ment with the native Zulus of South up expenses, it tells "agin" the party. Africa and much to their surprise have been badly defeated, losing six or seven hundred lives. They propose to shut the barn door after the horse is stolen by sending enough troops now to end the war.

SENATOR TEFFT, of Cass, is not as handsome a man as some of the rest of us, but he has an abundance of good sense which is somewhat more characteristic. He is one of the working members and attends strictly to his duty. He is a member of the committee now investigating our friend McBride.—Cor. O. Herald.

"I regard a young girl of thirteen or fourteen," said the principal of a Cincinnati school, while on the witness stand last week, "as one of the most dangerous pieces of mischief a man can come in contact with, her mind is so ant to be full of bad thoughts and evil purposes."

We are afraid that might be echoed with asigh, right in our midst.

THE attention of our readers is called to the adv't in another column of Dr. P. A. Slocum of 181 Pearl st., New York, who claims to manufacture the only sure cure for that dreadful disease, consumption. The Doctor's confidence in his remedy is so great that he sends a bottle of each of his celebrated preparations free to all suffering applicants who write for them. This is certainly a very liberal offer.

ANOTHER foul murder in Nebraska, this time near Hastings. A man named Stutzman, a peaceful quiet homesteader was shot by one John Brown alias McElroy, and left dead in his cabin, Brown taking his mules and escaping. He was afterward captured and barely rescued from an infuristed mob, at Hastings, ready to string him to a lamp post, and lodged in the Kearney Jail by a special engine fur- to further efforts towards gaining her swear words. Pat says he can

Prohibition.

LINCOLN, Feb'y 12, 1879. The late probibition bill came up for final passage on Thursday last. At ten minutes past 3 the speaker called for the special order by which the bill was to be brought up. From that time until six o'clock it was discussed pro and con. The speeches with few exceptions were the weakest it has ever been our lot to hear on a great question. Mr. Pollock, of Brownville, quat upon the rush at the beginning of the made the most sensible remarks for year, and the mistakes often made through such the bill; and Capt. Mitchell, of Otoe, and Mr. Gibson, of Omaha, the most pertinent on the other side. It was thus giving them nearly six weeks extra. Hor- mostly temperance lecture on one side, and denunciation and assertion on the other. At six o'clock the vote was .. 2.50 called and stood 39 to 40. It would re-" semi-weekly. 4.00 quire 43 to pass the bill. It was con-

Economy and Investigations.

The average American Legislator does do some of the most curious things under the head of economy f'rinstance" cut down a few hard workig Clerk's salaries (that in the whole, ould not amount to more than two or three thousand dollars at best) and order an investigation that bankers and their clerks, and every idle hanger on about the capitol can draw pay and mileage and per diem for traveling back and forth to tell what every one knew before and what parties in Lincoln already offered to tell free of cost to the State, and while expensive law officers and legal departments are kept up to prosecute criminals, or maintain the rights of the State. Under the howl of economy the worst frauds in this Country have been perpetrated. Not that we would choke off necessary or useful investigation that leads to something tangible, but of all the foolish investigations we have ever had, the State has never convicted a criminal or regained a dollar that would not have been paid back anyway or could not have been obtained under the law if it and its officers were worth anything. We are sorry to add that Republicans have been bull-dozed into making and aiding these useless smelling rampages from the cowardly fear of having it said they dare not show up their men or measures, and to drown the sense-

less cry of " fraud."

THE second case in the State, it is

THE HERALD has certainly felt kindly towards the revision committee personally, we believe they have worked faithfully, conscientiously, andlyet we begin to doubt if the state ought to accept this revision without more careful consideration than can be given during a legislative term. It is full of new legislation, radical changes not contemplated by the legislators who created the commission. It is an unknown quantity we are taking to our bosoms and warming to life and power, It is not the committees' work alone but in addition to their radical changes the Whole. It puts license at \$500 and the matter is tinkered and altered 4.15 larger amounts in the cities; provides every time it goes through the hands of either body in the legislature.

Taxes. Mr. Poppleton has written a letter it seems, on taxes, Dr. Black of Cass answers it.
