THE TWO ANCHORS.

It was a gallant sailor man
Had just come home from sea,
And as I passed him in the town
He sang, "Ahoy!" to me.
I stopped, and saw I knew the man—
Had known him from a boy;
And so I may sailor like

I made a song for him one day— His ship was then in sight— "The little anchor on the left, The great one on the right.'

I gave his hand a hearty grip.

"So you are back again?"
They say you have been pirating
Upon the Spanish Main;
Or was it some rich Indiaman
You robbed of all her pearls?
Of course you have been breaking hearts
Of poor Kanaka girts!"
"Wherever I have been," he said,
I kent my whin in sight— I kept my ship in sight— The little anchor on the left. The great one on the right.

"I heard last night that you were in: I walked the wharves to-day,
But saw no ship that looked like yours.
Where does the good ship lay?
want to go on board of her."
"And so you shall," said he; "But there are many things to do
When one comes home from sea;
You know the song you made for me?
I sing it morn and night—
'The little anchor on the left.

But how's your wife and little one? "Come home with me," he said.
"Go on, go on; I follow you."
I followed where he led.
He had a pleasant little house; The door was open wide. And at the door the dearest face-A dearer one inside! He hugged his wife and child; he sang-His spirits were so light— The little anchor on the left, The great one on the right."

The great one on the right!

'Twas supper time, and we sat down— The sailor's wife and child. And he and I: he looked at them, And looked at me and smiled. I think of this when I am tossed pon the stormy foam. And though a thousand leagues away
Am anchored here at home."
Then, giving each a kiss, he said. "I see in Treams at night This little anchor on my left,

The boasted chivalry of the South appears in a very bad light, in view of reent events. Southern newspapers have dwelt strongly upon the alleged fact that 'not a negro was killed," say they. And Mr. R. H. Marr says in a recent address to the people: "Nay, he (Kellogg) people. The result was the 14th of September, 1874. That memorable day has convinced the colored people that they have nothing to fear from their white fellow-citizens." How impudently false this assertion was is proved by our dispatches of this morning from New Orleans. Failing to hold the Government they seized through force and bloodshed, the White Leaguers now propose to coerce the negroes into a relinquishment of the priviege of voting at the approaching elec-ion. The White League of Union parish have adopted the following resolu-

I refrain from saying more on this point, except that I and my friends will faithfully carry out the terms of the agreement we have entered labor and to suffer, to be lost amid mountains, and tormented with thirst upon deserts. I have labored hundreds of feet underground with pick and shovel for my daily bread. I got tired of it; I swore off. I hold in my possession what will make me independent for life, besides conferring inestimable benefits upon my fellow-men, and I intend to use it so far. Selfishness indeed! What did Morse or Fulton make from their inventions, except what was given them almost as a charity, after they let their knowledge go out of their hands? No charity for me. I hold my discovery alone, and I will part with it only on my own terms. You ask me what I demand for it. I want \$5,000, tenor of your address, which assumes toward the
