A letter from Rock Bluffs, about bad behavior at the polls &c., is against our will crowded out, also a number of other notices local and otherwise. The fire Sunday demoralized our printers for Monday. Tuesday was election and one of them served as a Judge and was up all night, consequently not good for much Wednesday. The result is that we can only give election news and had to leave out other matter.

The corn raised in the United States this year is estimated at 4,000, 000,000 of bushels. That is more than can conveniently be put in one heap, and we have no idea of the size of the heap it would make. So let us suppose it to be loaded into wagons, 26 bushels in each wagon, and the wagons placed in a line; each wagon and team occupying two rods. Now here is a question for beardless and his sisters. How far would this line of wagons and teams extend, and how near would it come to reaching around the world? to answer in the HERALD

Vallentine (Rep) is said to be elected in that district. On the whole we have got through very well.

Lancaster polled a very heavy vote. Lincoln gave 300 Republican majority. We may safely say the tidal wave has turned and there are republican gains at large, wherever there was an election Tuesday.
