SCHENCK'S SEA WEED TONIC.

In the atmosphere experienced here during the summer months, the lethargy produced by the heat takes away the desire for wholesome food, and frequent perspirations reduce bodily energy, particularly those suffering from the effects of debilitating diseases. In order to keep a natural healthful activity of the system we must resort to artificial means. For this purpose Schenck's Sea Weed Tonic is very effectual. A few doses will create an appetite and give fresh vigor to the enervated body. For dyspepsia, it is invaluable. Many eminent physicians have doubted whether dyspepsia can be permanently cured by the drugs which are generally employed for that purpose. The Sea Weed Tonic in its nature is totally different from such drugs. It contains no corrosive minerals or acids; in fact it assists the regular operations of nature, and supplies her deficiencies. The tonic in its is invaluable. Many eminent physicians have doubted whether dyspepsia can be permanently cured by the drugs which are generally employed for that purpose. The Sea Weed Tonic in its nature is totally different from such drugs. It contains no corrosive minerals or acids; in fact it assists the regular operations of nature, and supplies her deficiencies. The tonic in its nature so much resembles the gastric juice that it is almost identical with that fluid. The gastric juice is the natural solvent which, in a healthy condition of the body, causes the food to be digested; and when this juice is not excreted in sufficient quantities, indigestion, with all its distressing symptoms, follow. The Sea Weed Tonic performs the duty of the gastric juice when the latter is deficient. Schenek's Sea Weed Tonic sold by all Druggists.

STONE FORCE PUMPS.

DAVENPORT. IOWA.

J. C. CUMMINS. PLATTSMOUTH, NEB.

THIS PUMP cossesses the Following Superiorities. 1. It is never affected by frost-requiring not tapping, raising of the handle or other care.

2. It starts with the first or second motion of the handle, and the flow ceases the moment you stop, leaving no drippings to form mud or lee in winter, on and around the platform:

3. It theroughly ventilates the well, ridding it of foul air. 4. It saves its cost every year in labor ; it runs

4. It saves its cost every year in labor; it runs so easy
5. It is invaluable in case of fire—an engine ever ready at your door.
6. The cylinder being of stone, and glazed one the inside, is equal to glass, and much stronger; there is no slime or fifth ever collecting on it.
7. The well requires no cleaning out after one of these pumps is set in one that is clean.
8. It combines both the atmospheric and force principle, which gives it an equal pressure for the water, throwing a steady stream, both with the up and down motion of the handle.
9. This pump always brings cool water from the stact, the water standing beick the platform in a stone cylinder. n a stone cylinder.

10. The buckets may be removed at any time without moving the pump or platform.

They will throw from flity to seventy five feet from the end of a bose, from wells up to sixty feet deep, with one hand power.

They are also very useful for washing carriages, windows, sprinkling lawns, &c.

## Farmers Improve Your Stock.

## ESSEX PIGS.

Next week I expect to fill this column with a new list of goods, just opened. Read the offers and some and look at the goods, that is all I ask We were the first to introduce this very worthy variety of swine into this country—have tested them thoroughly and we are convinced they are by far the most valuable breed for the farmers of this country for the following reasons:

Early maturity, quiet disposition, good breeders, good mothers, and the very best breed in the world to cross with the large coarse breeds, giving them beauty of form, improving their fattening qualities, and greatly improving the quality of the hams, which are not excelled by any other breed. Their color is black, the skin is perfectly smooth, and very thin and whise—bence they have no scurf or skin disease which white hogs are sure to get in a black soil country, and they are not subject to cholera in common with other swine. They are the largest of the small breeds, making from three to four hundred is in one year—sometimes reach 300 or 100 pounds and can be fatted at any age.

We have now a very choice lot of pigs from six different importations, and are prepared to mate pigs properly for breeding, and warrant every pig pure Essex or no sale.
