Bad debts—Owing grudges. Go to work should be all the go. A "BARE-BURNER"—An incendiary. How merchants—Dancing masters. A matter of form—Fitting a dress. A sweet article for the toilet—A honey-comb. It is to find that the ruin of a soul begins with a girl's fall. How to attend a girl out—Call when she is not in. Without sense is a razor without a handle. The affair of the heart—The circulation of the blood. Handed without gloves—Knives and forks generally. Nothing becomes a young girl so well as modest ways. It is better to be flush in the pocket than in the face. Who always comes to a ball after midnight? One A. M. The poet has a view to praise only, you deserve none. He is an illiterate man who spells "wife" simply "y". The acrobats of every household—The piper and tumbler. It is better to do and not promise than to promise and not do. What is that which, though black, enlightens the world? Ink. Very, very blonde hair is now called "the light fantastic tow". Vermont proposes to make drunkenness a legal divorce. The inner monitor of a man's conscience is too often an iron-clad. There was once an old lady who kissed a cow, though lots of young ladies kiss calves. There is nothing in phrenology after all. The greatest rivers have small heads. If you're very well to say, "take things as they come," but suppose they don't come? The true motive of our actions, like the real motives of an organ, are usually concealed. Those who blow the coals of others may chance to have the sparks fly in their faces. A Saint Luke's Mormon is getting rich by hiring out his wives to do washing and house-cleaning. If you will just take notice you will find that a bald-headed man never raises his hat to a lady. PRINTER'S ink is the war-paint of the world's boldest bravos. These warriors are battling against wrong. The Baptists are so fond of holding a national convention similar to that lately held by the Congregationalists. Of what science does a man think who railroads his wife to the continent and then in a narrow cutting? Engine-necking. A hog shot a man in Worcester. The pig was unprovokedly killed, however, the animal pulling the trigger with a careless aim. A writer in Scribner thinks it improper for a person to say "Excuse my name," on shaking hands with a fellow-being. ANOTHER argument in favor of tobacco. A Vermont farmer who was attacked by a rattlesnake bit his arm with a fence-cut and thus saved his life. The pretty French fashion of wearing a band of white black velvet ribbon around the neck will come again. Maidens with crane-like necks are exceedingly graceful! A writer in the New York Mohawkist suggests that should a great Mohawkian leader arise, with anything like the energy of the original Prophet, the Moslems would give up the defenders of Christianity a hard fight. It is estimated that the granite, lime and slate quarries of Maine, if they were fully worked, would sustain a population equal to that of the whole of the United States. There is enough slate to roof over the whole State and have some left. It is estimated that the people who have been victims of the famine in Asia Minor number over 150,000. As an instance of the terrible devastation among cattle and sheep in the mountainous districts of one village out of more than 1,000 sheep and goats just one sheep and one goat remain, and of 100 cows two remain. A recent report from San Francisco is something extraordinary. During the past year over 2,000 houses have been erected within the city limits, being the greatest increase in any previous year. Many of the houses are of very expensive character, many of them costing from \$25,000 to \$50,000. The great influx of people to the State of California is doing the work. A well-dressed man attracted considerable attention in Chicago the other day by sitting upon the edge of the sidewalk for some time with his hands behind his back, and in a very dignified manner. At last a sympathetic stranger approached him and said: "Friend, you are sitting there in the same way as I am any day." The man sprang to his feet, and, taking off his hat, parted his hair carefully, and said: "Stranger, do you think that my wife and I are sitting here with a flat-iron, and then sent me down town to buy her a new bonnet. I have been sitting here for some time trying to decide whether I will buy it or not; and blame me, stranger, if I haven't about decided to get it."

Report of Commissioner Douglas. THE report of Commissioner Douglas for the last fiscal year is \$102,644,747. The estimate of the current fiscal year is \$107,000,000. The total drawback on spirits, tobacco, and general merchandise for the past fiscal year was \$23,749,187.41. No spirits were exported for drawback during the last year, and the quantity of tobacco was very slight compared with the amount reported in bond. The amounts refunded for taxes illegally collected were \$618,187.41 in 1873 and \$23,749,187.41 in 1874. The receipts from distilled spirits for the fiscal year of 1874 were \$20,444,000, a net decrease of \$2,289,880. The production of spirits increased the year 1873-74 over any previous year. Seizures amounted in value to \$179,392. The amount of distilled spirits remaining in warehouse Sept. 30, for payment of tax, was \$12,577,668, making a decrease of \$2,340,613 from June 30. The amount remaining for export was reduced in same time from 2,145,010 gallons to 1,047,714 gallons. The annual receipts from all sources relating to fermented liquors for the year were \$20,444,000. Receipts from tobacco in all forms, \$38,242,875, a decrease of \$1,143,427. The amount of bonded tobacco remaining in the early part of the year and the effect of the panic. From November to the present time there has been a steady increase of collections over any previous corresponding period. The largest amount collected in any quarter was the quarter of the preceding year, \$10,162,754. The receipts of the fiscal year from this source are expected to aggregate \$36,000,000. The production of tobacco for the last fiscal year was \$18,548,619 pounds, an increase over the preceding year of 2,107,369 pounds. The quantity of cigars, cigars, etc., on which tax was collected was 1,886,697,498, or 75,662,852 in excess of the previous year. The quantity of tobacco remaining in warehouse for export for the fiscal year was 10,800,927 pounds, an excess of nearly three-quarters of a million pounds over the preceding year. The Commissioner considers it indispensably necessary to control the movement of raw or leaf tobacco by the country of the leaf clause of the act of June 6, 1872. The receipts from other sources were: Bank deposits, savings banks, capital and bank circulation, \$5,887,669; ad-

live stamps, \$6,139,844; and penalties, \$264,216; articles and occupations formerly taxed, but now exempt, \$764,880. The Commissioner extols the working of the system abolishing assessors, and leaving the whole matter with the Collectors as securing more prompt payment and a larger amount of tax. The tax against bankrupt bankers realized \$3,000,734, an increase of \$403,013 over the previous year, notwithstanding the financial distress of the fall of 1873. The increase is due to the new system of assessment, the results of which are still more apparent in the rise from special taxes in the last quarter of the fiscal year 1873, when they amounted to \$2,303,559, against \$2,885,528 in the last quarter of the fiscal year 1874. The Commissioner suggests that the Bureau of Engraving and Printing, heretofore a separate establishment, be placed under the stamps necessary under the law except proprietary and documentary, and asks a positive provision from Congress to do so. Should Congress wish to abolish stamps on bank checks, etc., and promissory notes, and to issue a new stamp which yielded last year \$8,236,844 (but he is still of opinion that the revenue cannot be reduced with safety), the Commissioner asks an equivalent to be made by increasing the tax on spirits ten cents per gallon, which would yield \$6,585,528, or a pound on tobacco would yield \$4,312,000. Naming Children. It is a fearful responsibility to be delegated to name a child which is not your own. So far as my children are concerned I am never in a hurry to watch them for a few days to catch a leading trait in their character and then found the name on the ground. I select middle-tempers and peaceful I select, as such a name as Placid, Contentment, Harmony or Peace, and if ugly, I saddle them with some name of the gods, such as Cape Horn or Texas Jack. Strangers are sometimes amazed to see me go down to the gate, and hear me call "Tommy, Tommy," or "Horn or Texas Jack, you and Contentment Harmon Sunflower Burlingame come in to supper," or "run my domestic affairs as suits me best."

Useful and Suggestive. EVERY one knows that a cold or cough ought not to be neglected, and that if it is not attended to in season it may result fatally. Our advice is to take care of it before it is too late, and use Dr. Whistler's Fine Tree Root Cordial, which can be had of any druggist. Dr. Whistler's Worm Sugar Drops are the best remedy for worms ever discovered. THROUGH the length and breadth of the land the celebrated SILVER TIPPED Boots are being worn with increasing popularity. They are made of the finest quality of leather, and they last twice as long as those without Tips. Try them. For sale by all dealers. UNDER the new management of Mr. Frank W. Wentworth, the Sherman House, in Chicago, is now in a regular demand for its retirement, has reduced its tariff of rates, and a corresponding degree increased its comforts.
