

Mr. Henry Brock is accumulating material for his book, on Main street. It is claimed that through some informality the Election of General Hanscomb to the United States Senate from North Carolina, is void.

Waters, of the Chronicle, seems to have turned the "cold shoulder" on his Acting Excellency, Gov. James. Why is this thusly?

J. C. McBride, editor of the Schuyler Register has gone East. Hon. M. B. Huxie fills the chair in his absence.

Mrs. Amelie, an escaped lunatic from the Insane Asylum, was found frozen to death a few miles from Lincoln, on the M. P. R. L., a day or two since. Her husband was recently discharged from the same institution.

The editors of this paper have been searching for the past week on lecture from the green-houses of W. J. Heiser. Are there any other ink singers in this State who can boast of living on "garden sars" at this season of the year?

The last Democratic candidate for Governor, John H. Croxton, of Otoe, is in favor of extending the Trunk Railroad route, but says nothing in his proposition about the North end. He will receive many votes in this county should he be a candidate next fall on the so-called "Reform Ticket."

A convention of Supervisors is being held at Des Moines, Iowa, for the purpose of recommending measures which they deem of importance to the State. They recommend that the District Attorney system be abolished, and that County Attorneys be elected in their stead.

Some of the New York papers are after Mr. Miller, Supt. of the Ins. Dept. with a sharp stick. It is claimed that he charged the Mutual life Ins. Co. \$2,500 for examining its affairs and that other Companies have also paid him large sums. The Companies not daring to offend him, of course paid these little bills, though they think he could afford to work cheaper.

Another day has passed, and we have yet to learn of any action in the matter of a wagon bridge over Platte. A little more of this procrastination and it will be too late to do anything. Let the matter be attended to.

The high wind which prevailed here on the evening of the 19th, seems to have done considerable damage in many other places. The Omaha smelting and refining works are to be enlarged. They give constant employment to about fifty laborers.

The Nebraska City Republican Land Co., has issued a paper—*Red Willow Gazette*—in the interest of their *engrivo* town.

The St. Louis Democrat declares for Mr. Blaine for vice-President. Rumors are prevalent that Chief Justice Mason will be the next Governor of Nebraska.

Large quantities of railroad iron is being hauled across on the ice today, and loaded on the cars to be shipped west.

A series of meetings under the charge of Dr. J. A. Konstant have been held at the Pleasant Valley School House, about ten miles north of Ashland.

A church has been organized there, and some thirty members added. The Doctor is doing good service in these meetings.

Mr. W. J. Heiser, of the Picnic Gardens, sends out to-day his Spring Catalogue of plants, etc., for 1872.

Mr. Heiser's list of Greenhouses and bedding plants is one of the largest in the west. His catalogue consists of twenty-eight pages, embracing every variety of plants usually found in first class Greenhouses, which he proposes to sell to his customers at a less price than they can be purchased any where in the East.

Since Mr. Heiser came to this county he has labored hard to bring his plant department up to a high standard and Law well he has succeeded, will be seen by reference to his Catalogue. Parties desiring anything in his line can rely on fair treatment and that they will get just what they order, and at low rates. Give him your orders and encourage western enterprise.

LENT.
This Holy Fast of the Roman Catholic and Protestant Episcopal churches began Feb. 14th, and continues until midnight of March 30th, the day following Easter Sunday, the joyful anniversary of the resurrection of our Savior.

A WORK OF MERCY.
\$150,000,000 in 3,000 Cash Prizes to be distributed Locally, March 28th, 1872, at Omaha, in aid of the Sick and Destitute, at Mercy Hospital. This enterprise is endorsed by the Governor and best business men of Nebraska. The Tickets are \$3 each, or two for \$5.—For full particulars, address Pattee & Gardner, Business Managers, Omaha Nebraska.

The Adams County Gazette says immigration has already commenced to that section.

D. W. Voorhees is the probable Democratic candidate for Governor of Indiana.

The Tribune charges the editor of the Omaha Herald with urging Mr. Grintal of Stary to go to Lincoln in order to make a quorum, which of course he will deny.

The records of Platte County show that two deeds for land have been made by Acting Governor Wm. H. James to the Millard Pacific R. Co., the first on April 24th, 1871, calling for 29,200 and 44-100 acres, and the second on July 19th, 1871, calling for 9,973 and 8-100 acres. The two are entirely distinct and separate conveyances to time and description of land. Is that Company entitled to more than 100,000 acres? and if so, how? Will our Nebraska exchanges ventilate this matter?—*Platte Journal.*

The Burlington Hawk-Eye, speaking of Miss Smiley, who has been creating such furor in New York, says:—The new sensation in and about New York is Miss Sarah F. Smiley, a pious Quakeress and a native of Philadelphia, who, after devoting two years to preaching in England is now taking this country by storm. A paper says that her sermons are models in all respects, as logical as Jonathan Edwards, fluent as Chalmers, as simple as Spurgeon, as fervid as Sumner—and her delivery entrances her audience from first to last. That will do. If she comes into this vicinity we will surely try to hear her. If she combines all the excellencies of the most excellent, she must be a marvelous orator.

The Ottumwa (Iowa) Courier is responsible for the following:
The following bill was presented to the Board of Supervisors of Cedar county, by an occasional dispenser of the Gospel in that vicinity:—"Offering prayer at the grave of—, a pauper, \$3."

Wendell Phillips says:—"I shall not state a paradox wholly new when I affirm that, so far as we have tried the system of universal suffrage in governing great cities, it has proved a failure. We dare not weigh New York with London. In the face of the torrid and despotism of Europe, we dare not write New York and New Orleans beside Paris and Berlin. You may say load your fingers with diamonds, and fill your pockets with gold, and be certain to come home in the morning; but no man would ever try that experiment in Broadway without making his will."

THE SITUATION AT CAPITAL.
Our information from the Capitol today is to the effect that if noon there was no quorum, but that enough members would arrive on the trains to make one. The Journal says the Senate opened with a quorum.

In the House there were sixteen members present.

The difficulty at the capitol building seems not to have been anything more than an attempt on the part of some of the Governor's aides to prevent, by forcible means, the entry of the members to the Hall of the House. His Acting Excellency's militia were soon placed *hors de combat*, and the House was called to order by the Speaker.—About forty ladies were present, in the galleries.

It is stated that telegrams have been received from enough absent members to make a quorum certain this afternoon. The Attorney General is understood to have given an opinion that the call is legal.

The above is the situation of affairs up to the time of the leaving of the train.

LINCOLN, Neb. 15—5 p. m.
Senators Hascell, Hilton, Larsh, Lynch and Schofield, and Representatives Collins, Abouinon, Briggs, Beal, Cannon, Conner, Corvill, Gale, Goodin, Hal, Malloy, Rhodes, Roswater and Wickham made their appearance at the capitol, this afternoon, but were refused admittance by order of Gov. James, who had both Senate Chamber and Representative Hall barricaded against them.

The members held an informal meeting in the State Librarian's Office, at 5 p. m., and appointed a committee to wait upon Gov. James and request him to open the door. He refused to comply with their request. Thereupon, the members, with Hascell at the head, broke open the door. They were met by the Governor's assistants who were quickly dispersed. In the melee revolvers and knives were pulled out, but nobody hurt. At this time the members are in possession, and the general impression is that James has got the worst of it.

The Nemaha Valley Journal says:—We are informed that parties in Nebraska, Kansas, are negotiating for the Register printing press and type now at Omaha, with a view to removing them from the center. We think our neighbor should adopt measures for retaining them for sea certainly cannot afford to live much longer without a local paper.

The Jacksonville (Oregon) Times receives gold nuggets taken from neighboring mines in payment of subscriptions.

The Iowa papers are urging that fax seed be more extensively raised, claiming that it is more profitable than wheat.

We publish to-day a letter from Cornelius R. Schaller with regard to emigration from England.

Mr. Schaller speaks hopefully of a large influx of settlers to Nebraska the coming spring.

We learn from Mr. E. H. Noyes, of Louisville, that winter wheat in that section looks well. He thinks that the winter has not injured it any and that the crop will be good.

A letter written from Washington by our old friend F. R. Guthman of this city has been received.

Mr. Guthman speaks in very high terms of Senator Hitchcock who he says rendered him every assistance in getting his passport, going with him to the State Department for that purpose and otherwise assisting him.—Mr. Guthman was to set sail from New York for Germany on the 13th inst.

Information received from Otoe county says that the prospect of a special election on railroad bonds is good. Many of the county precincts where opposition has been strong heretofore, now favor the proposition.

The reported freezing of Spotted Tail and his band, turns out to be a canard. He is now on the Platte and will remain there all winter.

Gov. James is represented by the following Council, before the Supreme Court, in the matter of the habeas corpus, sued out for the purpose of testing the legality of the present session: Gen. Roberts, Gen. Dilworth and Gen. P. O'Haves.

Mrs. Wm. B. Astor died in New York last Friday, aged seventy-two. She bequeathed the modest little sum of \$10,000,000 to an orphan grandchild. Not being able to be an orphan and a grand child to a rich old lady.

J. W. Barnes, of this place, goes East this evening for the purpose of raising a colony to settle in this county. Mr. Barnes has some of the finest lands in the State for sale, which he will dispose of to actual settlers on good terms, and should be successful in raising a colony for settlement here, he will accomplish much good for the State. We can recommend him to the people of the East as perfectly reliable and trustworthy, having as he does the entire confidence of our citizens. We wish him success.

From a private letter received from Franklin, we learn that the snow has entirely disappeared from the valley of the Republican in that vicinity and that immigrants are coming in rapidly. We are glad to hear this as many persons from this section have settled there.

As the City Council contemplates the putting down of a sidewalk on Sixth st. from Main to Dye, on the North of Main, we would like to suggest that they also order one on the South side of Main, at least to Pearl st.

A petition has been widely circulated in Nebraska City to "empower the City Council of Nebraska City to issue bonds of said city, in the sum of one hundred and fifty thousand dollars, to be loaned and used for the purpose of purchasing and manufacturing iron; but in no case, no one firm to receive more than ten thousand dollars, and the said bonds to be in the form of a loan to said manufacturers at Nebraska City, for a term not exceeding ten (10) years, with interest at eight (8) per cent. per annum, and said bonds to be secured to the city by mortgage on unimproved real estate of double the face value of the bonds so loaned, and your petitioners will ever pray, &c."

A telegram received from Platte mouth yesterday, giving a general statement of an attempted assassination, and attacking a hotel proprietor, is not published in the Herald because it is incomplete by the name of the individual who sent it.—*Omaha Herald.*

We copy the above as the impression conveyed by the language used would be that some person attempted to assassinate a hotel keeper of this city. We have made enquiries about the matter and learn that a difficulty occurred at the Platte Valley House, between the proprietor and the Operator of the Western Telegraph Co., in which the latter was struck with a revolver, but it hardly deserved to be called as "an attempted assassination."

The river is rising rapidly to-day. The ice is apparently safe yet though it will not take many days like to day to break it up.

The Methodist Church deserves much credit for that side walk from Main st. to their church.

Let the City Council follow up this good work by making one as far down as Pearl st.

Legends of the Yellowstone.
Even in the middle of the summer the snow is so deep in these mountains that successive governments exploring parties were baffled in their attempts to enter them, and all private expeditions have been driven off by the Indians. It is said that the Crow King, as the valley is so green, that if the white man once knows of their heavy timber hunting grounds will be ruined. These tales are the result of a very old legend, and here, the trappers tell us, is the "mother region" of the gold, where the Indians told Father de Smet it was found on the surface. Here are burning plains, so fertile bridges have been driven off by the Indians. It is said that the Crow King, as the valley is so green, that if the white man once knows of their heavy timber hunting grounds will be ruined. These tales are the result of a very old legend, and here, the trappers tell us, is the "mother region" of the gold, where the Indians told Father de Smet it was found on the surface. These tales are the result of a very old legend, and here, the trappers tell us, is the "mother region" of the gold, where the Indians told Father de Smet it was found on the surface. Here are burning plains, so fertile bridges have been driven off by the Indians. It is said that the Crow King, as the valley is so green, that if the white man once knows of their heavy timber hunting grounds will be ruined. These tales are the result of a very old legend, and here, the trappers tell us, is the "mother region" of the gold, where the Indians told Father de Smet it was found on the surface. Here are burning plains, so fertile bridges have been driven off by the Indians.
