

THE HERALD.

J. A. MACMURPHY, Editor.

PLATTSMOUTH, APRIL 26, 1877.

Our Platform.

An early National Constitutional Convention to consider, among other things, the following items:

Five years for President, and no reelection for one term, at least. Elect the President and Vice President as nearly by a direct vote of the people as possible.

Elect U. S. Senator by a direct vote of the people.

Civil Service rules: Appointments for merit and fitness, (as a rule from the party in power), no removal during time of commission except for dereliction of duty.

Longer terms for State and County Officials, fair salaries, and no reelection.

Judges to be created by appointment and for long terms, only removable for corrupt practices or incompetency.

We believe the country needs the above changes in her organic laws, and we shall, from time to time, urge the same upon her people.

The St. Louis Globe is at last satisfied that Packard has been "abandoned" by the President, at least it heads its reports thusly.

THEODORE TILTON lectured in Lincoln on Monday evening. He is on his way to the Pacific coast and accompanied by his daughter Florence.

FRANK LESLIE and wife with a corps of Reporters and Artists passed through Omaha last week in a special car on their way to San Francisco.

The troops have left the State House in New Orleans, and our rebel brethren are firing guns and showing flags over a restored Union?

The total sales of the B. & M. Land Dept. for March were 26,265 acres for which they received over \$100,000.

We expect in next week's HERALD to set a definite day for the departure of the Nebraska Editorial Association to the West, to the West, the land we will see.

THEY are making desperate attempts to organize a Territory out of the Black Hills. Who'll be Governor? Don't all speak at once.

THE City of Plattsmouth is built on forty hills (or less) and we have Gospel Hill, Catholic Hill, Episcopal Hill, School House Hill, and so on, but Sioux City 'er tops us in names, they have a "Codfish Hill" there, so says an exchange.

THE B. & M. are about to extend their road (the Midland) from Seward to York, 25 miles, and Charley McKenzie is sharpening scrapers and straightening male harness out for the work. So far so good; we want some more Railroad in ours.

WHEAT is \$1.65 in Chicago. If the prospect of a general war in Europe continues it will be \$1.65 here before long. Corn, too, has jumped up several cents per bushel. If the Hoppers leave us half or quarter of a crop and it brings these prices we shall be far from a ruined community next spring.

Oh, Brooks!

The administration has got a Pinch-back, the Republican party has got a Pull-back, and the colored people have got a set-back in Louisiana; and, in fact, there seems to be a general tendency to take the back side of everything there.—Republican.

KEITH & BARTON, owners of a large herd of cattle near North Platte, have sold a third interest for 40,000. These men commenced eight years ago with 100 head, and have sold each year since large numbers, clearing in late years \$20,000.

That's business, grasshoppers can't eat cattle up for sure.

THE HERALD had the pleasure of meeting Senator Saunders at Omaha the other day, for a few moments. The orator hunters were after him thick, and he stepped aside and let them bore away to their heart's content. How the Senator stands it we forgot to ask.

We recommend the report of the Committee on Flows, &c., on the inside. We always thought Bro. Wheeler had a little of the well-pull in him, and now we know it. As for Hastings and Granger Danahers, it's natural for them to play horse and plow and so on. They're used to spectacular shows.

YOU'VE hoppers, young hoppers, they hop everywhere; Old farmers, old farmers, look on with a scare; There are bright days a'coming, the hoppers must leave, And Nebraska, our braska, have for years a reprieve.

"So mote it be."

A word in all kindness to the President: In his next public letter or document, will he be kind enough to omit the announcement that what he is about to do is "in accordance with the principles announced when he entered upon the duties of the Presidency?"

We have read this sentence about six times in as many different letters, orders and interviews in the past month, and we are reluctantly reminded by it

of the "my-polley" phrase which permeated the utterances of Mr. Johnson. It is quite possible for a thing to be right without having been announced by Mr. Hayes when he entered upon the duties of the Presidency, and it is quite possible for a thing to be wrong even though sanctioned on Inauguration day from the east front of the Capitol.—St. Louis Globe.

We have abandoned the South, there is no rubbing that out. We have agreed to trust the rights of the freedmen to the promises of the men from whom we lately conquered a peace. It is called a "policy," we won't say whose at present; we shall try as Ingersoll advises, to wait with what patience we may, because there is nothing else to do now, but we betide the men and the party which may uphold them if these fair promises are not kept.

It seems rather hard that Republicans must always do all the conciliating, all the giving up, but then modesty is a rarer virtue than cheek. Perhaps we are laying up treasures in Heaven, who knows?

THE CAZAR thinks his patience is exhausted, and his grievances too numerous to be borne, so he has ordered his troops across the frontier; invoking the blessing of God for his success, he shouts, let loose the dogs of war, and we suppose they are loose. On the 24th the first corps of Sappers and Miners crossed the frontier of Russia at Bistec Danube. On the 25th 17,000 more troops followed, and at Pruth 50,000, one half cavalry and one half infantry.

Turkey stands by her guns, and it is said England must back her, having loaned her so much money, or rather assumed so much of her debt that she cannot afford to have her Turkey caught in the paws of the Russian Bear. The European War is a fact, of its duration and effect on the history of Europe no man can correctly judge.

RED CLOUD AND SPOTTED TAIL

which for some time have been in charge of the military, will be soon turned over to civil authorities.

PROCLAMATIONS BY NICHOLS.

New Orleans, April 23.—Morning papers will contain the following proclamation: By direction of the president of the United States, troops in the vicinity of the St. Louis hotel and elsewhere within the limits of the city will be removed to their usual barracks at 12 M. this day.

(Signed) FRANCIS T. NICHOLS, Governor of Louisiana.

AS TO THE CALIFORNIA STORY.

James G. Blaine being enquire of as to the California statement that he has prepared and intends to introduce resolutions at the next session of congress, expressing doubts of Mr. Hayes' election, and proposing a new consideration of question by a tribunal to consist of the chief justices of all the states, says there is not the slightest foundation for the story. I have already telegraphed that it is the invention of a lunatic or an idiot.

COURT MATTERS IN THE BLACK HILLS COUNTRY.

YANNTON, D. T., April 23.—The last territorial legislature having so changed the judicial districts as to give to the Black Hills two annual terms of U. S. courts, United States Attorney P. M. Scott has been informed by Attorney General Devens that, owing to the small appropriation for expenses of the courts, no funds will remain for paying the expenses of the court in the Hills fixed for the fourth month of the term which happens to be the last one in the territory during the fiscal year ending June 30th, and hence that is the one to suffer. The next term will come in September, which will be in the new fiscal year. This will not prevent the holding of local courts there and enforcement of territorial laws, Judge Bennett being now in the Hills.

European Affairs.

GONE TO THE SEAT OF WAR.

LONDON, April 23.—The Times correspondent with the Turkish army states that 10,000 men from Widen have gone to the seat of war, in defiance of the Russian telegraphic agency that a perfect understanding had been arrived at between Russia and Austria relative to territorial gains. There can be no manner of doubt that Austria reserves to itself absolute liberty of action.

The Russian telegraphic agency telegram, stated Sunday evening, says the porte called on Servia for leave to occupy its frontier at Gladora to prevent the passage of Russians.

From Louisiana Republicans.

A LETTER TO THE PRESIDENT.

NEW ORLEANS, April 24.—The following letter has been forwarded: To His Excellency R. B. Hayes, President.—Honored Sir: The undersigned Republicans of Louisiana deem it their duty to assure you that, although they had hoped and expected a different result would have been arrived at in the settlement of the Louisiana question, yet they are satisfied you acted for what in your judgment was proper. Of the best interests of the whole country, and are consequently resolved to carry out in good faith the settlement and accord to the Nichols government our recognition and support, relying on you to carry out in good faith its pledges to the people of this state. We do not understand that you in the slightest degree in this matter abandon Republican principles, and you desire to promote the interests of the republic, and the legitimate offspring of the old whig party, through which we cherish the expectation that you will maintain our national improvement interest in government aid for levees, Southern Pacific railroads, outlet to the Mississippi River, and for such other public works as are necessary to assist in developing the resources of our state and the whole country. Relying on your aid and all other matters tending to produce peace, concord and prosperity in our state, we will give to your administration our cordial support.

(Signed) JOHN RAY, R. M. SEARCY, FLEBERT GAULT, LOUIS DESMARRE.

Mr. E. G. Dovey and Henry Boeck, both well known business men in this town, traded buildings and lots on Main street, last week. Mr. Dovey we suppose thinking he got a better location, and Mr. Boeck got a larger building and better adapted to his peculiar business as he can load and unload furniture from the second story at the rear of the old Dovey store. Peter Bates fixes up the inside work for Mr. Boeck.

THE TIGER SCORCHED.

The faro rooms of Dan Allen, over Simpson's store, and of Godfrey & Higgins, over Lehman's, were burned out. The loss of each proprietor will be about \$1,000.

GONE.

This cleans out the old Pioneer Block built in '66 and '67, one of Omaha's old landmarks. The loss is about \$110,000; insurance about \$50,000, or one half.—Republican.

TELEGRAPHIC!

NOTES FROM THE CAPITAL.

CALLS BY ALEXANDER H. STEVENS.

Washington, April 23.—Alexander H. Stevens rode out this morning and called at the executive mansion and sent in his card regretting he was too lame to leave the carriage to personally pay his respects to the president. The president returned an answer he would call on Stevens and that, so when Stevens said he was glad to see the president pursuing such a course as would bring together the discordant elements of the country, and that the president had to do was to perform his duty to produce that desirable result. The president said it was his purpose as well as duty to pursue the course he deemed best to serve the interests and harmony of the country, thinking the time has come when every effort should be made to that end. He expressed pleasure in making the acquaintance of Mr. Stevens, and that gentleman reciprocated these compliments. Stevens also called on Speaker Randall and Clerk Adams.

When PACKARD will vacate the office of Governor Warmoth telegraphs that Packard will vacate the St. Louis hotel directly after the removal of the troops to-morrow.

From the Black Hills.

DEADWOOD, D. T., April 22, 77.

The following is a list of the names of the party that left Syracuse for the Black Hills, Feb. 21st, 1877. Geo. W. McKee, as wagon master; Wm. McKee, John T. Oms, Charley Peters, James Fisk, Dick Porter, Walter Lott, Henry Wasman, David Mout, John King, P. M. Scott, H. Pound, Albert Thorn, Wm. Ashton, Geo. Brako, Bill Walter Woods, James Woods, and S. C. Shibley, with eleven wagons. Mr. McKee is a good wagon master, and Mr. McKee also had the name of having the best horse that ever started to the hills, also the best driver, the best looking, and most temperate. We were 41 days on the road, had some bad weather, although we had a good time, the boys would pass away the time around the camp fire by smoking and talking until bed time, and after they went to bed by almost freezing some nights. Deadwood is a lively town, the streets are crowded from early in the morning until late at night, by traders and speculators. Citizens experience great inconvenience on account of the demand for lumber. The two saw mills now running night and day cannot fill the orders, which are dated so far ahead as impossible to reckon.

The hills is a good place to make money, but it is going to be overdone this summer, in fact is now. People are flocking in from all directions. I would advise all people coming to the Hills to bring money enough to keep them awhile.

Another Letter.

DEADWOOD, D. T., April 21, 77.

DEAR SIR,—I have delayed writing you for two reasons. 1st, I could not get but a limited amount of postage stamps for love or money; 2d, I wanted to get together a goodly number of letters to write intelligently and knowingly. This is all kinds of a country; there is an abundance of timber (pine), the grazing around the foot hills is good, and along some of the streams good soil. The gold region here is calculated to give a new comer and after five weeks of close inquiry and personal observation, I have changed my first impressions considerably. There is about six miles square, or one township here, with this city almost centrally located in it. Every foot of it is claimed two or three times over, and there will be no end to the litigation.

Outside of this district there has not as yet been any mining districts of real value discovered, although there are about five hundred men on the war path all the while, digging, tunneling, piking, and variously seeking the fabled lode; but as yet nothing of note has been discovered since my advent into the Hills. The snow is now all off, and the prospectors have a fair swing; it is my opinion that the rich mines of the Hills are pretty near confined to the above said district. The Bear Butte district, (silver) of which M. L. White and others were arranging to move on to its works when I left home, has been condemned by experts as not being of sufficient quantity and richness to insure success for a smelter. I have examined the district, and to me it looks well, and the miners would make a green horn like myself believe that the mountains were solid silver.

But I find that our eyes and the hungry miners in a country like this, are apt to deceive us. The richness of the Dead Wood vicinity is bringing thousands of pilgrims here. But poor fellows, unless they have money plenty to make them comfortable and happy at home, they had better not come here; they cannot reach the smallest slice, in the preferred hills—so they are scattered all over the Hills, trying to find another Dead Wood, but so far their labors have been fruitless, for I fail to find a mine that has been the least profit in mining in these Hills, outside said district.

The Hills are now getting so full of unemployed men that there are moves being made to raid on the Big Horn and Wind River countries, and I think an expedition will soon leave for those countries. The emigrants now between here and the U. P. R. R., on the two routes aforementioned by late arrivals at 3,000 people—say nothing of the Sioux City and Fort Union routes—there is no room for them here, and they of necessity must go further on or return to their homes in disgust.—Some are already taking the latter course. The people here are holding mass meetings all through the Hills—passing resolutions and memorials to the extra session of Congress for an independent and new territorial government—a thing for the safety of person and property very much needed. Regards to all Plattsmouth friends.—Let us hear from you. I am as ever faithfully yours, J. W. BARNES.

OUR FRONTIER CO. LETTER.

AFTON, NEB., April 20, 1877.

Little news, except the progress of faring. Potatoes, corn, cane, barley, and garden seed, have been largely planted. One new settler has come in, and three more to be here by May 1st, one of them a blacksmith. An Iowa man proposes to build a grain elevator, which is much needed. Have letters of inquiry even from New York. We feel that our country is on trial, and hope it may win.

E. S. CHILL.

PLATTE VALLEY HOUSE,

JOHN ROSS, Proprietor.

THE OLD RELIABLE HOUSE.

Good accommodations for Farmers and the traveling public. Board \$1 per day. Meals 25c. Entirely refitted and re-furnished, and farmers are requested to call and get 2 meals and bed for \$1.00.

LOOK HERE!

ONE AGENT has made a list of names of all the business men in this city who have not yet received their copies of the new book, "The History of the United States," published by the National Geographic Society. The book is a valuable work, and is now on hand at the National Geographic Society, Washington, D. C. Agents wanted in all the principal cities of the United States. For particulars, apply to the National Geographic Society, Washington, D. C.

Excelsior Copying Book.

Made of Chemical Paper.

Only copies when writing WITHOUT WATER. PRECK, and is used in all the best offices. For Ladies' use, it is made of fine paper, and is very durable. It is now on hand at the National Geographic Society, Washington, D. C.

Centaur Liniments.

One kind for the human family. The other for Horses and Animals.

These Liniments are simply the wonder of the age. They are made of the finest oils, and are of a White Liniment for the human family. It will cure Rheumatism, Sciatica, and all kinds of neuralgic pains. It will cure all kinds of sprains, bruises, and all kinds of swellings. It will cure all kinds of cuts, lacerations, and all kinds of burns. It will cure all kinds of sores, ulcers, and all kinds of skin diseases. It will cure all kinds of eye diseases, and all kinds of ear diseases. It will cure all kinds of throat diseases, and all kinds of chest diseases. It will cure all kinds of stomach diseases, and all kinds of liver diseases. It will cure all kinds of kidney diseases, and all kinds of bladder diseases. It will cure all kinds of urinary diseases, and all kinds of genital diseases. It will cure all kinds of venereal diseases, and all kinds of syphilis. It will cure all kinds of gonorrhea, and all kinds of chancres. It will cure all kinds of skin diseases, and all kinds of skin eruptions. It will cure all kinds of skin sores, and all kinds of skin ulcers. It will cure all kinds of skin cancers, and all kinds of skin tumors. It will cure all kinds of skin warts, and all kinds of skin moles. It will cure all kinds of skin freckles, and all kinds of skin spots. It will cure all kinds of skin itching, and all kinds of skin burning. It will cure all kinds of skin stinging, and all kinds of skin smarting. It will cure all kinds of skin swelling, and all kinds of skin redness. It will cure all kinds of skin dryness, and all kinds of skin cracking. It will cure all kinds of skin peeling, and all kinds of skin flaking. It will cure all kinds of skin scaling, and all kinds of skin shedding. It will cure all kinds of skin shedding, and all kinds of skin falling out. It will cure all kinds of skin falling out, and all kinds of skin falling out. It will cure all kinds of skin falling out, and all kinds of skin falling out.

INDIANA HOME, JEFF. CO., IND., May 28 '77.

I think it my duty to inform you that I have used your Centaur Liniment for my rheumatism, sciatica, and all kinds of neuralgic pains. It has cured me of all these troubles, and I feel as well as ever. I am perfectly well. The Liniment ought to be applied.

THE proof is in the fact that it is so handy, it is cheap, and every family should have it.

THE Centaur Liniment is adapted to the tough muscles, cords and tendons of the neck, shoulders, arms, and hands. It will cure all kinds of sprains, bruises, and all kinds of swellings. It will cure all kinds of cuts, lacerations, and all kinds of burns. It will cure all kinds of sores, ulcers, and all kinds of skin diseases. It will cure all kinds of eye diseases, and all kinds of ear diseases. It will cure all kinds of throat diseases, and all kinds of chest diseases. It will cure all kinds of stomach diseases, and all kinds of liver diseases. It will cure all kinds of kidney diseases, and all kinds of bladder diseases. It will cure all kinds of urinary diseases, and all kinds of genital diseases. It will cure all kinds of venereal diseases, and all kinds of syphilis. It will cure all kinds of gonorrhea, and all kinds of chancres. It will cure all kinds of skin diseases, and all kinds of skin eruptions. It will cure all kinds of skin sores, and all kinds of skin ulcers. It will cure all kinds of skin cancers, and all kinds of skin tumors. It will cure all kinds of skin warts, and all kinds of skin moles. It will cure all kinds of skin freckles, and all kinds of skin spots. It will cure all kinds of skin itching, and all kinds of skin burning. It will cure all kinds of skin stinging, and all kinds of skin smarting. It will cure all kinds of skin swelling, and all kinds of skin redness. It will cure all kinds of skin dryness, and all kinds of skin cracking. It will cure all kinds of skin peeling, and all kinds of skin flaking. It will cure all kinds of skin scaling, and all kinds of skin shedding. It will cure all kinds of skin shedding, and all kinds of skin falling out. It will cure all kinds of skin falling out, and all kinds of skin falling out. It will cure all kinds of skin falling out, and all kinds of skin falling out.
