What has proved true in Connecticut the silent force of a hydraulic press and true nature of the new-party movement.- their interstices there trickled down the beds every night when blossoming. The Chicago Journal.

A Heroine of the War.

Washington correspondent, " is a heroine who was one of the few loyal inhabitants of R chmond when the days were darkest or Northern people. The horrors of Libby prison were unmitigated, and every effort to relieve the wretched victims exposed the helpers to equal hardships. Notwithstanding this vigilance four of the prisoners by some chance managed to partially excavate a passage for escape, when suspicion was aroused and their plan threatened with discovery The inevitable consequence would be death, of course. Even if they could have got out of the prison their condition would not have been much better, for they were utter strangers to the country. In this extremity the news of her compatriots' peril was brought to this brave woman. She sent word to them that if they could get ou side the walls by the earliest dawn the following day she would nay be sure. Poor creatures, it was for life itself they were trying, and in the faint gray, cold morning light their eyes fell upon a tall, hand some market-woman. who signaled them to follow her. They did. She walked boldly along the highway with her basket of vegetables on her head, they creeping stealthily through the brambles in the wood that skirted the road. And so she guided them twelve miles-remember they were men whom she never saw before, and to serve them she was abandoning her husband and her home, for there was no going back into Richmond after that. They all reached the Union line safely, and subsequently 105 more escaped by that same subterranean passage. Her husband rejoined her shortly; the men she never has heard of again, nor would she know them if she ed it carefully. Seid, however, is waiting did. They never saw her face, nor she for me, and I must defer to my next the theirs."

APPLE BREAD .- Weigh one pound of

has grown stronger and firmer as the years have marched apace, and, like a giant, its arms encircle the world. There must be some potent reason that has produced this wonderful result. That reason is the simple fact that the Elastic Truss is worn night and day, with comfort, retaining rupture in perfect ease, causing no inconvenience, can never be dis-placed by the hardest exercise 'yielding and adapting itself to every motion of the body, but always hold-ing the rupture safely, and soon effects a perfect and permanent cure. This new and wonderful invention has produced a radical revolution in treating Rup-ture, and has absolutely driven out of use all the wretched metal finger-pad and spring trusses that for-merly cursed the community and made life a burden to so many thousands upon thousands of suffering ones, who now are happily enjoying once more the bless-ings and comforts of existence. The United States Government and Surgeon-Gen-eral at Washington have arranged with the Elastic Truss Co. to supply their new Truss to such Pension-ers, Soldiers, etc., as are entitled to a Truss and may desire it. Such persons may apply to any one of the U.S. Pension surgeons throughout the country. Full descriptive circulars, with directions, etc., sent free on request, and the Truss is sold cheap and sent by mail to all parts of the country, by 42 functions of the digestive organs. Fortify the body against disease

by purifying all its fluids with VINEGAL BITTERS. No epidemic can take hold of a system thus fore-armed.
