## THE CONSTITUTIONAL CONVENTION ADJOURNED

On Friday last. True to our purpose we shall say nothing to be sorry for until we have seen the instrument in full. We confess we feel sore over the apportionment, and think great injustice has been done to our county. For 2,800 or thereabouts Otoe has another Senator and for less than 5,000 over and above Cass county (estimated at that) Richardson has two Senators. For less than the 3,000 basis Otoe gets one more representative than we do and Richardson likewise. The manner of distributing the document too, was foolish. For less money than the pamphlet cost, every real county paper in the State, of general circulation, could have published it if the Convention had voted a decent sum. It is a very foolish economy at the tail end of the work to haggle on a few dollars as to the best way of putting your instrument before the people. Therepublican party of this state owe their papers enough to have avoided the sneers and flings at newspapers indulged in now and then. Some day you may want your newspapers again and they may not be there.
