Waukesha Central Medical Spring!

S. H. BARSTOW, Prop.

—o§-§o—

The waters of this Spring have been analyzed by PROF. BODE, of Milwaukee, Analytical Chemist, and found to contain the same ingredients, substantially, that have rendered the Bethesda and Glenn Springs so famous.

THESE WATERS CURE

DIABETES, KIDNEY AND INTERNAL TROUBLES OF VARIOUS KINDS.

They are shipped all over the United States and their reputation is Undoubted.

THE "CENTRAL" RANKS AMONG THE BEST OF THESE SPRINGS.

U. S. PATENTS TO LAND OBTAINED.

Titles Examined and Perfected.

LOANS NEGOTIATED.

It is a duty every man owes to himself and to those interested with him to know the condition of the *title* to his property. It is a fact well known to the legal profession, and to real estate dealers, that thousands of the *improved* and unimproved farms of this western country, have imperfect titles; much expense and *litigation* can be saved by having your titles examined and perfected, at once, and before property reaches eastern figures in value, when questionable titles become more difficult to remedy.

All persons claiming title to lands should obtain the United States Patent and have it recorded, the *legal title* from the Government is vested in the individual through the patent and title is not perfect until the Patent is issued and recorded, and eastern *capitalists* will not *loan* money on such security unless it is done.

As a matter of business convenience, I have connected this department with my Law Practice, and have placed in charge of it W. S. Wise, who will, under my supervision, attend to all matters appertaining thereunto.

A ten year's residence in the State and County, with constant business experience, and relations with its inhabitants, has thoroughly qualified me for transacting business of the above mentioned character with facility.

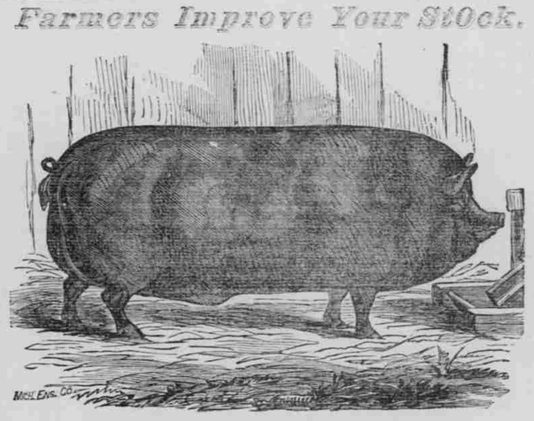
Farmers Improve Your Stock.



ESSEX PIGS.

We were the first to introduce this very worthy variety of swine into this country—have tested them thoroughly and we are convinced they are by far the most valuable breed for the farmers of this country for the following reasons:

Early maturity, quiet disposition, good breeders, good mothers, and the very best breed in the world to cross with the large coarse breeds, giving them beauty of form, improving their fattening qualities, and greatly improving the quality of the hams, which are not excelled by any other breed. Their color is black, the skin is perfectly smooth, and very thin and white—hence they have no scurf or skin disease which white hogs are sure to get in a black soil country, and they are *not subject to cholera* in common with other swine. They are the largest of the small breeds, making from three to four hundred lbs in one year—sometimes reach 600 or 700 pounds and can be fatted at any age.

We have now a very choice lot of pigs from six different importations, and are prepared to mate pigs properly for breeding, and warrant every pig pure Essex or no sale.
