Consumption Can Be Cured.

Consumption Can Be Cured. Scnixck's Pelmonic Symp. Schenck's Sea Weed Tonic. Schenck's Mandrakt Pills, are the only medicines that will cure Pulmonary CollsUmption. Frequently medicines that will stop a cough will occasion the death of the patient; they lock up the liver, stop the circulation of the blood, hemorrhage follows, and, in fact, they clog the action of the very organs that caused the cough. Liver Complaint and Dyspepsia are the causes of two-thirds of the cases of Consumption. Many persons complain of a dull pala in the side, consti-pation, coated tongue, pain in the shoulder-blade, feelings of drowsiness and restlessness, the food lying heavily on the stomach, accompanied with a very effectual process, is not so cheap or convenient as could be desired; and a method of treating the wood itself is now proposed, by which it is not only pre served from decay, but the same protecmuch simpler and equally effective.-N. tion from fire as that derived from a plaster coating is in some degree afforded. The process referred to has lately been tested acidity and belching up of wind. in England, and with very satisfactory results. It consists in first kiln-drying

ence to the manufacturer of edibles what pleasant, so long as one is ignois said that there was once a Spaniard in Morocco who made a fortune by selling what people long believed to be porkpies, but which were really pies of human flesh. The deceptions of the cook and confectioner are the most difficult to detect, and, therefore, the most dangerous, especially in this age of chemical discovery. It is safe to say that the ingredients occasionally used in the flavoring of cheap candies are not only disgusting but harmful, and the war of competition is driving manufacturers to novel devices, which seem to be fathered by diabolical ingenuity. Of course, the worst devices cannot be successfully practiced in the larger manufactories, because of the impossibility of keeping secrets where several hundred employes are working. But what is done in those smaller stores, where streetpeddlers manufacture their abominations, had better be left to the imagination. It will suffice to observe that sugar sweetens all things, and that good fruit flavor and vegetable extracts are not as cheap as dirt. -Cincinnati Commercial.

An Anecdote of Jules Janin.

Nevertheless, he had a keen eye to his own interest, as the following story will show: When quite a young man a certain neighbor of his owed him fifty francs. One day when he went to ask for it he found his debtor in great trouble. " I cannot pay you," groaned the man. "I have no money; I am ruined; in a few hours my landlord will distrain for his rent, and carry away all I possess in the world.' Jules' face fell, for his finances were very low just then. Suddenly an idea struck "You have a dozen or two of excellent wine in your cellar, you told me the other day; let me have that, and I will give you an acquittance for the fifty francs." "Impossible; the porter will not let it pass out." "I will take my chance of that if you will agree to my proposition." The debtor did agree and the receipt was signed. An hour afterward a man in a workman's dress, with his hat slouched over his eyes, appeared at the door with two wine-baskets tilled with bottles. "I have come to change some wine that was sent in to Mons. ---- " (mentioning the debtor's name) " the other day by mistake," he says in a gruff voice. The porter, innocent and unsuspecting, shows the way to the cellar; the man deposits the bottles he has brought, takes away those he finds there, and goes on his way rejoic

The man was Jules Janin, and the bottles he left behind were filled with very excellent-water!-Temple Bar.

Culture a Means. Not an End.

We must not make culture an idol, as is the fashion, but regard it as merely one of the forces that go to keep the world in motion. It is a means, not an end. It is no more to be worshiped for itself than is the knowledge of the multiplicationtable. We should not let ourselves be swamped in our luxuries. The man should always be better than his surroundings; he should absorb what is good in them, and stand above them. It is to the trary" canvassed a crowded smoking-car credit of a man to rise purified by his ex-perience, however bitter it may be, and ing that he would obtain a big "straw" certainly he should not fall into joyous self-content because he has knowledge of tion. After he had concluded his rounds bric.a-brac. That is no better than the the occupants of the coach watched exand the consequent selfish thrilling with him and asked: "Say, mister, how'd she enjoyment are not enough. Indeed, the go?" mere enjoyment is in itself idle, unproductive and, if it interferes with work, answered. guised, one of the strongest inspirations a voice like that a tiger may be supposed of toil known to man, the evident danger to use when displeased. of comfort, pleasantly-won distinction "Votes for who?" of comfort, pleasantly-won distinction and elegance is, that they produce sloth, or passive content with things as they are. "Well, if you must know, thirty-two were for Hayes and seventeen for Allen." -T. S. Perkins, in October Atlantic. An elephant in Calcutta had a disease in his eyes. For three days he had been completely blind. His owner, an engineer officer, asked the doctor tif he could do anything to relieve the poor animal. The doctor said that he would try the nitrate of silver, which was a remedy commonly applied to similar disease in the human eye. The large animal was ordered to lie down, and at first, on the application of the remedy, raised a most extraordinary roar at the accute pain which it occasioned. The effect, however, was wonderful. The eye was in a manner restored and the animal could partially see. The next day hits off the character of the Massachusetts when he was brought and heard the Democratic Convention when it says: doctor's voice he lay down of himself, "Why this queer combination of shreds placed his enormous head on one side, and patches should be called 'Democratic' curled up his trunk, drew in his breath passes comprehension."
