HUMAN MISERY! A Lecture on the Nature, Treatment, and Radical cure of Spermatorrhea, or Seminal Weakness, Involuntary Emissions, Sexual Debility, and Impediments to Marriage generally, Nervousness, Consumption, Epilepsy, and Fits; Mental and Phisical Incapacity, resulting from self-abuse, &c.—By Robert J. Culverwell, M. Dr. author of the Green Book, &c.

The world renonned author, in this admirable Lecture, clearly proves from his own experience that the awful consequence of self-abuse may be effectually removed without medicines, and without dangerous surgical operations, bou gies, instruments, rings or cordials, pointing out a mode of cure at once certain and effectual by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically. This lecture will prove a boon to thousands and thousands.

Sept under seal, to any address, in a plain sealed envelope, on the receipt of six cents, or two postage stamps, Also Dr. Culverwe I's 'marriage guide,' price 25 cents. Address the Publishers,

MISSOURI VALLEY LIFE

Insurance Company

No. 70 DELAWARE STREET, LEAVENWORTH, KANSAS

ALL POLICIES NON-FORFEITING.

Dividends on the Contribution Plan, Securing the Greatest Pecuniary Advantage to the Policy Holders

REASONS FOR INSURING IN THIS COMPANY: 1st. This is a Western Company, managed by Western men, whose known finanancial character, ability and position, afford ample guaranty for its careful and successful management.

2d. Its Polices are all non-forfeiting.

3d. Premium all cash. It receives no notes and gives none. Policy holders have no interest to pay, and no outstanding notes as liens upon their policies,
4th. It has no restriction upon travel,
5th. Its dividends are made upon the contribution plan.
6th. Its outsiness is excluseivly life insurance.

DIVIDENDS

Are the accumulation of interest upon premiums paid, hence the Company that loans its assets at the highest rate of interest can give you the largest dividends. Eastern companies invest their moneys at 6 per cent., while this makes its investments at twelve per cent. or more.

The advantage of Western investments to the policy holder appears in the following startling figures: The amount of \$1,000, invested for fifty years at

6 per cent. compound interest, is

18,420.15

It is obvious that this company offers greater financial advantages and inducements to the policy-holder than any other company in existance
