> WRECKED IN THE ICE. Loss of the Steamship Vicksburg-Forty Lives Perish.

NEW YORK, June 10. The steamship State of Germania, which arrived this morning, brought five seamen burg, from Montreal for Liverpool, which was sunk by ice on Tuesday, June 1. The men were picked up June 5 nearly dead from exposure, but since then have been rapidly improving. They tell a fearful tale of distress. Other boats were launched with a large number of persons, but the greater number were seen to per-ish without getting in the boats. The Vicksburg went down in the midst of ice, and the boat was surrounded by icebergs and a field of ice when picked up. The other boats have not yet been heard from. The five men rescued had their feet and legs very much swollen, so much so that their boots had to be cut from their feet. They are still suffering from their great exposure to the wet and cold, but are recovering as fast as could be expected. The statement of James Crowley, one of the survivors, is to the effect that there the United States District Court in session at | were on board a crew of sixty men, eight saloon passengers-five men and three
