The Future.

One thing is certain. The campaign of 1874 will not be decisive upon the campaign of 1876. It looks as if the Democ. racy would have control of the Fortyfourth Congress, and a number of State Legislatures in which they have rarely had majorities. By its mistakes we shall profit. We shall, in turn, play the part of the critic, and it will be singular if the party of Bourbon instincts and repudiation doctrines does not itself proclaim disaster in the hour of success. The Republican party still maintains its hold upon the intelligence of the people. It begins to-day the battle of 1876-a battle which will be earnestly fought, but whose issue we believe, under the new inspiration it will receive, cannot be doubtful. For the present let Democracy shout itself hoarse over the spasmodic triumph, while Republicans, profiting by the severe, and perhaps needed, lesson it has BREADSTUFFS .- Flour-\$1.90@5.10. What Then?

We have been defeated! What then? Shall Republicans sit down in despair and mourn over a battle which is lost? It is not their wont so to do. Fortunately they know how to endure defeat as well as enjoy triumph. They gained their experience in darker days and under more trying circumstances than these. They were beaten back at Bull Run, but they rallied again. They were mowed down at Manassas but they came back to the conflict with renewed determination. They learned what it was to be BERADSTUFFS. - Wheat-Extra, \$1.15@1.15%. whipped, but they never learned what it was to despair, and it is not a good time to begin now. The unexpected successes of the Democrats have made them wild with joy. They are already scrambling over the spoils like a gang of highwaymen drunk from the capture of wine. While they are carousing and fighting and cursing among themselves let Republicans keep cool and be ready at the proper time to strike a blow which shall send these gamblers in principles back to oblivion. Since writing the above, as will be seen from a paragraph elsewhere, we have less ground for complaint, and dium, \$5.25%6.00. Hogs - Yorkers, \$5.75% in Chicago may fairly claim a triumph. Told their happy story:
How the moments wandered by,
Lost in summer's glory!
Love, to us, was all complete—
Brighter than the weather—
Tripping thro' the meadow sweet,

Purple leaves are falling now, Blighting is the weather; At the fire-side here we bow, You and I together. Still we hear the robin sin As in days departed; Still my arms around you cling, Blithe and happy hearted! Life, to us, is all complete,
