NEWS AND POLITICS.

A Mr. Gage, Democratic City Treasurer of Chicago is "short" about \$300,000. Go for him, now, you hard shells, about the country.

Some way says there is a striking parallel between the modern Democratic party and Sodom, thusly: Sodom had not five righteous people to save her, and the Democrats have only four—just that number of the opposition voted against Fernando Wood for speaker, and against pack-pay.

A company of Chinamen in Louisiana committed their money to the safekeeping of a banker of their own race. The banker, corrupted by American example, became a defaulter, whereupon his swindled countrymen cut off both his hands. And yet we have the assurance to speak of the Chinamen as ignorant and uncivilized heathens.

A disastrous hurricane visited Sheffield, England, on the 16th, and destroyed much property. It extended to Glasgow, Halifax, Sremsbury and Nottingham. At Leeds much damage to property was done; and many lives were lost.

Mr. B. G. Hoover sends us a "Sub." from Louisville, and calls our attention to the fact that we gave another party credit for it, and some more "subs," sent us, under a mistake. We were not in, and our better half reported the name of the party sending the names and made a mistake in the man. Beg pardon, Mr. Hoover, and next time will be more careful.

General L. F. Reed, of Weeping Water, called to see the HERALD, and says we weren't home. We can't collect news, bills, investigate the High School, Common Council, pay our debts and post our letters, and be always in the office. Come again, General.

General of what, asks Reed? General of the best way to set goods, and the proper way to advertise them, of course.

John Wright, good friend of HERALD, called Tuesday. Business.

S. A. Taylor, Life Assurance man in town again.

Hesser, the great Florist, of Nebraska, begins to turn up in the HERALD office again. We thought he had forgotten poor little "we."

We have been trying for three numbers to get in a notice of our educational editor, B. S. Ramsey, at Rock Bluffs, and to say how well we think he has done his work and how we've accomplished it.

At last the House of Representatives, at Washington, have come to some conclusion about the increased salary business. After much wrangling and unseemly crimination and re-crimination, they passed a bill reducing the salary of a Congressman to \$6,000 per annum and mileage at cost, for the actual distance passed over.

A Brownville lawyer fills his cistern with huge snow balls.

Among unfortunate people lost on the Ville de Havre were three from Otoe Co. Nebraska. Their names were Marconnet, father, mother, and daughter. They were on their way to France to visit the aged mother of the elder Marconnet.

The Farmers' Institute met at Fairbury on the 4th inst., with Prof. S. R. Thompson as President, A. S. Elgerly, Sec'y, and Rev. S. M. Taggart, Treasurer. The first day was occupied in discussing the raising of corn, and in the evening Hon. J. M. McKenzie delivered a lecture on "Home Training and Work of Farmers' Children." Gov. Furnas also gave a short address on the "Relations and Duties of Farmers to Themselves. The second day was devoted to the discussion of wheat, with a lecture from Prof. Thompson on "How a Free Grower." In the afternoon Mr. H. Raymond read an address on "High Culture in Nebraska," after which followed discussions on the growing of small fruits in Nebraska.

Thursday A. M. stock-raising was the topic, and hedges and hedging in the afternoon. In the evening the report of the Committee on Agricultural Education was to be discussed and acted upon.

The Council Bluffs are trying to get Army Head-quarters moved from Omaha to Council Bluffs, on the ground of economy, and state that hay, grain &c. are so much cheaper there.

This flourishing county paper has lately been making some changes in its business management. M. H. Hathaway, formerly of this office, takes charge of matters from this time on, and the Seward people seem very well pleased with the change. They will find Mr. Hathaway a good printer, an honest man, and a No. 1 citizen.

Obituary notice of Mary Pronger will appear next week. Too late for this issue.

Gen. Cunningham is home from his great buffalo hunt and the HERALD rejoices in about half a young "Buff-her."

An estimate of the politics of the present Congress is as follows: Senate, 54 Republicans; opposition, 22; Republican majority, 29. House, Republicans, 197; opposition, 99; majority, 138.

The Committee of Invitation may have omitted to send an invitation to the Annual Masonic Festival, to be held Dec. 26th, 1874, to some of the Fraternity. Should any have been thus omitted; this is an especial invitation to each and every such Brother to attend with his ladies. It would be a wonder almost if some name had not been overlooked, in making out a list of 500 and sending them out.

D. H. WHEELER, Ch'n of Com. CHRISTMAS DAY!

We have received notice that the "First National Bank" of this city will be closed on CHRISTMAS DAY, and we hope and desire that all business men will close their stores on that day, and for these reasons, First: it is the day celebrating the birth of the Lord Jesus Christ, the founder and the head of the Christian Religion, as understood at this time and in this age. We profess to be a Christian people; we have churches that teach religion, and schools that ought to. Few have the hardihood to deny the great truths of Christianity or the existence of an overruling God, and the story of his Son Christ, although we may differ as to particulars, in the manner of worship accorded to Deity. What more fitting, then, than that we should keep and solemnize this day, not as one of fasting and gloom—but as one of rejoicing, with reasonable feasting, and use of the things that make glad the heart of man, because a Redeemer of the world was born on this day.

Second: We Americans have too few holidays, too little rest from business; our men, our boys need more. Not that we would encourage laziness, by any means, but a reasonable relief from business, at stated periods, is absolutely necessary to the perfect physical health and development of the body, and certainly adds to the power and strength of the mind and its fitness for the business of life whatever that may be. Please close the stores, then, and make the day one of sensible, temperate enjoyment.

Third: We Americans have too few holidays, too little rest from business; our men, our boys need more. Not that we would encourage laziness, by any means, but a reasonable relief from business, at stated periods, is absolutely necessary to the perfect physical health and development of the body, and certainly adds to the power and strength of the mind and its fitness for the business of life whatever that may be. Please close the stores, then, and make the day one of sensible, temperate enjoyment.

Fourth: We Americans have too few holidays, too little rest from business; our men, our boys need more. Not that we would encourage laziness, by any means, but a reasonable relief from business, at stated periods, is absolutely necessary to the perfect physical health and development of the body, and certainly adds to the power and strength of the mind and its fitness for the business of life whatever that may be. Please close the stores, then, and make the day one of sensible, temperate enjoyment.

Fifth: We Americans have too few holidays, too little rest from business; our men, our boys need more. Not that we would encourage laziness, by any means, but a reasonable relief from business, at stated periods, is absolutely necessary to the perfect physical health and development of the body, and certainly adds to the power and strength of the mind and its fitness for the business of life whatever that may be. Please close the stores, then, and make the day one of sensible, temperate enjoyment.

Sixth: We Americans have too few holidays, too little rest from business; our men, our boys need more. Not that we would encourage laziness, by any means, but a reasonable relief from business, at stated periods, is absolutely necessary to the perfect physical health and development of the body, and certainly adds to the power and strength of the mind and its fitness for the business of life whatever that may be. TELEGRAPHIC!

Key West, Fla., Dec. 19. The Virginian left the Tortugas at 12 o'clock last night, in tow of the United States steamer Ossipee.

Santiago De Cuba, Dec. 18, via Havana, Dec. 19.—The surviving passengers and crew of the Virginian were delivered to-day to Commander Braine, of the United States steamship Junata. They sent on board the vessel, which soon after took her departure from New York.

It is authoritatively stated that the transfer of the Pacific and Atlantic Telegraph Company to the Western Union, covers three leases of stock, and is to pay four per cent, per annum on the capital of \$2,000,000.

New York, Dec. 20. Authorities at Washington have ordered the cessation of all extra work at the Brooklyn navy yards.

New York, December 18. The Times' special from Key West says Admiral Scott, Commander of the North Atlantic squadron, has received official dispatches of the delivery of the Virginian. She was surrendered to the United States representatives at nine o'clock, Tuesday morning, Dec. 16th. Commander of the Spanish frigate Isabella la Catolica, the man-of-war which had conveyed the captured vessel from the harbor of Havana, formally delivered the Virginian to Commander Whiting of the United States steamer Dispatch at Bohia Honda.

On the arrival of the Dispatch, formerly called the America, at Bohia Honda the Spanish commander, who was waiting her arrival, visited the vessel. Commander Whiting then placed the under Life of squadron, with 39 men, in charge of the Virginian, and conveyed her eight miles out to sea. The Virginian steamed for the Tortugas to take coal, which had been taken there on Thursday. From this port in three schooners, in charge of the sloop of war Assepe, Cordial civilities were interchanged between Whiting and the Spanish commander. The Virginian will sail for Norfolk after taking on coal. The prisoners are now at Santiago, where they will be delivered on the 25th of December when the American flag will be saluted with 21 guns. The same salute is ordered by the Spanish authorities to be fired from Maro Castle at Havana harbor.

The following are some of the many points in which the Florence excels all other Sewing Machines: In doing more styles of work. Winding and changing the Bobbin without removing the goods. Sewing in opposite directions. Accuracy of tension. Choice of Side or Back Feed. Simplicity of threading. Lightness in running. Elasticity of stitch. In requiring no kind of goods. Ease of setting needles. Fineness and neatness of Stitch. In saving thread. Rapidity and ease in winding bobbins. Absence of eggs, caps, and springs. Ease and rapidity of regulating stitch. In quality of hemmer and attachments. In variety and styles. In lack of needless cutting cloth. In fastening ends of seams, and many other points.

We challenge all competitors to dispute any of the above statements. For over twelve years not a single Florence has ever been worn out in family use.
