

A Republican State Convention will be held at the city of Lincoln, on Wednesday, the 24th of September, 1874, at 3 o'clock, p.m., for the purpose of placing in nomination one candidate for member of Congress, one candidate for member of Congress contingent...

The organized counties are entitled to delegates upon the following basis: Counties east of the sixth Principal Meridian shall be entitled to one delegate for each 1,000 inhabitants according to the census taken during the current year, and one for each fraction over five hundred. But each organized county shall be entitled to at least one delegate.

Table with 2 columns: DELLEGATES FOR COUNTIES. Lists counties and their respective delegate counts.

The counties are recommended to elect alternate delegates to act in case the delegates elected fail to attend the convention, and the convention is recommended to exclude proxies for delegates who do not reside in the counties they represent.

F. M. JOHNSON, Chairman. C. H. GREE, Secretary.

COUNTY COMMITTEE MEETING. Remember the County Republican Central Committee meeting, to-morrow.

THE COMMITTEE ARE: Plattsmouth, 1st Ward—Jno. A. MacMurphy, 2nd Ward—G. W. Fairchild, 3rd Ward—Thos. Pollock, 4th Ward—J. W. Johnson, 5th Ward—J. W. Jennings, 6th Ward—H. H. Newell, 7th Ward—W. H. Farley, 8th Ward—H. Stauffer, 9th Ward—Ely Robb, 10th Ward—L. W. James, 11th Ward—Wm. Wright, 12th Ward—J. W. Conn, 13th Ward—Wm. Richardson.

We publish this week the call for a Temperance Convention, to be held at Lincoln on the 19th of August.

We do not approve of carrying this matter into politics at this time and do not agree with Mr. Sheldon and Mr. Slaughter, the young men who brought us the notice, that if the temperance question can only be made an issue and brought into politics they (the temperance men) are sure to win &c. We know to the contrary, and if the temperance question (as they call it) or the passage of a prohibition law is or could be made the test question in the State this fall, the advocates of that law would be badly beaten. Prof. Miller himself says so, all good judges, not biased by passion or prejudice, know this to be the fact.

A "Temperance Ticket" (as they call it) at this time, simply means to take votes from the Republican party and give them to the Democrats—Nothing less and nothing more.

Mr. Slaughter gives us a little paper called the Temperance News, which is very bitter on Dr. Miller, of Omaha, and says he has announced himself and his paper as against all prohibition laws and plainly put the Democratic party on the side of unrestricted liquor dealing. It then complains that the Republican papers never say a word in favor of temperance. This is false; every Republican paper we know of receive, has favored wise and legal restrictive laws on the liquor traffic.

It is the true policy and aim of the Omaha Herald to take an open stand against prohibition laws, because they are sure of the support of every democrat and if this were the issue, they would get a large republican or independent vote to day in the State, and Dr. Miller can afford to set back and egg on foolish temperance men to form another party which will strengthen his party and weaken the Republican party, and then chuckle to think how easy they have walked into his trap—set wide open, and the bait scarcely concealed. Yes, if we were running a Democratic or opposition paper, and running it purely for political power or pecuniary gain, we should take just the stand that the Omaha Herald does. Dr. Miller is no mean judge of the strength of the forces in this State, it is a temperance man, he cares nothing for the prohibition of the sale of liquor on his own account, or that of his friends; but he sees and knows that every temperance vote he can draw off from the Republican party this fall counts one for some opposition candidate of his own color of cloth. Now go in and help the anti-temperance element if you want to, gentlemen, but let us understand the matter and put it on its true footing. It is win or lose this fall, and the time has not come to risk all we have won on a single throw of the political dice. Temperance or Anti-Temperance. If you do, anti-temperance comes up.

OBITUARY.

SCHLEGEL—On Monday, July 28th at 11 a. m. at his residence on Orleans street, Rock Island, Ill., Catherine Schlegel, aged 76 years, a native of Germany.

The above notice was unavoidably overlooked last week, and we hereby publish for pardon of Mr. Alex. Schlegel, for our oversight.

DECEASED, was the mother of our well known citizen Alex. Schlegel, and his death leaves our friend to mourn the departure of a dear parent, counsellor and guide.

We call attention to the offer of the B. & M. R. Co. Land Commissioner in regard to forwarding the products of the soil &c. It is one of the best ways of advertising the State we know of, and we hope our people will comply with the request and forward specimens of productions at once.

The B. & M. R. Co. have just received two large forty-ton Manchester engines, direct from the shops, to be put on the road between Plattsmouth and Kearney. They are named respectively No. 15, Omaha, and No. 16, Kearney. We learn from the Master of Transportation, Mr. Geo. W. Holdridge, that a number of extra trains will be required to move the grain this season.

NEBRASKA S. S. ASSOCIATION.

STATISTICAL SECRETARY'S OFFICE, Fremont, Neb., July 1, 1874. To Sunday School Workers: Important changes in the Constitution and plans for working in our State Association, require early attention.

The Executive Committee have a large work before them, in arranging and carrying out the plan decided upon at Nebraska City, viz: to form a County Association in each County not already provided with such an organization.

Can not Christian brethren in such counties, begin the work without waiting for the committee, sending plans and wanting to them, and asking for what assistance is indispensable? The committee will respond to the extent of their ability, giving all possible assistance and co-operation.

These are for fifty counties with no County S. S. Society yet formed.—How many less shall there be next year?

The form for Reports from schools to the State and County Societies was also revised. That you may know what items of Statistics will be called for, and so arrange your Records as to be able to give accurate, intelligent answers to the questions, the following quotation from the Constitution is made. Will County Secretaries and Superintendents and Secretaries of local schools notice the items relating to each of their departments? It is desired to ascertain:

- 1. The total population of his county by Precincts.
2. Number of persons between the ages of 5 and 21 years.
3. Date of organization of first Sabbath School established.
4. Present number of Sabbath Schools in the county for County Secretaries.
5. Number of Officers and Teachers enrolled.
6. Number of Scholars enrolled.
7. Total enrollment.
8. Total average attendance.
9. Number of Scholars in Infant classes.
10. Number of Scholars in Intermediate classes.
11. Number of Scholars in Bible classes.
12. Number of volumes in Library.
13. Number of Children's papers taken periodically.
14. Number of Teachers papers taken.
15. Number of schools sustaining Teachers meetings.
16. Number of Schools open summer and winter.
17. What hour held.
18. Amount of collections for Missionary and other purposes.
19. Number of conversions during the year.

These are simple questions. If you are not now able to answer them all, changed to meet a single school, to answer as many as you can next year. Few of the schools in the State have their classification so arranged as to comply with requests in number 9, 10 and 11. Number 9, you so answer them, and should be the sum of all three. Number 13, asks for the number of copies of children's papers taken in your school, and supposing your school has 100 copies of "The Sunday Advocate" for 6 months, should read 10, not 60, which is the total number. A corresponding number should be given to number 14. Numbers 15 and 16, changed to meet a single school, should read, "Does your school hold open, summer and winter?" Try to be able to answer next year with an emphatic YES.

The above reports are required to be ready at least one month before the annual meeting. Blanks for this purpose will be forwarded to School Secretaries in ample time. A report from one quarter or one half or even three quarters of the schools in the State, is of little value. Do not think your report will do you good. Do not think you will not be benefited by sending one. Our waterword this year be "a voice from every county, and from each school in the county." County Secretaries will confer a great blessing on the proceedings of their County Conventions, as published in your county Newspapers or by your Association. Any posters, circulars, programmes of Conventions, or Institutes, and other appliances which you may make use of from time to time, will aid me in learning the history of Sunday School work in Nebraska, for our State Convention in 1875.

Now a word of caution and encouragement. Each County Secretary will find it an invaluable aid in gathering statistics to have a blank book in which to enter every item of information concerning Sunday Schools in his field. Enter these items as you gather them, or lose one. If you cannot visit all the localities in your county, inquire of your County Superintendent of Public Instruction, or the Clergy, you know concerning them. Often much valuable information may thus be secured which otherwise would remain in secret. A Postage Stamp and the free use of ink is also recommended. I invite and most earnestly urge correspondence from every part of the State. To effect all we want to accomplish, this is necessary. We can do much unitedly, singly, but little. Ask questions, make suggestions, give information freely. Don't expect to accomplish a complete and perfect record the first month, or year. Persistent determination year after year, will win eventually, but if we ever do succeed in bringing our Nebraska to the front rank in Sunday School work it will be in part, because we believe we are doing the Lord's work to some profit, and therefore we expect we are going to succeed. Fraternally your fellow-worker, J. E. GAGE, Statistical Secy., Neb. State S. S. Ass'n.

STATE CONVENTION OF THE TOTAL PROHIBITION PARTY.

A Total Prohibition State Convention will be held at the city of Lincoln, on Wednesday, the 24th of September, 1874, at 3 o'clock, p.m., for the purpose of placing in nomination one candidate for member of Congress, one candidate for member of Congress contingent...

The organized counties are entitled to delegates upon the following basis: Counties east of the sixth Principal Meridian shall be entitled to one delegate for each 1,000 inhabitants according to the census taken during the current year, and one for each fraction over five hundred. But each organized county shall be entitled to at least one delegate.

Table with 2 columns: DELLEGATES FOR COUNTIES. Lists counties and their respective delegate counts.

The counties are recommended to elect alternate delegates to act in case the delegates elected fail to attend the convention, and the convention is recommended to exclude proxies for delegates who do not reside in the counties they represent.

OUR WESTERN LETTER.

APTON, FRONTIER CO., Neb., July 26th, 1874. ED. HERALD:—Having been frequently reminded by you "better-half" that I owe you another letter as per promise, I will endeavor to discharge the obligation.

At the date of my last letter we had here but a short time upon our homestead; having now a been here some longer, and having from observation and inquiry learned something more of the locality that may be of interest to your readers, will proceed to write first about THE COUNTRY.

Let it be remembered that this country lies directly North of Red Willow county, and consequently nearer the "big divide," between the Platte and Republican rivers, at the same time for we have more water courses, i. e., the tributaries of the rivers, have each of them their tributaries, and one very significant fact will enable the homestead hunter to determine where he will find the most timber. Unlike the streams in the eastern counties, the heads of our streams here are much better wooded than the lower portions, and at the same time the bottoms grow wider and more extensive as you ascend the streams.

THE SOIL.

is some lighter in color than that of Cass, Otoe &c., which fact we attribute to the short buffalo grass not offering as much protection from the sun as the higher grasses of the above counties, that it is rich in productive qualities cannot be doubted by any observer, for

will compare favorably with other portions of Nebraska, for even after our long continued dry spell, our crops of all kinds looked fresh and of good quality, some fields of small grain sown in the fall, and here I believe these crops will excel here in a favorable season.

OUR TIMBER.

Cannot be surpassed by any locality West of the Missouri river. We have an abundance of fuel, dead and dry, in drifts and otherwise to last us for several years, while our growing timber is well fitted for building purposes. In proof whereof, I would state that I selected my claim which at Lowell, in process of erection a hewed log house, 20x24 feet, one story and a half high, and will not anywhere near exhaust my building logs in completing it. The timber grows very fast and is of good quality, thus making our uplands, which are broad and level, favorable locations for tree claims.

IMMIGRATION.

has been very heavy toward this section the past season, in despite of some unprincipled parties in Lowell, and other points east of here, who harp upon their thousand strings, to every emigrant that they converse with, of grass-hoppers, drought, sandy land, Indians, potato bugs &c. &c. We would simply ask them not to try to sluff off their hills and complaints upon us, for we can beat them in everything desirable to a homesteader, the best day they ever saw, even to that awful pest horse-die, which I found very thick on the Platte bottoms, while here I have seen but two or three this summer.

OUR TOWNS.

are just starting, and better locations for mechanics, with limited means, who at the same time wish to take tree claims, cannot be found, for the country and towns are bound to improve very fast.

PLATTSMOUTH MILLS.

PLATTSMOUTH, NEB. CONRAD HEISEL, Proprietor.

Always on hand, and for sale at lowest Cash prices.

The Highest prices paid for Wheat and Corn.

Particular attention given to Custom work.

Singer Sewing Machines, FOR SALE BY F. J. METTEER, With all the EXTRAS, ATTACHMENTS, NEEDLES, &c.

PERSONAL.

C. Schultz, of the Cedar Creek Mills, one of our best millers and business men, called on the HERALD Monday and left us some of the stuff we are very much in need of.

Very much in need of. George Smith, Esq., of Brownville, called on the HERALD last week in the Editor's absence. We should have welcomed Mr. Atkinson most heartily, he is one of Nebraska's most energetic and capable men.

In view of the fact that the Grass-hoppers may and probably have done some damage to corn in this county, it has been suggested to us that it is not too late yet to sow turnips, and if properly housed they make very good winter fodder for cattle and hogs.—The late corn, and all corn not stripped of leaves, might be cut up, old fashioned way, and thus save much fodder to make up for the corn being short. The hint is worth using.

The HERALD took a trip down country last week, and will write it up in a few days.

We call attention to the notice of a festival and concert, by Prof. Potter, at Weeping Water on the 14th of Aug.

The address of the Congressional Republican executive committee contains among other facts some very interesting statistics, which demonstrate that the ordinary expenditures of the Government—excluding the interest on the national debt and expenses incidental to the rebellion—have been reduced to a less amount than during the last year of Democratic rule under Buchanan in 1860. This of itself is a very striking evidence of the economical management of our national affairs.

THE MARKETS.

Reported by WHITE & DARRAH. Wheat 75.75, Corn 20.25, Oats 12.00, Barley 13.00, Hogs 4.00.

Reported by CLARK & PLUMMER. Eggs 30, Butter 20, Chickens Spring per doz. 10, Potatoes 1.50.

LATEST NEW YORK MARKETS. Money 2 1/2 per cent, Gold 81 1/2.
