Liniment. J. B. Rose & Co., New York. 46-19 The illustrations of the Aldine have won a

tist's original.

To fully realize the wonderful work which the Aldine is doing for the cause of art culture in America, it is only necessary to consider the cost to the people of any other decent representations of the productions of great painters.

In addition to designs by the members of the National Academy, and other noted American artists, the Aldine will reproduce examples of the best foreign, masters; selected with a view to the highes artistic success and greatest general interest. Thus the subscriber to the Aldind will, at a trifling cost, enjoy in his own home the pleasure and refluing influences of true art. true art.

The quarterly tinted plates for 1874 will be by Thos. Moran and J. D. Woodward.

The Christasos issue for 1874 will contain special designs apprepriate to the season, by our best artists, and will surpass in attractions any of its predecessors.

Premiums for 1874.

Every subscriber to the Aldine for the year 1874 will receive a pair of chromos. The original pictures were palated in oil for the publishers of the Aldine, by Thos. Moran, whose great Colorado picture was purchased by Congress for ten thousand dollars. The subjects were chosen to represent "The East" and "The West."—One is a view in the White Mountains. New Hampshire; the other gives The Cliffs of Green River, Wyoming Territory. The difference in the nature of the seenes then selves is a pleasing contrast, and affords a good display of the artist's scope and cobaring. The chromos are each worked from thirty distinct plates, and are in size (12x16) and appearance exact fac-similes of the originals. The presentation of a worthy example of America's greatest landscape printer to the subscribers of the Aldine was a bold but peculiarly happy idea, and its successful realization is attested by the following testimental, over the signature of Mr. Moran himself.

Messrs James Sutton & Co.

Messrs James Sutton & Co.

Gentlemen:—I am delighted with the proofs in color of your curomos. They are wonderfully successful representations by mechanical process of the original paintings.

Very respectfully.

(Signed) These chromos are in every sense American.
They are by an original American process, with
material of American manufacture, from designs of Effection scenery by an American signs of Afnerican scenery by an American painter and presented to subscribers to the first successful American Art Journal. If no better because of all this, they will certainly possess an interest no fereign production can inspire, and neither are they any the worse if by reason of peculiar facilities of production they cost the publishers only a trifle, while equal in every respect to other chromos that are sold singly for double the subscription price of the Aldine. Persons of taste will prize these pictures for themselves—not for the price they did or did not cost, and will appreciate the enterprise that renders their distribution possible.

If any subscriber should indicate a preference for a figure subject, the publishers will send Thoughts of Home," a new and beautiful chromo, 14x20 lhehes, representing a little Italian exile whose speaking eyes belray the longings of his heart.

Terms: \$5 per annum, in advance, with Oil Chromos free. For SO cents extra, the chromos will be sent, mounted, varaished, and brepaid by mail.

The Aldine will, hereafter, be obtainable only by subscription. There will be no reduced or club rate; cash for subscriptions must be sent to the publishers direct, or handed to the local canvasser, without responsibility to the publishers, except in cases where the certificate is given, bearing the fac-shalle signature of James Sutton & Co.

Canvassers wanted. Any person wishing to act permanently as a cal canvasser can receive full and prompt in-smation by applying to JAMES SUTTON & CO., Publishers, 28tf S Malden Lane, New York.
