MANUFACTO

Farmers Improve Your Stock.

ESSEX PIGS.

We were the first to introduce this very worthy variety of swine into this country—have tosted them thoroughly and we are convinced they are by far the most valuable breed for the farmers of this country for the following reasons:

Early maturity, quiet disposition, good breeders, good mothers, and the very best breed in the world to cross with the large course breeds, giving them beauty of form, improving their fattening qualities, and greatly improving the quality of the hums, which are not excelled by any other breed. Their color is black, the skin is perfectly smooth, and very thin and white-bence they have no scurf or skin discuse which white hogs are sure to get in a black soil country, and they are not subject to cholers in common with other swine. They are the largest of the small breeds, making from three to four hundred is in one year—sometimes reach 658 or 700 pounds and can be fatted at any age. the small breeds, making from three to four hundred as in one year sometimes seem one to pounds and can be fatted at any age.

We have now a very choice lot of rigs from six different importations, and are prepared to mate pigs properly for breeding, and warrant every pig agre Essex or no side.
