that a messenger be sent for a doctor. This

man refused to give the assistance asked, and the heart-broken woman took her weary way

to the railroad track, hoping to halt a passing train and obtain some aid in her dire necessity.

There beside the rails she stood in a drench-

striving to snatch from the brink of the grave

the lives of her loved ones. Exhausted nature at last demanded relief, and without a

ray of hope she sought the mockery of a home. The exposure and her condition were

too much for her feeble frame, and she too succumbed to the fever; hope fled, and in a

stupor of despair she laid herself down to

die, praying only that the end would come

quickly. The father died first-starved; then

a little boy closed his eyes and was in a land

mile from Kaufman's hut, heard sundry ru-mors of the sad condition of the family, and

repaired to their relief, fortunately in time to save from the death of hunger, at least, the mother, whom he found in the agonies of

childbirth. There was not an ounce of food

in the house, nor a soul at hand to render as-

sistance to the suffering woman and her little daughter. Mr. Chapman hurried to Lewis-

burg, and sent a doctor to the house, promis-

peals and his pitiful story. He could not get

A FEW days since we noticed the fact that many of the engineers on the New York Central Railroad were obliged to make three trips per day-given no time to rest, or hardly to eat. We have a case one of the engineers on the Central Railroad, who had been making his three trips per day for several days, and was on a turn-table in Buffalo, awaiting the to collide almost immediately with the express. The only damage done was to property. This engineer was discharged immediately from the service of the company.
