THE AMERICAN YOUNG FOLKS.

This is the name of a handsome monthly Boys' and Girls' paper, published at Topeka, Kansas, finely illustrated, and offered at a price so very low that every family in the land can afford to have it. It is a bright, healthy, helpful paper, avoiding the sensational and blood-thirsty trash, filling many papers for youth, and on the other hand it is neither dull, sermonizing or prosy, but just such a paper as any parent will find a welcome visitor in the family. It is sent, postage paid to any address for fifty cents per year. This paper is published at the office of the *Farmer*, a large, 8-page Farm and Family Journal. Sample copies of both papers sent for 10 cents. Address,

J. K. HUDSON, Topeka, Kan.

A report of the Womens' Foreign Missionary Society, by Mrs. Angie F. Newman has been unaccountably lost, and we cannot publish it this week.—If the report can be found we shall do so in our next issue.

THE NEW HOTEL.

Our readers will observe in this week's paper, a plain and sensible card from Mr. Streight, announcing that he has taken charge of the Saunders House and means to keep it in good shape after this.

As we have said before we think Mr. Streight is the right man for this business and he has got the right kind of a wife, and that's two thirds of the battle. Give us a good landlady and we will make a good Hotel. Mr. & Mrs. Streight belong here, they are our friends and our neighbors, we all want, the town wants a good first class Hotel. It has long wanted it. Now you all know the present Landlord, and know he knows how to keep a good house, and it is the duty of everyone to encourage and promote its success in every way possible. Tell folks you have a good hotel, patronize it yourselves, merchants and others, You want its trade and you should work for the success of the Hotel in return. To *travelers* we say that we know the Saunders House under the present management will give you satisfaction and good accommodation. We want it further understood that we have written the above lines on our own motion without any suggestion of Mr. Streight's because we think the business interests of the town demand a good Hotel and we ought to all help it to succeed.

PURE SEED WHEAT.

The finest seed wheat that has been brought into this State, is that brought here by Mr. F. M. Dorrington, which can be seen in the cars or at this office. This is a pure life or hard wheat from which the Minnesota Flour is made, which rules the flour market of Chicago and New York, quoted at a higher grade than St. Louis Fall wheat flour, (see your Chicago markets found in your papers).

This wheat is being introduced throughout the State by a company of Nebraska men, Mr. Dorrington representing this section. It is to be hoped that our citizens will look well to this seed wheat matter, for it is certain that a large proportion of the wheat raised here last year is wholly unfit for seed, for many reasons. First, it is mixed, secondly, it is damaged, and is also nearly all soft wheat which is dropping in our markets, and quoted hardly No. 2. If our farmers expect to raise grain that will bring market prices, they must certainly sow good seed. "For as ye sow so shall ye reap.

FROM LOUISVILLE.

A Centenaial Tree.

LOUISVILLE, Feb. 23d, 1876.

ED. HERALD—The birthday of the Father of our Country was celebrated here by running up the Stars and Stripes at daybreak, and the firing of 37 salutes, the latter, of course, being intended for Nebraska This was followed by a cheer such as "Louisville Boys" alone can give.

We have a regular Centennial curiosity here. It consists of the trunk of a huge tree, which has evidently been hacked by the tomahawk of some red brother of the forest, when but a sapling. Reckoning by the growth, we find it must have been done about 100 years ago. From the fact that it was chopped on but one side, the outer growth encircled it, forming to all appearances a perfect tree. The side on which the indentures were made, is decayed more or less for some distance from the center The cuts are weather beaten and evidently were made about 100 years ago. We think of sending it to the Centennial as a curiosity from Cass Co. "VERITAS."

TESTED FOR GAS YESTERDAY.

[From the St. Joe *Herald*.

We are not alone in having the coal fever. St. Joe, Mo. has found a new vein which they are gassing about.

The new coal recently discovered four miles north of town, was tested yesterday, at the gas works, and found to be of superior quality. The coal was wet, but will be dried out to-day, and a more thorough test given. In a recent test it has been found that at least twenty-five per cent. of volatile matter exists in the coal, and tests sufficient, have been taken, to show that this coal will eventually take the place of the Fort Scott, for gas purposes at least.

The vein was reported to be from 2 to 2½ feet thick, but recent investigations have shown the vein to be in some places three feet thick. To-night the city will be lighted with the gas generated by this coal, and a good chance will be given for all to see how it works.
