Uncle Schlegel and Mike Schmelbacher got a tangle the other day that neither of them will forget for some time. Uncle Schlegel had been engaged moving away some Cottage Organs from the Catholic Church, where they had been competing for a position, he got the organs away to the depot and went back for the boxes, with Mike to help load, they had loaded up and Uncle had taken the lines and said get up, but as he turned the wheel on the lower side settled in a hole, the fore wheel on the upper side striking the box at the same time turned the wagon over and sent Uncle Schlegel and Mike down among the horses heads, where—where expect—times seemed lively to them for a minute. Each carry severe marks of the horses heels about their heads, but will live through it with good care. Uncle Schlegel says he don't want to move any more Mendota organ boxes if they all serve him that way.

He has had several immense cribs of corn threshed out and sold this winter and is now trying to corner the rest of mankind in government contracts. Joe gets a big one every now and then, and whoops it up lively to the boys, and the farmers too for that matter, in good prices for their grain. The foot gearing at Merges'—Grasshopper prices.

The old Muddy is on her annual bend and is bank full. Yesterday she registered 14 feet. At Omaha they are afraid she will do damage to the smelting works, the machine shops and bridge. At Kansas City the R. R. tracks leading in there are almost all under water for a greater or less distance.

Every fashionable shade of silk for trimmings, and also every fashionable shade of hat, can be seen at Solomon & Nathan's emporium. 51f

The Tornado of the 13th.

From different sources we learn that the high wind last week Wednesday did considerable damage. At Omaha it blew down the fair ground buildings, unroofed houses and raised Cain generally. At Lincoln, a number of small buildings were damaged, and the roof of the penitentiary blown off. It will take \$5,000 to repair the damage to this building.

At home in Cass County, the brick school house, near Hon. Jos. Gilmore's, known as the Pleasant Ridge, or Sharfer's school house, was unroofed and three sides torn down or rendered useless, in short, they will have to build a new building. A frame shed attached was literally blown to atoms; the circular window current must have lifted it, it wrenched the boards to bits, and then as suddenly tumbled and let the splinters drop from some height, as splinters of all sizes were sticking upright in the ground, as if driven there for a calf or chicken pasture.

The Mt. Hope School House, six miles south-west from Weeping Water, a frame, building was also completely demolished and rendered useless.

—Capt. Wiles has caught 40 bushels of grasshoppers this season. In two trenches he caught 7 bushels, from a timothy patch, on wheat 5 bushels in two days.

We think his machine the most practicable and feasible of any we have heard of. Had all the Captains, neighbors done as well no damage would have occurred to crops anywhere about him.

—The High School Literary Society met Friday evening and although the weather was threatening the house was filled.

The entertainment was good throughout, in fact the best one yet. The young orators were much better prepared and required very little prompting. The selections were very appropriate. The Dialogues were a new feature and a good one, and were both well rendered. The singers had a little preparation and were consequently better prepared for their part of the exercises. Next Friday will be the last meeting of the society and all will do their best.

Citizens should all turn out. Fathers, mothers, aunts, uncles, guardians and every body else—all turn out and help make a grand winding up of the summer, of an enterprise organized and attended to in all its details by our efficient principal, Mr. Drummond.

The order, thanks to the worthy Pres. and Vice Pres. Capt. Marshall and Mr. Morrison was the best we ever saw at an entertainment in this city. Come out next Friday and be entertained.

Mrs. Beecher's Confirmation. If success may be considered a criterion of merit, the Home Cook Book can properly be considered one of the most meritorious works published of late years. It has been wonderfully successful. Edition after edition has been issued, (20,000 copies) and still the demand seems to be unsatisfied. It consists of 394 handsomely printed pages, and contains one thousand or more practical, common sense receipts, which have been tried, tested and found to be "just the thing." Contributed by ladies of influence and good judgment, in Chicago and other cities and towns, with permission to use name. We know of no lady of our acquaintance, who would publicly endorse a recipe, unless it was the very best she knew. There could be no better guide book for that portion of woman's kingdom which relates to the cuisine than the Home Cook Book. It is on sale at all book stores; price \$1.50. A "pocket Edition" will be sent free, by publisher on receipt of a two cent stamp. The following letter from Mrs. Henry Ward Beecher, confirms our good opinion: J. FRED WAGGONER, Publisher, Chicago.

Dear Sir,—As I am not keeping house, I have not an opportunity to examine the Home Cook Book like I like to examine everything I recommend. But by instinct an old housekeeper can form a tolerably accurate judgment of all that is usually found in cook books, and if you will accept of an instinctive estimate of the merits of your work, I can truthfully say that I am greatly pleased with it.

I like the recipes; most of them are familiar, some slightly different from the old, well established recipes and I think they will be improved by the change.

But much that is more important than recipes is found in it, with which I have been greatly pleased and instructed; I refer to rules for "Dinner Etiquette," "Social Observances," "Table Talk," "Bills of Fare," etc., and many other things, brought together very skillfully and calculated to be of great service to house keepers, young and old. Respectfully yours, MRS. H. W. BEECHER. Mandarin, Fla., March 2d, 1877.

Dr. Schenck's Pulmonic Syrup. SRA WERN TONIC, AND MANDRAKE PILLS.—These medicines have undoubtedly performed more cures of Consumption than any other remedy known to the American public. They are compounded of vegetable ingredients, and contain nothing which can be injurious to the human constitution. Other remedies advertised as cures for Consumption, probably contain opium, which is a somewhat dangerous drug in all cases, and if taken freely by consumptive patients, it must do great injury; for its tendency is to excite the morbid matter in the system, which, of course, must make a cure impossible. Schenck's Pulmonic Syrup, is composed of a pure vegetable matter, which acts on the lungs, liver, stomach and blood, and thus corrects all morbid secretions, and expels all the morbid matter from the lungs. These are the only means by which consumption can be cured, and as Schenck's Pulmonic Syrup, Sea Weed Tonic, and Mandrake Pills are the only medicines which operate in this way, it is obvious they are the only genuine cure for Pulmonary Consumption. Each bottle of this invaluable medicine is accompanied by full directions. Dr. Schenck is professionally at his principal office, corner Sixth and Arch streets, Philadelphia, every Monday, where all letters for advice must be addressed. 111c
