It being an undoubted fact that our State, on which their representation is based; and that many of the newly organized counties can pell a large vote, we suggest to the State Central Committee, soon to meet, the propriety of allowing all such counties another representative in addition to the one now allowed them on being organized at all. There is no precedent for this we grant, but needs must make precedents, and this measure is so manifestly just and right that the Committee will be warranted in making such a rule.

It is a common remark that the south will go for Greeley. Did you ever reflect on the reason? Is it because they like him, or naturally choose him as their champion? Most emphatically it is not; but solely and only that they might by he aid of disappointed Republicans Democracy once more obtain the controlling power in this government. For now at work. Let Greeley succeed, and will! once more the south is in power. Once more the very same coalitions will govern the country. It is charged by prominent opposition western counties have increased greatly papers in this State, that after all Grant in population since the last vote in this does nothing for the poor soldier. No soldiers are appointed to places; while we deprecate the principle in toto, of rewarding men for simply doing their duty it may be just as well to set this statement right, and show up more of the foolish and inconsistent charges made against this administration.
