

# THE HERALD.

J. A. MACMURPHY, EDITOR.

PLATTSMOUTH, MAY 30, 1878.

The B. & M. have decided to build from Hastings at once, and will reach Red Cloud this summer.

At the risk of "disgusting" another idiot or two—we venture to give some notes on Fremont this week.

A lot of "country nines" from Peru beat the famous Nebraska City Base Ball Club—21 to 16 last week.

Several exchanges call the Falls City Record the ablest greenback paper in the State—It has suspended.

The U. P. Land Co. have disposed of 107,901 acres of land since January 1st, this year, at an average of nearly \$5 per acre.

The exact vote on County Seat was for Plattsmouth 23 1-5 votes over the necessary two-fifths. By some error we gave 22 1/2 last week.

In spite of all the howling in Grant's time it would seem as if the moiety system, in detecting frauds in the Custom House, would be revived.

The Kansas folks are looking up towards the Republican Valley with railroads. A branch of the K. P. will be pushed within 40 miles of Red Cloud this summer.

It would seem as if the Union Pacific has swallowed the Kansas Pacific, Jay Gould and Sidney Dillon having been elected directors in the latter. So ends the pro-rata fight for the present.

We are in receipt of a descriptive pamphlet of Dodge Co., which presents its inducements to immigration; it is handy, well compiled, and its make up is good. The work was done at the Herald office.

The tornado that swept over Wisconsin was much more serious than it at first indicated. Later reports state that thirty lives were lost, and 50 to 100 persons injured. Damage to property very great.

The reason Fred Nye of the Fremont Tribune can't abuse Michael any more than calling him a concert singer, is because he is busy working up circus advertisements for the paper, and complimentary for his large family.

The annual meeting of the Nebraska State Homoeopathic Medical Association convened in the parlors of the Grand Central Hotel at Omaha, last week. In the absence of the president and vice presidents, Dr. Hart acted as chairman.

It is now claimed that the hoppers that were considered a curse have proved the most valuable fertilizers the country has ever known. In Minnesota where they died in great quantities the wheat now grows spontaneously and yields enormously.

The Neb. City Press claims to have knowledge that the trunk road between this place and that is about to be graded. We only wish it was so—but it ain't—and it's a good bet if it were.

As Dan Wheeler expects and hopes to get the vote of this State for some office, it strikes us that his paper does not show good sense when it allows a blackguard to abuse a newspaper for "writing up" other towns than our own. If we lived in some other town than this we should be "disgusted" enough to vote "again" Wheeler.

POTTER'S committee is at work finally and in spite of his protest to the contrary it is believed that its work is aimed at President Hayes, and will result in some revolutionary scheme to secede Tilden. The N. Y. Graphic pushes a one sided investigation to the extent of forcing another head to the government.

The Catholic churches in Philadelphia, have been successfully robbed in the last few weeks, by persons unknown. The furniture in each is scattered about, and any gold or silver articles of value are carried away by the robbers; no clue to the perpetrators or their motive has been discovered, but the clergy are of the opinion that it is not more than hope of gain. Active efforts are being made by the police to ferret out the mystery, and to bring the guilty parties to justice.

The German Republican papers are prophesying a revolution. When the House passes into Democratic hands the Westliche Post says: After this is accomplished they will simply refuse to recognize the President, and the Mexican revolution is complete. The precedent which enables the Congress to set aside the election by the people is created, and with it the great American Republic has reached the end of its existence. We would invite the attention of all our citizens to the above facts, and would ask them to study Mexican history to enable them to form a clear idea of the blessings in store for them in case they should support these traitors.

The Illinois Staats Zeitung takes a similar view. It urges attention to the fact, that the success of the Democratic scheme rests in their meditated control of the next Congress. With that control, the Democrats would, if President Hayes should refuse to vacate his office to Tilden, forthwith refuse to vote a dollar of appropriations.

## Fremont.

During our trip to Fremont last week, to see the Nebraska boys shoot, and the first bench show in the state, we had the pleasure of meeting many old friends, and making the acquaintance of many new ones. Among the old were Mr. Dorsey, said by some to be a prospective candidate for Governor, Dr. Abbott, well known as an old settler in the state; E. H. Rogers, the banker, S. B. Colson, Hon. Theron Nye, and Frank Parcell, to say nothing of the newspaper men, to whom we are allied by consanguinity of taste, intellect and poverty of purse; Michael and Nye editors of the Tribune having scooped the platter this spring, need no puffing.

Messrs. Smalls & Weedin have just moved into the handsomest country newspaper quarters in the State. Of course we visited Bro. Dorsey's celebrated horses, and Hon. Theron Nye's celebrated cattle, of which we had intended to write a column article, but the bustin' of the ferry boat and the inexorable orders of Boss Hathaway have shut off our wind mill at this stage of the excursion. Of the beauty, growth and enterprise of Fremont we could not say too much, and hope in a longer article, soon to do justice. The Occidental Hotel is the place to stop, and Frank Parcell can double discount any landlord between here and San Francisco, in treating newspaper men.

## Our Louisville Letter.

LOUISVILLE, May 27th, 1878. ED. HERALD: There is still some boiling of hot blood on the borders of the Minnie Boo Hoo. Every South wind brings us rumors of contesting election, frauds, &c. We think it would be cheaper for those chaps to set up a little county seat of their own, and move it about at their will and not disturb the whole county about it every two years.

Since my last, we have had a flying visit from men in the jewelry business; the Bazar of B. G. Hoover was entered last Wednesday night by some unwholesome wretch, who crawled through the window where he had broken a pane of glass out for the purpose, relieved the show case of watches, gold pens, rings, &c., to the amount of two hundred dollars, then relieved the Post Office, of some eighty dollars in money and stamps, when he had got all he could carry he entered Livingston's saloon, but found nothing but a few nickels and some whisky which he took pity on, as he did the rest; a thorough search was instituted at once, but as yet without success.

We were informed by the depot Agent that the corn business has been revived of late and that he has dispatched nearly one hundred cars of stock and grain together during the month of May.

The religious elements are to be brought together next month and animated to their fullest capacity, i. e. the Germans will hold a Camp Meeting near Mr. Eikhoffs, about four miles west of this place, beginning about the 18th of June.

Our mutual friend W. L. Wallace has taken up his abode in Fremont. Wallace was Prince among the Bachelors, and made many warm friends in this community by his genial and courteous ways, and all miss the sight of his good natured, honest and frank countenance; he takes with him the kind wishes of many warm friends. He has but one fault, that was a passion for yellow flowers.

Ever and anon,

TRANSIT.

## SPORTING MEN

### Who Met in Convention at Fremont.

The State Sportsmen's Convention met last week and all unite in pronouncing it a success; from Plattsmouth the following were present: Dr. R. R. Livingston, Captain John O'Rourke, Hon. Sam Chapman, S. H. Long and Wm. Neville. Other parts of the State were largely represented. The first match, for which there were thirteen contestants, resulted, after fine shooting and repeated efforts, in a division of the first two prizes (\$800) between A. S. Patrick and Jno. O'Rourke of Plattsmouth. Messrs. Mills, McBride and Elliot, of Lincoln, tied for third prize. The second match, for a gold badge, to be shot for annually, was won by A. S. Patrick of Omaha. Seven and a half pounds of duck powder were given M. J. Tompkins the second best score.

The following is the score of the first match which began shortly after 3 o'clock. It was for a purse of \$75; five single rises. 21 yards; entrance, \$5.00, birds extra; ties to be shot off at three single rises. First prize, \$40; second prize, 20; third prize, 15. Sam Chapman, of Plattsmouth, and W. Kyrg, of Omaha, were elected judges, and D. C. Sutphen, of Omaha, referee. The result was as follows:

George T. Mills, Omaha.....10 11 1-4  
A. S. Patrick, Omaha.....11 11 1-5  
Wm. Preston, Omaha.....9 11 1-1  
T. T. Thornburgh, Omaha.....10 11 1-1  
J. P. Beard, Fremont.....11 10 1-4  
J. C. McBride, Lincoln.....11 10 1-1  
R. R. Livingston, Plattsmouth.....11 10 0-2  
S. C. Elliot, Lincoln.....11 10 0-4  
Wm. Neville, Plattsmouth.....11 10 1-4  
E. Hattitt, Lincoln.....11 10 1-3  
John O'Rourke, Plattsmouth.....11 11 1-2  
S. H. Long, Plattsmouth.....11 11 1-2  
W. H. S. Hughes, Omaha.....11 11 1-4  
Messrs. Patrick, O'Rourke, and Long shot off the tie for first money—the two former again making a tie; they divided.

In the evening Dr. Livingston delivered an address which was one of the finest and most instructive we ever heard; introducing much information and many more suggestions in the matter of sporting. The address was well received by all present. The following are the officers elect for the year ensuing:

President, W. L. May, Fremont. Vice Presidents, J. M. Thurston, Omaha; C. S. Elliot, Fremont; Will Clark, Omaha.

Field; E. G. St. John, Fremont; John O'Rourke, Plattsmouth; and J. E. Win-slade, Omaha Workingmen's Treasurer, S. H. Long, Plattsmouth. Secretary, D. M. Welty, Fremont.

The cup for the best Club team of four members was won by the Fremont Club.

J. W. Petty, of Collins & Petty, of Omaha, won the gold badge offered by the Fremont Club for the best score in pigeon shooting.

The Hoagland cup, surrendered for competition by Captain A. S. Patrick, of Omaha, State champion, was won by Z. Taylor, of Omaha.

Omaha was selected as the place of the next annual convention, and it was decided to have a bench show of dogs at the same time.

Measures were taken towards procuring Legislative acts for the appointment of a fish commissioner, also for the recognition of dogs as property.

The committee on prizes reported as follows:

Best Gordon setter dog—"Tom," owned by Major T. T. Thornburgh, of Omaha.

Best Gordon setter bitch—"Jett," owned by Wm. Bracey, of Omaha.

Best Irish setter dog—"Bryan," owned by Dr. R. R. Livingston, of Plattsmouth.

Best Irish setter bitch—"Lucy," owned by Wm. Preston, of Omaha.

Best Irish setter pup—"Dash," owned by S. H. Long, of Plattsmouth.

Best pointer dog—"Shot," owned by S. M. Chapman, of Plattsmouth.

Best pointer bitch—"Belle," owned by D. M. Welty, of Fremont.

Best setter bitch of any age or breed, with her progeny—"Mona," owned by Dr. Livingston, of Plattsmouth.

The native pointer bitch owned by Wm. Neville, of Plattsmouth, was highly recommended.

Messrs. B. E. B. Kennedy, J. C. McBride and E. G. St. John, were appointed a committee to procure prizes.

We really believe that Mr. Neville's pointer showed better blood than those shown, and should have received the prize. Dr. Livingston's "Mona" also was honestly a finer bred dog than Mr. Preston's, but we couldn't hope for it all at Plattsmouth. Arrangements have been made to enter all dogs of distinct breeds at the bench show next year; this will add much to the interest of the show, as many valuable breeds of dogs were debarred from entry under the present rules. While the show was entirely successful, the one next year will undoubtedly be better represented and more fully attended.

This is the way Northern Nebraska is settling up:

Mr. James Creighton has just returned from Marshall county, Iowa, where he has been making purchases of bloodstock for the forthcoming Creighton ranches on the Niobrara. A brigade of stock raisers will occupy and possess that country this summer, but the boss ranch will be stocked and owned by Messrs. James and John A. Creighton. Mr. James Creighton will have the practical direction of the whole business.

## What the Governors Think.

As a matter of interest, we reduce into one sentence the opinions of the different state executives on the fraud investigation resolutions, as extorted by the reporters of the Boston Herald.

Gov. Rice of Massachusetts, does not believe anything will be discovered.

Gov. Prescott, of New Hampshire, thinks it will fail.

Gov. Van Zandt, of Rhode Island, is sure Tilden is at the bottom of it, and that it will hurt the Democrats.

Gov. Robinson, of New York, believes the movement meets with the approval of fair-minded men.

Gov. Hartman, of Pennsylvania, regards it simply as a means of manufacturing political capital for us this fall.

Gov. Cochran, Delaware, thinks there should be a full and fair investigation, but does not believe the Democrats contemplate disturbing Hayes.

Gov. Matthews, of West Virginia, deprecates the movement, and does not think the Democrats will gain anything by it.

Gov. Hampton, of South Carolina, regards it as unwise, but thinks if it be clearly proven that Hayes was a party to the frauds, he should be unseated.

Gov. Drew, of Florida, thinks the country and party can only be vindicated by a rigid investigation.

Gov. Huston, of Alabama, considers it unwise and senseless.

Gov. Hubbard, of Connecticut, deprecates the investigation, but thinks the investigation is demanded by the country.

Gov. Porter, of Tennessee, says the people want the truth, and will not be satisfied short of the fullest investigation.

Gov. Williams, of Indiana, thinks the decision of the Electoral Commission should be submitted to; but had he been in Hayes' place he would have resigned long ago.

Gov. Cullom, of Illinois, considers the movement likely to elect either Grant or Blaine in 1880.

Gov. Pillsbury of Minnesota, believes it will be as futile in its results as it will be hurtful to the party that originated it.

Gov. Routt, of Colorado, thinks the sentiment of the country pointed to it.

Gov. Stear, of Iowa, is shocked at the idea of unseating Mr. Hayes, and will insist upon the last man and the last dollar.

Gov. Garber, of Nebraska, considers it merely a scheme to make political capital.

Gov. Irwin, of California, is in favor of a searching inquiry, but does not consider the agitation of Hayes' title politic at this time.—Omaha Herald.

## The Office Seekers.

The following is the revised list of candidates named for the different offices, and whose claims will be presented to the republican state convention:

Congressman—Welch, Crouse, Barton, Van Wyck, Judge Weaver and Cowin.

Governor—Chase, Briggs, Cobb, Dawes, Griggs, Weston, Butler, Tschuck, Abbott, Nance, and Dorsey.

Lieut. Governor—Carnes, Wheeler, and Blanchard.

Secretary of State—Wolf, Zedeker, Slaughter, Harlan and Renner.

Treasurer—Bartlett, Hinderman, Webb and L. R. Moore.

Auditor of Public Accounts—Reed, O. F. Davis, Collins, Adair, Elam Clark, and Willard.

Attorney General—J. L. Webster, Kaley, Dilworth, Colby, Thummel, F. M. Johnson, Robinson, of Madison county, Laird, Hoxie, and Humphrey.

Commissioner Public Lands—F. M. Davis.

Superintendent Public Instruction—S. R. Thompson, H. G. Wolcott.

Of course any motion to amend the above, or to strike out and insert any name, will be entertained—at least by the friends of unnamed candidates.

## MARRIED.

YOUNG—CAMPBELL—On Wednesday May 22d, 1878, at the residence of the bride's parents, J. J. Young of Plattsmouth, Neb., to Miss Edna E. Campbell of Queen City, Mo. The Rev. J. C. Horn officiating.

The Saturday morning train brought the bride and groom home to Plattsmouth. We are sure all will extend a hearty welcome to Mrs. Young, here in her new home, and we trust that in the coming days many pleasant associations may be formed. That their future pathway may always be pleasant and the "trials of life" remain in the future, is our sincerest wish.

## DIED.

BENT—At the residence of Overton Bent, in Tipton Precinct on Thursday night, May 16, 1878, VENIE, daughter of O. W. and B. E. Bent, aged five years and four months.

## SANFORD'S RADICAL CURE FOR CATARRH.

A purely vegetable distillation entirely unlike any other remedy.

IN the preparation of this remarkable remedy, the most delicate and refined processes of distillation, whereby the essential medicinal principle is isolated from the crude vegetable matter, and remains in its full strength, value and purity, and is at once applied to the diseased surface, and its action is instantaneous and permanent. A full course of treatment is necessary to effect a permanent cure, and a full course of treatment is necessary to effect a permanent cure.

## SANFORD'S RADICAL CURE.

Is a local and constitutional remedy, and is applied to the diseased surface by means of a special applicator, which is supplied with every bottle of the medicine. It is a purely vegetable distillation, and is at once applied to the diseased surface, and its action is instantaneous and permanent. A full course of treatment is necessary to effect a permanent cure, and a full course of treatment is necessary to effect a permanent cure.

## SURPRISING CURE.

Centenarian.—About twelve years ago, while engaged in a business, I took a severe cold and was afflicted with a catarrh of the bladder, which I treated with every known remedy, but without success. I was finally obliged to give up my business, and was confined to my bed for several months. I was then introduced to Sanford's Radical Cure, and after using it for a few days, I felt a great relief, and after using it for a few more days, I was enabled to get up, and after using it for a few more days, I was enabled to get up, and after using it for a few more days, I was enabled to get up.

## WATKINS' HOLDRIDGE.

WATKINS' HOLDRIDGE, of GEO. H. HOLDRIDGE, of New York, is a purely vegetable distillation, and is at once applied to the diseased surface, and its action is instantaneous and permanent. A full course of treatment is necessary to effect a permanent cure, and a full course of treatment is necessary to effect a permanent cure.
