COMMUNICATED.

A railroad simply passing through a district is a damage to all near its track. It only becomes a benefit when suitable depots are maintained at natural business

points. The engineers of the proposition to be submitted on the 28th of December are well aware of this fact. Their first proposition named only Plattsmouth; but finding this too barefacedly selfish, they concocted another and took in Greenwood as an ally. Both of these propositions have been got up so quietly and quickly that but few of those interested will know anything of what is brewing until they see the election notice, and it is very probable that some will not know an, thing about the matter antil it is all fixed that only two places in the county are to be certainly bene fitted by the saddling the county with a

debt of \$330,000. It is not at all surprising that railroad companies should desire to run through the county-"just where they please"like General Sherman in his march to the sea. This makes their golden opportunity; some rival points will offer their bottom dollar for the only benefit LIVERY STABLE. which such a road can give, and that in addition to their share of the county bonds. In fact, if such a company is not bound in the contract, they can make or unmake a town just as suits their in terest, by a simple vote of the corporators in New York or Boston. Voters along the river precincts below Plattsmouth, and in the interior of the county, are you certain that after giving these bonds you will have any nearer point than you now have at which to sell or ship your produce? You have no such certainty. You are required to go it blind! The originators of this scheme! are well aware of these facts, and have planned accordingly. They are wide awake to the fact, that below on the river, and westwardly from the river, there is a considerable amount of valuable property that may possibly be mortgaged for their benefit. But they have wholly ignord the other fact that there is an intelligent population, who "know their rights and dare maintain them."

There are quite a number of people in Rock Bluffs who have a lively recollection of the farce that was played on Rock Creek on the day of voting for Beautiful Waltzes, worth at least \$35 in sheet county bonds for the B. & M. road. A form oth- FAVORITE ordering surveyor was seen with his aids and in- be particular to ask for Peters' Epition of struments, professedly taking lengths STAAUSS' WALTZES, as it is the only correct and and levels and loudly proclaiming that dress, J. L. PETERS WALTZES. the B. & M. must cross there, and that the company had so determined? Such wool won't blind the people now-a-days, depend on it.

Rock Bluffs has been the butt of many contemptuous and invidious remarks, made privately and publicly, particularly in regard to their firm and continuous From \$5 to \$8 per day; can be pursued in your own neighborhood, and is strict ly honorable. Particulars free, or samopposition to all county bonds which did | ples that will enable you to go to work at not make their place a point for the once, will be sent on receipt of two three transfer of goods and passengers—so has cent stamps. Plattsmouth—not a vote for county 97d5t-292 202 Washington St., Boston, Mass. bonds could be wrung from thence with out this special provision-which is the selfish party? Down here we have many verbal prom-

ises and assurances, but what of that! An individual corporation may make honest and candid statements, but will always be outvoted by the company when his views interfere with their intedividual, "it has no body to be kicked nor soul to be damned." Besides, before election, these assurances are too Promptly Executed. All work Warranted many to be all fulfilled; some one must be cheated. We believe in the old adage: "Those who dance must pay the fiddler;" and in accordance with this have voted \$29,000 of precinct bonds for TWE NUMERICAL SYSTEM. The best use, For descriptive circulars, address. the privilege asked. We are also falsely charged with opposition to a road running westwardly through the county.-Truly this road might in the end somewhat interfere with our interests; but instead of opposing it we accidentally found out that the Commissioners would meet on the 13th instant, and we tried to dispel this accusation, and also, when the first proposition for county bonds was abandoned and another presented to the Board, we procured the signatures of 86 voters to the fact that we were not opposed to county bonds for that road, provided, that the call for the election was so worded that it would not interfere with our interests in the Trunk road, and could have got nineteen twentieths of all the voters in our precinct to sign the same had the Commissioners allowed more time; but they refused to allow it, and after a hurried reading our papers were thrown on the table without any consideration whatever. The Board, of course, had their own reason for this summary proceeding, but we could not see it.

Brags are made that 600 majority can be got for the last proposition made to tax the county \$330,000 for the certain and especial benefit of two points, both on the outermost limits of the county; but, if the rest of the county vote for bonds and tax also, the majority will find sometime during 1873 how good a thing it is to be pushed out in the cold by a scheming Ring, and a contention will be inaugurated that will disturb the peace of the county for years to come. ROCK BLUFFS.

November 27th, 1872.

Our attention is particularly called to the fact that t-r-a-p spells part backwards, by a late issue of the State Journal; but what it spells upside down we couldn't tell.

The Chronicle man must certainly be going crazy. Of all the muddles ever out in print he takes the lead. Two lictionaries, three rhetories and six spelling books, cannot keep track of him through the depths of a first class edite-

NON-FORFEITING

Dividends on the Contribution Plan.

Securing the Greatest Pecuniary Advantage to the Pelicy Holders

REASONS FOR INSURING IN THIS COMPANY:

1st. This is a Western Company, managed by Western men, whose known finaecial character, ability and position, afford ample guaranty for its careful and successful management.

2d. Its Policies are all Non-forfeiting.

3d. Premiums all CASH. It receives no notes and gives none. Policy holders have no inrest to pap, add no oustanding notes as liens upon their pol-4th. It has so restriction upon travel.

5th. Its dividends are made upon the contribution plan.

DIVIDENDS

Are the accumulation of interest upon premiums paid, hence the Company that loans its assert at the highest rate of interest can give you the largest dividends. Fastern companies invest their moneys at 6 per cent., while this makes its investments at twelve per cent. or more.

The advantage of Western investments to the policy holder appears in the following startling Are the select rate of interest the highest rate of interest moneys at 6 per cent., while this makes its interest for advantage of Western investments to the policy house figures: The amount of \$1.000, invested for fifty years at 6 per cent. compound interest, is 46,901.64 117,360.85 olicholder than any othernancial advantages and inducements; to "the
