Iowa Republican Platform.

The resolutions adopted by the recent Republican State Convention of Iowa are as follows:

We, the representatives of the Republican party of the State of Iowa, in convention assembled, do

adopt the following platform of principles: *Resolved* 1. That, as the policy of the Republic can party in relation to finance has afforded the people not only a safe, sound and popular cur-rency of equal and uniform worth in every por rency of equal and uniform worth in every por-tion of our common country, but has likewise greatly improved the credit of the country, at home and abroad, we point with pride to its record and accomplishments in this regard, and, while reaffirming the policy announced by the party in the National Conventions of 1868 and 1872, and triumphantiy indersed by the people at the polis- a policy which, while contributing to the polis- a policy which, while contributing to the public credit, has also enhanced the individ inal and collective prosperity of the American people—we favor such logislation as shall make national banking free to all, under just and equa laws, based upon the policy of specie resumption at such time as is consistent with the material and industrial interests of the country, to the end that the value of the country. that the volume of currency may be regulated b

That we reaffirm the declaration of the Re publican National platform of 1872 in favor o he payment by the Government of the Unite States of all its obligations in accordance wi both the letter and the spirit of the laws under which such obligations were issued; and we de-clare that, in the absence of any express provision to the contrary, the obligations of the Govern-ment, when issued and placed upon the markets of the world, are payable in the world's currency— lowit, succio.

3. That under the Constitution of the United States Congress has power to regulate all com-merce among the several States, whether carrier on by railroads or by other means, and in the exercise of that power Congress may and should s legislate as to prohibit, under suitable penaltic extortion, unjust discrimination and other wron and unjust conduct on the part of persons at corporations engaged in such commerce, and, by virtue of the same constitutional power. Congress may and should provide for the improvement of our great natural water-ways.

6. A. That the State has the power, and it is its duty, to provide by law for the regulation and control of railway transportation within its own limits, and we demand that the law of this State. mains, and we demand that the last session of the passed for this purpose at the last session of the General Assembly, shall be upheld and enforces until it shall be superseded by other legislation or held unconstitutional by the proper judicia

tribunal. 5. That we feel bound to provide all appropriat legislation for the full and equal protection of al citizens, white or black, native or foreign born in the enjoyment of all the rights guaranteed by the Constitution of the United States and by the Constitution of the United States and th amendments thereto.

6. That the twenty-seven million reduction in the estimated General Government expenses for the coming fiscal year meets our hearty commen dation, and shows that the Republican party, o questions of retrenchment and economy, is ca ying out in good faith its off-repeated piedges t

That we are in favor of an amendment to th Constitution of the United States providing for the election of President and Vice-President by direct rate of the people. 8. That while inventors should be protected in

their just rights of property in their inventious we demand such modification of our Patent law as shall render the same more fair and equitab

to constituers. 9. That the faith of the Republican party is pledged to promote the best good of the civil service of the country, and that we, as Republi-caus of lows, demand that only honest and capa-ble men be elected or appointed to office, and that we commend the position of the party in in-stituting investigations of corruption in office, construction the relation profess. sparing therein mither friends nor foes. 10. That, since the people may be intrusted with all questions of governmental reform, we favor the final submission to the people of the question of amending the Constitution so as to extend the rights of suffrage to women, pursuant to the science of the filtraneit General Assemble. to the action of the Fifteenth General Assembly -----
