H. J. Streight informed us the other day that he had several beds of the tame strawberry, and that he has not seen better prospects for a full crop in many years than he has this season. This has been the testimony of many more who are cultivating them pretty extensively in our city.—Strawberries grow *very* extensively in Nebraska, and a more delicious and profitable berry cannot be found any where. If nothing injures the blossoms before "strawberry time," we may look for the biggest crop that has been known for years.

OMAHA JUNCTION, Neb., May 18, '71.

Special Correspondence to the Nebraska Herald, Plattsmouth, via Cornfield City.

MR. EDITOR:—Having a few idle moments, I will write you a few lines, giving a short history and prospectus of our little city and, if you see fit, you are at liberty to publish it.

Omaha Junction is a flourishing little city on the line of the B. M. R. R. R. in Neb., nine miles west of Platts-mouth. The situation is a pleasant one, and promises to be a business place.

We already have a good stone school house, about one mile from the railroad depot, which promises to be a grand success as a place of learning. The school is under the charge of Mr. Jas. S. Reid, late of Bellevue, Neb. He seems to be a very industrious and lively fellow, and is thought a great deal of by all the scholars and community. Since Mr. Reid has been here we have organized a Sabbath School, with Mr. Reid as Superintendent, and Mr. Frank H. Whittemore as Secretary, and the Sabbath School is the most successful one we ever had here. We have an average attendance of 35 scholars, which is doing pretty well for a city of this size; but we have a very fair prospect of more scholars.

Our worthy Superintendent, though he has been in our midst but three weeks, has claimed the belle of Omaha Junction as his wife. He went to see the elephant, last Monday, at Plattsmouth, as we all supposed, but were very much surprised when he came back a married, and we hope a happy man—as of course any man would be happy to be able to claim as fair a maiden as he does for a wife. (At least we feel although we would be happy). Although it caused a tear drop, yet "such is life." We will cast our eyes around for another, and try to forget our attack of Love—(if we may be allowed to use the expression). In conclusion I would say may God bless Mr. Reid and lady; may they live long and happy lives; and when they can look back to years gone by, may they never have cause to regret the step they have so lately taken, is our prayer.

P. S.—I almost wish I was a school teacher. Yours truly,

"BIEF," (a citizen of Omaha June)

FROM THE ARAPAHOE TOWN COMPANY.

KEARNEY CITY, May 16th, 1871.

FRIEND HATHAWAY:—Before leaving here for the valley of the Republican, our party desires to send through the columns of your paper information to friends at home of our movements, &c. From Lincoln westward we followed the line of the B. & M. R. R. The land we passed over was all good, especially for the growth of cereals; but there seemed to be a great scarcity of water and timber. As we moved along great level plains stretched away on either side and before us as far as the eye could reach, bounded only by the horizon; and for miles the B. & M. R. R. Co. have as level a country to run their road over as the U. P. R. had o the valley of the Platte. The country will undoubtedly be all settled up at no distant day; and when the cars run through, great changes will take place. But we want timber and water, and we will to day strike out for the valley of the Republican. Thousands are going in there, and before next October that valley will be as thickly settled as is Seward county to-day. We hear from there every day and the reports are of the most cheering character; so that our party are in the best of spirits. We number now some twenty men, and have five teams and two saddle horses.

No one can form any correct idea of the resources of our beautiful State until he has looked upon the immense plains covered with its rank growth of verdure, which insures to the industrious farmer a bountiful return for his labor in tilling the soil.

A few words in regard to our party and I will close. Capt. Murphy keeps as good discipline as if we were soldiers on the march, and a better behaved company cannot be found on a similar expedition. J. M. Hinchman, like Mark Tapley, comes out strong and is a host in himself on a trip of this kind.—Hugh N. Orr goes with us from here and his experience on frontier trips will be of much benefit to us.

We hear of plenty of buffalo one day's travel from here; and when we find them we will bid farewell to salt ration.

A company of cavelry and one of infantry goes hence to the Republican valley—not that any danger from Indians is apprehended, but to inspire confidence in the breasts of settlers who wish to go there; and who will feel more safe when they know their Uncle Samuel is caring for them. More anon.

THE IMPROVED

McLean & Hooper

ELASTIC LOCK STITCH

Family Sewing Machine

This superior Machine is adapted to the range of Hemming, Felling, Braiding, Binding, Embroidering, Seaming, Quilting, Tucking, Hem-stitching and Gathering. It can do fine or heavy work, and is the most practical Sewing Machine ever invented.

The needle of the McLean & Hooper is drawn straight, and is not open to the objection of and its results in knot or curved needles. It can be set too high, nor too low. The machine is always in order; sews from two common spools without winding; wastes no thread; cannot tangle if run without goods, nor when the every passage of the machine is obstructed. The feed is never dull, is positive, and the very strongest feed in use. The Machine is free from springs, which tend only to weaken and get out of order. The most delicate or coarsest goods can be sewed by the McLean & Hooper without injury, being the lightest running machine ever made. The latest and most important improvement that does not employ, and is very justly kept in view the fact that as a rule Machines are used chiefly by those who, as a rule, know little of practical mechanics, a great degree of simplicity in their construction and consequently a lower range of prices were considered in order to meet a universal want.

Price, on Plain Walnut Table, with Outfit, - - - - - - $45,00

Other styles and finish as low as any other. Send stamp for descriptive circular. Agents wanted in every county in U. S. and Territories. Keep your sewing machine vexations, by purchasing the McLean & Hooper.

GREAT FORTUNES

And How They Were Made.

By J. D. McCabe, Jr. Profusely illustrated and beautifully bound. The most universally sought after book issued for years. It shows how a poor school master made $40,000; how a poor half-bild sailor became a great banker, a butcher's apprentice the wealthiest man in America, an unknown mechanic a millionaire in seven years—with many more such examples: how energy, talent, and patient industry have always met with success when properly exerted: how money can be made honestly and without sacrifice of principle.
