A Splendid Chance. We will send the Herald and Democrat's Monthly, which is \$3 for one year, to any person who will send us a list of extraordinary premiums.

The large chandelier in the first Presbyterian church at Nebraska City fell on Monday night just as the crowd who had been attending Union prayer meeting were leaving the church.

Lincoln is ahead; a girl of twelve gave birth to a healthy child Wednesday night. It is called a freak of nature.

The Statesman says, Wicker-han & Elliot, the well known real estate dealers of Omaha and Council Bluffs, will make the citizens of Plattsmouth happy by opening a cheap coal yard there.

The World's Fair to take place at Vienna in 1873, is an event of the utmost importance to mankind, to our Western world, and we say, to the people of our own State.

IMMIGRATION.

Something should be done by the next Legislature to encourage and direct emigration to our State. We have gained largely during the past two years.

We presume it fair to assume that those constituting the Board have meant well, and have endeavored to discharge their entire duty, and we do not doubt that their efforts have had their influence in securing a portion of our newly acquired wealth and population.

One mistake was made, in expanding an appropriation made in covering two years during the first twelve months of their administration, thus crippling the operations of the Board materially during the past year.

It is the future that most concerns us. We have no plan or project to offer at present, although we may find something to say when the Legislature reaches the question, if it ever does.

THE CHRONIC CRACKER OF THE OMAHA HERALD has howled dinorally for months over the condition of the University funds, alleging that the money were corruptly used for the benefit of a ring.

POSSIBLY OUR READERS TAKE NOTICE that the late political campaign, the Democrat press all broke out at the same time with a horrible disclosure made by General McCook, in which he charged with bribery in connection with legislation in the matter of Credit Mobilier Co. Speaker Folger, Senators Wilson, Patterson, Rice, Hendon, Colwell, and others, if Republican, were accused of having taken shares of the company's stock in exchange for votes.

CONGRESS HAS PASSED A RESOLUTION of investigation having called Samuel Cox to the chair, and requested Mr. Cox to appoint a Democratic committee, which committee have been for several days in session with closed doors; but the other day Mr. Brooks, a leading Democratic editor and member of Congress from New York, arose in his seat, and proceeded to defend himself from supposed evidence before the committee, implicating him as having sold out himself and his party to the Credit Mobilier for a goodly amount of stock.

WE WELCOME THE ANNOUNCEMENT that the sleigh bells were ringing yesterday and that great gusts of wind and blizzards were overcast the night. The snow is not deep, but oh, my, it is cold! One good thing the "epidemic" is about frozen out here, and the horses are just all crazy for exercise, so I fancy we shall get some good sleigh rides at all events.

LETTERS FROM TIP-TOP.

MILWAUKEE, Dec. 18th, 1872. DEAR HERALD:—We crossed the old muddy on the ice. Conductor Moore and Mr. Brown piloting the way to keep us out of our holes (there were holes in the air all round by the way the cold rashed in) and Tim Riordan brought us the rear to pick us out and pack our trunks back to the HERALD office if we fell in. In single file, by double lines we reached the "keers" and soon rattled over to the junction where the great long Platte River crosses swallowed us up and in a moment we were off—"going east." What memories do these few words bring to mind.

At the meeting we had the pleasure of meeting Mr. E. N. Tazewell and said good bye to him and his lovely for the southwest. Sup. Strong, of the R. & M. V. kindly fixed up a little business for us in returning and then we made a pleasant call at the Land Office's of this company, and were introduced to Prof. Baker the great Agricultural and Land Editor of the R. & M. Company. The pleasant face of G. M. Harris, the Commissioner, beamed down on us as a moment, and Johnny Hill, an old General, who had been many of us will remember, showed us the large collections of the produce progress and industries of Iowa and Nebraska gathered at this headquarters to send to all parts of Agricultural wealth of the land, off and on the shelves in these states. A great bag of black earth is labeled "Nebraska soil" and it looks rich and dark and warm and grows by the side of the clean white coals in which it is placed.

THE ZEPHUS has barely left Burlington and we were obliged to walk from the depot to the hotel. In Chicago, we met many of Nebraskaans. J. D. Cooper at the Big Horn, M. C. Wilbur, Cor. 21 and State streets, and William Wood all of Omaha met upon a time and Mr. Cooper, E. D. we believe, formerly of Plattsmouth.

WEDNESDAY MORNING it was snowing finely and the weather changed in a few hours to a coldly moderate to somewhat cold. Thursday we were on Milwaukee, and we have not stopped long enough since for me to tell you about the burnt district, the country or the folks we have passed along. In some former letter we shall treat all these subjects at more length; for the present good bye.

THE MASSACHUSETTS LEGISLATURE have passed a bill for the incorporation of the course of Charles Sumner in introducing a bill to take the names of the battles fought in the great rebellion from the army register and to have the names of the battles to be in order of their principles. She is loyal to the Union, and neither Charles Sumner nor any one else can lead her away from her allegiance to the Union.

WE HAVE BEEN UNABLE TO LOOK AROUND much, as the windows on the cars were all frozen up and the house also is sufficiently frosted this morning. From a glimpse now and then, should say it was rather a stumpy country, and the rocks around loose just as if they were last night. It did not taste like winter, but it was not in fact like anything else much but water. You will remember that Chief Justice Chase came here last summer to try the waters, and thought he received great help therefrom.

OF COURSE THINGS ARE DULL AND QUIET now, it being dead winter. The town is very thinly situated I should think, and the people seem to think that no other place in the known world, climate, health and other blessings. What a happy thing it is in this world that there are people that their own land is the best. Monday we shall try and go up to Des Moines, we shall try and go up to Des Moines, we shall try and go up to Des Moines.

WE WELCOME THE ANNOUNCEMENT that the sleigh bells were ringing yesterday and that great gusts of wind and blizzards were overcast the night. The snow is not deep, but oh, my, it is cold! One good thing the "epidemic" is about frozen out here, and the horses are just all crazy for exercise, so I fancy we shall get some good sleigh rides at all events.
