

CHICAGO!

There was no renewal of fires last night, and nothing occurred to disturb the city. Gen. Sheridan has complete control, and confidence is fully restored.

INDIANAPOLIS, Ind., Oct. 11.

W. G. English, the wealthiest man of Indianapolis, worth at least one million dollars, opened his heart and subscribed \$50,000, and that in cash, for the sufferers by the great fire in Chicago.

BUFFALO, N. Y., Oct. 11.

An order has been received here from merchants in Chicago for two hundred and fifty thousand bricks, to commence rebuilding.

LEAVENWORTH, Oct. 11.

Three companies of infantry left Fort Leavenworth last evening for Chicago, and also a large number of tents. The ten thousand dollars voted by the City Council has been received by a special messenger. A train load of provisions and clothing left today. The ladies held a mass meeting today, and raised large donations. Mechanics and laborers will contribute to the relief fund.

SAN FRANCISCO, Oct. 11.

The subscriptions for Chicago from San Francisco will reach \$100,000 before tomorrow. The whole community are anxious to send the money to the sufferers. A train load of provisions and clothing left today.

CHICAGO, Oct. 12.

To His Honor the Mayor: Preservation of the peace and good order of the city having been estimated to me by your honor, I am happy to state that no case of outbreak or disorder has been reported; no authenticated attempt at incendiarism has been made; and the people of the city are calm, quiet, and well disposed.

St. Joseph, October 11.

Seven thousand dollars more were raised for the Chicago sufferers to-day. Twenty-two banks and business houses subscribed five hundred dollars each since yesterday. Two car loads of provisions also left at 5:45 this morning.

St. Andrew Society met this evening and contributed \$200 for the Scotchmen of Chicago.

Des Moines, October 11.

The following is a copy of the appeal of Gov. Merrill of Iowa, to the people of that State: "An appalling calamity has befallen our sister State. Her metropolis, the great city of Chicago, is in ruins, and over one hundred thousand of her citizens are homeless and suffering."

Chicago, Oct. 11.

Several attempts at incendiarism during last night are reported, but in every instance the perpetrators were summarily dealt with, and their fate was that of their kindred who have recently sought. It is hoped this will stop these infernal attempts. The Mayor has placed the complete police authority of the city in the hands of Lieutenant Gen. Sheridan, with a full complement of five hundred U. S. troops arrived here this morning from the East, which, added to the force on hand previous to their arrival, makes fully one thousand men, all U. S. regulars. This movement has completely reassured the people that peace and order will reign. The Chamber of Commerce will rebuild their office on the same ground that the burned building occupied.

Chicago, Oct. 11.

The amount of grain destroyed in elevators is estimated at two and a half millions of bushels, while four and a half millions of bushels stand in the four elevators belonging to Munger & Scott. The immense Illinois Central elevator and the old Iowa elevator are saved. The contents of the sales of the various express companies are reported in the safest condition. The condition of insurance companies, and probabilities of their being able to pay any portion of their losses, is eagerly canvassed. The general impression seems to be that the foreign companies will pay, and there is also a strong feeling of confidence in the San Francisco companies. Some eastern companies have given notice of their insolvency to-day. The condition of the Water Works is ascertained to be that all three of the immense pumping engines are badly injured by the action of the fire and falling of the roof, but the boilers are unharmed, and the best engine is in such a condition that Superintendent Cressler says he will have it working order within a week.

Chicago, Oct. 11.

The action of the banks, yesterday, in resolving to open for business to-morrow, and pay one if called for, every dollar due their depositors, and the promptness of insurance companies in settling their losses, has inspired renewed confidence among our business men. All that we can expect is a bright future. The number of dead bodies brought to the morgue up to-night is 107. Many who were reported lost are alive and well. Among these are Col. Stone and his wife, and Miss De Pelgrou who were stated positively lost.

Chicago, Oct. 11.

The Rush Medical College, the buildings of which were destroyed, resumed its course to-day in the city hospital, and lectures will be continued through the winter as usual. The relief committees are now completely organized and working systematically. The time for serious suffering is believed to be past. The generous supplies of food and clothing received from all parts of the country, are being stored and put in charge of faithful and competent distributors who will see that nothing is misapplied.

Chicago October 15.

A meeting of the officers of the National Banks of Chicago was held at the office of the Third National Bank, No. 436, Wabash Avenue, on Sunday evening, the 15th, at six o'clock, for the purpose of conferring with Mr. Hulbert, Comptroller of Currency, J. Irwin Pearce, President of the Third National Bank, and the chair Henry Greenbaum of the German National, was called to order. A full exchange of views touching the condition of the Chicago Banks, as effected by the great fire, was had, and it was ascertained by a comparison of assets and resources that the Banks were fairly and should resume business at once. The only defect asked by any of the Banks was a sufficient time to convey the safes from the ruins to new places of business, and arrange the books and office furniture.

Chicago, October 16.

The situation of affairs in Chicago are not materially changed. The announcement of the banks to-day to resume business to-morrow and paying depositors in full, has had a most beneficial effect among business men. The attendance upon Change was quite large, but transactions were not very brisk. That is, the market is quiet. Hogs are firm, ranging from \$11.00 to \$11.50 for cash; corn at 47c; wheat at 91c; and—Loose freights firm. In live stock the market is quiet. Hogs are firm, ranging from \$11.00 to \$11.50 for cash; corn at 47c; wheat at 91c; and—Loose freights firm.

Nashville, October 14.

The Union Reform Association of this city, composed of citizens irrespective of party, combined for promoting the great common interests and obliteration of sectionalism from national politics, held a public meeting at the city hall, which was made by ex-Confederate and Federal soldiers, fraternal in feeling and national in spirit. One of the speakers, an ex-Confederate soldier, who served in the army of the South, said he had faith which no words could express, in the sublime significance of the mission and destiny of the American Union, enlarged to the national flag as the emblem of liberty of men of all nationalities, and said the south must show to the honest masses of the north by eloquent action, rather than by fair promises, that our attachment to the government was not a mere expediency, but a duty.

Chicago, Oct. 13.

The dawn of each succeeding day brings brighter prospects for the smitten city, and the feeling of hope and faith is strengthened, and extended every hour. Twenty-one of the twenty-four columns of the Tribune are filled with notices of advertisements of business firms who have already secured new locations, and are either now ready, or will be in a few days, for business. Stocks of new goods are being brought to the city, and the warehouses are overwhelmed with applications to put up new buildings for business purposes. One contractor had last night sixteen contracts for substantial structures to be erected at once as they may be needed.

Chicago, Oct. 14.

The news which has been received to-day confirms the previous reports as to the wide-spread desolation inflicted by fire in various parts of the State. From Fort Huron to Point Aux Gorges the desolation is unbroken. The inhabitants are being driven from their homes, and are obliged to flee for their lives, saving nothing in particular. The Manitoba and Holland configurations also give a more desolate a picture than first reports. All the energies of the people of this city are now directed to aiding sufferers in our own State, and contributions of money, provisions and clothing are being made. The Detroit Relief Committee has received \$10,000 from the Chicago Relief Committee, and \$10,000 from the Chicago Relief Committee, and \$10,000 from the Chicago Relief Committee.

Chicago, Oct. 15.

The subscription for the Chicago Relief Fund at Liverpool to-day was \$60,000. The subscription for the Chicago Relief Fund at Liverpool to-day was \$60,000. The subscription for the Chicago Relief Fund at Liverpool to-day was \$60,000.

Chicago, Oct. 17.

The resumption of business by the city banks to-day, both national and savings institutions, was regarded with great interest by the public, and citizens generally. Some apprehensions were felt that there might be a run upon the banks by the depositors, and the Chicago Relief Committee had made preparations for such a contingency by providing an extra number of tellers, and having a force of policemen stationed at the entrance to prevent a rush. Many contracts for new buildings were made, and the city is beginning to show signs of recovery.

Chicago, Oct. 16.

A furious gale prevailed here last night but subsided before morning. It caused much alarm to the citizens, and especially to those residing in the vicinity of the late fire. Five hundred dollars were prostrated and much alarm prevailed, people rushing from their dwellings into the streets in many instances, and they buried beneath the ruins. The excitement and alarm was scarcely less than on the night of the great disaster. Fortunately it had rained for 24 hours previous, and it prevented any conflagration as the result of the tornado.

Chicago, Oct. 16.

At the churches to-day a marked religious feeling prevailed, the theme of the preachers being the great calamity. At a meeting of the officers of the National Banks this evening the resolution passed a day or two since to pay depositors in full, was rescinded, and another resolution was unanimously adopted to resume business in full, commencing at 10 a. m. Tuesday morning, the 17th inst. W. R. Hulbert, Comptroller of Currency, announced that he has examined personally the condition of the National Banks of Chicago and pronounces them solvent and ready and willing to meet all engagements on demand.

Chicago, Oct. 16.

There has been a wonderful activity in the South Division burnt district, to-day. Thousands of men have been at work clearing away the debris remaining, putting up temporary buildings, &c. Every laboring man who is willing to work can find plenty to do at liberal wages. The action of the banks, yesterday, in resolving to open for business to-morrow, and pay one if called for, every dollar due their depositors, and the promptness of insurance companies in settling their losses, has inspired renewed confidence among our business men. All that we can expect is a bright future.

How to be Polite.

Do not try to be polite. Never overwhelm your friends by hugging them, or making themselves at home, or they will soon wish they were there. Show by your actions rather than your words that you are glad to see them.

Washington, October 17.

The President has recognized Nilsen and his associates as Consul of Sweden and Norway at Omaha. The President has issued a proclamation suspending the writ of habeas corpus in the counties of Spartanburg, Marion, Chester, Laurens, York, Newberry, Fairfield, Lancaster, and Chesterfield, of South Carolina, in cases of persons arrested by the United States civil or military authorities.

St. Louis, October 17.

Accounts from Northern Kansas say that destructive fires have been raging in Deer creek and Harrison creek valleys that to the Banks were fairly and should resume business at once. The only defect asked by any of the Banks was a sufficient time to convey the safes from the ruins to new places of business, and arrange the books and office furniture.
