The bill authorizing the construction of a bridge across the Missouri at Plattsmouth has passed the Senate, and will, without doubt, pass the House. It is only a question of time, whether the bridge shall be constructed. SERIOUS ACCIDENT.

A daughter of Hon. Isaac Wiles, living near this city, was seriously burned a few days since by coal oil, which she was using for the purpose of starting a fire. We did not learn the particulars as to how the accident was caused; but understand that though very seriously burned she is doing well, and hopes are entertained that no permanent injury will grow out of it.

THE TRUNK.

The committee appointed by the county and city left Monday morning for St. Louis. This committee is earnest, and will represent the interests of the county faithfully. St. Louis has taken a lively interest in the matter, and it is hoped that plans may be matured that will insure the building of this line of road through, this season.

Delegates from Omaha and the counties north have also gone.

If St. Louis really desires this road and is willing to aid in its construction, we may reasonably hope to see it built at an early day.

OMAHA BEE.

This energetic and outspoken advocate of "the right," has, as we see by its issue of the 15th inst., made a change in its editorial department. Hon. E. Rosewater being the publisher, and C. B. Thomas, Esq., the former accomplished editor of the Tribune & Republican presiding over its leaders. We congratulate the friends of the "Bee," and their name is legion, on this acquisition. We have had many bounties heretofore with Mr. T., but we cheerfully accord to him his well earned reputation as a writer at once terse and forcible. The readers of the Bee have certainly secured the pungentest writer in Nebraska.

CHANGE.

The Tribune & Republican of the 16th reached us with the news of the retirement of Mr. C. B. Thomas, its late able editor, and its own acquisition of the services of Hon. Geo. W. Frost, as Editor-in-Chief. Mr. Frost's long residence in Nebraska, and intimate acquaintance with its wants and best interests prove that the managers of that journal were wise in selecting that gentleman to occupy the position so ably filled by his predecessor.

Farmers! when you want Boots or Shoes made to order. Repairing done, or anything in the way of leather and findings, call on O'Brien & Merges, at the Plattsmouth Shoe Store, next door to post-office.

We learn from a letter received from W. D. Wildman, at Greenwood, that the prairie fires have done considerable damage in the western portion of the county recently.

Mr. Charles Clapp, of Stove Creek, had his house, granaries, stables, &c., burned, together with a valuable library, \$23 in money, and tools valued at \$50.

Mr. George Leever, of Greenwood precinct, also had his hay and stables burned.

Other parties have suffered considerable damage, but to what extent we are not informed.

The Chicago Mail is decidedly dissatisfied with the left-handed endorsement of President Grant by Henry Ward Beecher. While he eulogized Grant as the best man in the party to occupy the White House, this man of India Rubber, who the Mail calls Beecher, also added: "I am very glad that our immigrant population have a representative, as pure as wise, as sagacious and eloquent as Schurz. When Schurz speaks I listen because I know I hear the voice of an honest man." Again, referring to Trumbull and Sumner, Beecher said: "The same is true of Judge Trumbull, and no man shall surpass me in gratitude to Mr. Sumner."

OUR CITY SCHOOLS.

In a former issue, we called attention to the wants of the city in the way of schools.

We have no desire to complain about what has been done, but rather to call attention to what should be done to meet the wants of the citizens. Within the city are three small school houses, which for practical purposes, would probably be sufficient for scholars belonging to the primary department. To meet a further want the city must have High Schools. To accomplish this, a good building is needed, and we believe the bonds voted by the city, if they cannot be negotiated, will erect one. If we cannot erect such a building, let our School Directors lease some good room that is a High School may be opened? Will they do this?

The next annual meeting of the Society of the Army of the Potomac will be held at Cleveland on the seventh day of May. Gen. Joe Hooker will preside.

Mr. M. B. Murphy the popular "Harmon" man of this City intends starting a Branch House at Lincoln.

THE TRIAL OF GALLANT RAKES FOR MURDER.

The Prisoner Convicted.

The facts developed in the new trial of the above named prisoner, were submitted to the jury last Friday night, and a verdict of guilty rendered. The jury was out about three hours. This is a case in which the prisoner was found guilty at a term of the District Court held here in September, 1870, and he was sentenced to the penitentiary for life for the murder of Sarah J. Powers. Application was made to the District Court for a new trial, which was overruled, and the case was taken up to the Supreme Court on writ of error, where it was decided that the court below erred, and the prisoner was remanded to this court for a new hearing.

The case came up for trial, and after hearing, the jury returned a verdict of guilty, and the prisoner was re-sentenced to the penitentiary for life.

The testimony adduced on the trial is not in the main different from that developed on the former trial which was published in the Herald.

The case was ably argued by District Attorney Cowin and Geo. S. Smith, on the part of the prosecution, and by Messrs. Maxwell and Marquette, on the part of the defense.

Application was made by the prisoner's counsel for a new trial, which motion was overruled by the Court. We understand that the case will be taken up to the Supreme Court on writ of error. Below are the names of the jurymen before whom the case was tried: Jas. Simpson, Enoch French, J. H. Hogan, P. L. Wise, J. A. Hawks, A. G. Bowman, John Clements, G. W. Johnson, Henry Kilmer, Wm. Dickinson, John Wolpert, E. S. Outler.

We herewith give a detailed description of a steamer built here during the past winter. It was launched last Thursday, and now lies at the city levee, awaiting the machinery. The hull was built by Jas. O'Neill & Co., under the immediate supervision of Wayman & Curtis, who also made the boiler at their machine shop in this city, and who are part owners.

The boat is 63 feet long and 16 feet beam; depth of hold, 3 feet; she will be provided with two engines, of 25 horse power each; is to be a side-wheel steamer. The boiler is a tubular. Her guards will be 3 feet wide. She is intended to run to Omaha and Nebraska City, and as she will only draw 12 or 14 inches, when all the machinery is aboard it may be she will make an occasional trip on the Platte. She is intended to carry wood, grain, &c., and we hope the gentlemen who own her will be well paid for their venture in this enterprise. The cost of the boat is about \$5,000. No name has been given her yet. It is expected that she will be ready for business in about two weeks. Success to her.

We are in receipt of the Merrick county News, a lively Republican paper, published at Lone Tree, Nebraska. The paper deserves the support of the people of that section of Nebraska, and will, no doubt, receive it.

If you wish to buy a suit of clothes cheap and of the latest style, and patterns call at the Elephant Clothing Store. Newman keeps good goods and sells cheap.

DENTAL.

Dr. M. H. McClusky will be in Plattsmouth on Monday, 22nd inst. and will remain for two days. Persons wanting dental work done can be accommodated by leaving their orders at the office of Dr. Livingston or by calling.

We have just been shown a letter from a lady living at Savannah Mo. to W. J. Hesser, of this city, acknowledging the receipt of a large lot of Plants and Flowers previously ordered from him, in which she says; they have always sent East for plants and flowers, but happening to see his Catalogue this spring gave him an order. The lady says they are the finest assortment ever seen in that section; setting all the neighbors wild, and Mr. Hesser may look for large orders, &c. &c. Hesser uses Printer's Ink, freely, and the Herald Office does his work; "Do you use it?"

Our democratic exchanges come to us with glowing editorials on the magnitude and enthusiasm of the Cooper Institute Liberal Republican Democratic Meeting on the 12th inst., in New York.

As Democracy contemplates furnishing nine hundred and ninety-nine thousandths of the votes for this cause and to control its administration if successful, as well as hold the offices, it is peculiarly in their line to do the blowing.

SHADE TREES.

Many of our citizens are planting shade trees along their side walks. This is a most commendable work and will contribute largely to the fine appearance of our streets. What in propriety would there be in our city council passing an ordinance remitting a certain amount of taxes on each person who planted shade trees along our side walks? The whole method of might be systematized, regularity in size, kind, distance apart &c., be obtained and a slight remission of so much per tree, set out in accordance with such ordinance, be made an inducement that would go far to improve the beauty of the town. Let our city authorities take hold of this in time.

Mr. Guthman of the firm of Guthman & Hubert arrived home from Germany last Tuesday. Mr. Guthman has been on a visit to his friends there. We are glad to welcome Frank back to Plattsmouth, as he is one of our best citizens. He is perfectly satisfied with Nebraska since his return.

Mr. J. H. Downing, correspondent and agent of the Council Bluffs Nonpareil, was in the city this week working up his paper. He met with considerable success, and will call again before he quits the canvass in Nebraska.

Now I am ready to show you the

nicest assortment of jewelry ever bought in this market, and I will sell everything in my line cheaper than ever sold here before, watches and clocks carefully repaired and warranted. You will find me at Wm. Stadelmann's Clothing House.

A Very Valuable Number

Of Health and Home for April 20 is before us. Besides several fine engravings and the usual good assortment of excellent reading for all departments of the household, a Supplement in this number gives an account of a four years' Libel Suit brought against the Publishers for exposing Humbugs, in which the important rulings of Judge Brady of the N. Y. Supreme Court, and the testimony of leading physicians, take advanced ground in regard to the responsibility of manufacturers and dealers in patent medicines. This will be specially interesting, not only to Lawyers, Physicians, and Druggists but to all who buy and use medicines, and to those who have been swindled by humbugs. A prominent feature, however, of this number of HEALTH AND HOME is the NEW STORY by Dr. Eggleston, author of the "Hoosier Schoolmaster." The new story is entitled "The End of the World," illustrating life and scenes in the West thirty years ago. It is confidently believed that this will be one of the most attractive and useful American Stories yet brought out. Get this number especially, either of your newsmen, or send a dime and get a postpaid copy from the Publishers, ORANGE JUDD & CO., 245 Broadway, N. Y.

DIED SUDDENLY OF HEART DISEASE.

How common is the announcement. Thousands are suddenly swept into eternity by this fatal malady. This disease generally has its origin in impure blood filled with irritating, poisonous materials, which, circulating through the heart, irritate its delicate tissues. Though the irritation may at first be only slight, producing a little palpitation or irregular action, yet by and by the disease becomes firmly seated, and inflammation or hypertrophy, or thickening of the lining membrane or of the valves, is produced. How wise to give early attention to a case of this kind. Unnatural throbbing or pain in the region of the heart should admonish one that all is not right, and if you would preserve it from further disease, you must help it to beat freely by the use of such a remedy as shall remove the cause of the trouble. Use Dr. Pierce's Golden Medical Discovery before the disease has become too seated, and it will, by its great blood purifying and wonderful regulating properties, effect a perfect cure. It contains medicinal properties which act specifically upon the tissues of the heart, bringing about a healthy action. Sold by all first class druggists.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.
