BRONCHITIS. This is an irritation or inflammation of the bronchial tubes, which carries the air we breathe into the lungs. It arises from a cold settled in the throat, from Catarrh extending to these parts, from scrofulous affections, and from severe use of the voice. The irritation from this latter cause commences in the larynx and glottis, which are the organs of the voice, and extending downwards, produces hoarseness, coughing and spitting mucous matter, sometimes mixed with blood. It is chiefly dangerous from its tendency to spread into the lungs, and terminate in consumption. It is in the cure of severe and obstinate cases of this disease that Dr. Pierce's Golden Medical Discovery has achieved unparalleled success, and won the loudest praise from all who have used it. It is sold by all respectable druggists.

PLANTING TREES ON THE R. & M.

A Double Snow Fence of 200 Miles.

The B. & M. R. Company is taking advantage of the level and fertile region through which its line passes, to erect a snow shed and wind brake all at the same time and at little cost. It has commenced this spring to set a double row of white willows on the north side of its track from Plattsmouth to Fort Kearney. The first row is fifty feet from the track, as near as may be according to the lay of the land. The second row, fifteen feet inside of the first. The willows are set close together so as to make a hedge. It grows rapidly, and in a year or two the company will not only have a pretty good fence against stock, but will have a "snow shed" that will effectively prevent drifting across on the track. The willows are being set this season upon ground broken or cultivated heretofore, but the company are breaking the line clear through, so that the whole work can be completed next year.

Members of the Oliver family also signed a petition for Boyd's pardon but sent it to District Attorney Cowin to do as he thought best with it and it was not sent to the Governor.—Omaha Herald.
