Mayor Johnson has been making a nice picket fence around his residence, which adds greatly to his already beautiful yard. Schlegel Bros. have moved their elegant cigar store into John Leach's building, next to Fitzgerald Hall, which they now own and where they expect to do business hereafter. A little "dimickuly" occurred between two of our citizens on Saturday p. m., for which Judge Sullivan taxed one of the parties \$10 and costs, \$14.25 total. Thomas, formerly of the Chronicle and boss Gregory had a law suit last week, over the old Chronicle Subs, &c. Verdict for Thomas.

Levi Churchill, of Rock Bluffs called Saturday. Dr. Thomas and P. S. Barnes of Weeping Water called last week. Our Leadville correspondent last week gives us a very good idea of that wonderful country. Mr. Wm. Case of Centre Valley, called Monday to see the HERALD and tell us how lightning feels. Mr. Hawks of Elmwood called on the HERALD this week and had a very pleasant chat with us. Billy Edwards, Cor. Omaha Herald, stopped over (?) at this city on his way home from the Casler swinging party. H. M. Bushnell, Esq., has just returned from the Editorial Excursion to St. Louis, where he represented two Nebraska papers. Miss Emma Herold started for Bloomington last week, where she will spend a month with Mrs. Bodine. We hope you will have a pleasant visit Miss Emma. Mr. Maurice O'Rourke, tailor, from Malvern, Iowa, has taken up his residence in Plattsmouth, and is working for Mr. Cox. Mr. O'Rourke was formerly from Ann Arbor, Mich. Fencing \$16 to \$17 per M, at Waterman & Son's. The Jackman & Sons' "Bone and Sineu Flour"—that's the brand, Louisville, Neb. Geo. Dovey has returned from the East—looking much improved and in excellent health and spirits for new work and more of it. We call attention to the new Ad. of Jackman & Sons' Louisville. Their "Bone and Sineu" flour is just the thing. Try it and see. John Dons, proprietor of the Platte Valley House, left here last Thursday for Leadville. Pretty long trip for an old man to take all alone. Messrs. Henry Boeck and Woodson had a slight difference of opinion last week one day. It was finally adjusted before his honor Judge Sullivan. Mrs. Newell opened her ice-cream room this week. All desiring nice delicious cream should visit her pleasant little place and try the L-C. Wes Montgomery has a hen that "stole" her nest and laid twenty eggs, and after setting on them sufficiently, hatched out eighteen chickens. Wm. L. Wells, wife and children returned to their country residence near South Bend on Tuesday last week, after a visit of several weeks to this city. Schlegel Bro's Cigar Store—moved—new stand—new cigars—good tobacco always. In John Leach's former building, next the brick block on Main Street. School Examinations are the order of the day this week, and many poor scholars are trembling in their boots, only buoyed up by the prospect of vacation in the near future. Mr. C. E. Westcott of the firm of Westcott & Powell, went to Omaha Tuesday, to secure the services of two or three first class coat makers, to assist in their fast increasing trade. C. H. Parmele is fixing up the old Amison Store and making a new building of it—this will be a great improvement on Main Street. Our painter friend, Ashley will be better fixed too, when it is done. By an oversight or misinformation we neglected to notice that Miss May Richardson took her Sunday school class out to the home grove for a picnic dinner last Saturday week as well as Mr. Parmele. The Cass County premium list will be in press soon and will be out sometime next month. Mr. J. N. Wise, Secretary, will be happy to furnish anyone with a copy as soon as they are completed. The strawberry festival given by the ladies of the M. E. church last evening netted over \$27 for the benefit of the pastor. We acknowledge an invitation and regret that absence prevented our attending. M. L. Thomas, Editor of the Red Cloud Chief, formerly editor of the Cass County Chronicle, was here to collect a balance coming to him from the latter paper, which six Jurors concluded was his just due. Our Correspondents will confer a favor if they will write on one side of the paper, only. Several have been received lately written on both sides, but by mere accident they were noticed in time to be "set up." Henry Boeck has developed a new branch of business, viz; Agent for Geo. Woods & Co's organs, of which Mr. Boeck expects a large lot of different styles and varieties soon. Call and examine. Our correspondent from Greenwood says he is glad we have added our Temperance column. The ladies who edit and the HERALD are both pleased with the result of common sense and christian charity. John Leach is fixing up the old stand, foot of 5th street and enlarging, for summer trade. John always keeps a nice place, clean, fresh goods wherever he is. Don't pass his modest stand without dropping a nickel. Some of our most prominent men have left their measure at Westcott & Powell's for the latest style suit of clothes, which is a sufficient guarantee of their reliability as to quality and price of work. Lewis Foltz of Weeping Water, is launching forth in a good direction. He is about to start a Henry, on a large scale. He will keep every description of Ponty, and will be prepared in the future to furnish the county with anything in that line.

Lightning. After the shower Monday when the rain had almost ceased falling, out of an apparently clear sky, came a clap of thunder that shook the town accompanied by a bolt of fire that struck the n. w. corner of Geo. Weidman's place on Main street and passing down the west side of the door, entered the ground and was seen no more. Weidman, himself, and another party were severely shocked, John Shannon who was sitting just inside the door, waiting for the shower to pass over, was knocked down and considerably shaken. Mr. Oldham on the street forty feet away felt the shock and Mr. William Case, of Centre Valley, who was passing nearly in front of the saloon was knocked down and had to be led to Donelan's drug store, where he soon recovered without serious injury. It seemed the bolts in the hinges of the door and kicked the green screen off its hinges and upset the mustard cruet, breaking glass in the middle door to the dining room. The Editor of this paper across the street, opposite the County Clerk's office saw a ball of fire before his eyes, a tremendous explosion and felt a little shaky for some time. Just as close as we want to get to that kind of lightning. The busiest place we have seen is Westcott & Powell's, with their new tailoring establishment they just mean to make things hum. Mr. Cox, their tailor, is a good workman, and they keep a large and varied assortment of cloths. The sudden death of little DAILY SENTINEL caused no small amount of happiness to the community. It was the youngest, oldest and only child of Thompson, and no one will miss its non-appearance, for "Brief, brave, and glorious was its young career." It lived without a friend, and died without a tear. At the recent meeting of the Sportsmen's Association. Dr. Livingston was requested to prepare an essay on "The Sporting Dog," for the next annual meeting. If the Dr. will engage the rest of his family to help him, a very exhaustive article would doubtless be the result. Dr. Livingston's famous Irish setter family, father, mother, and seven children took their departure on Tuesday last to enter a canine High School at Kearney, from whence they will doubtless graduate with high honors, but that corner in the meantime is desolate and the flowers occupy undisturbed ground. In answer to a "query," we state that manuscript for publication must be prepaid at letter postage rates. Will our Correspondents remember this, please. Only printed proof sheets or sheets accompanied by manuscript to denote the corrections can pass at any less rates than the regular letter (three cent) rate. Mr. Chambers showed us the other day several sets of light double harness that were very excellently made, and in exceedingly good taste. Also, a light single harness or two that would be hard to beat anywhere. He has now a No. 1 track harness made up for some one, which will be sold cheap. Fred Gorder is still under the weather; we are real sorry for poor Fred, he is a hard working, industrious man and to be laid up right in the busy season is a great loss to him. By the way, he has a fine lot of corn cultivators which he is anxious to sell and as he cannot give his personal attention to the business the HERALD bespeaks the attention of his friends, now. A little daughter of Mr. C. W. Green who is living in the Methodist parsonage, was playing at the residence of Mrs. Miles Morgan during the rain storm on Monday last, and endeavoring to go home during the storm she was swept into the gutter by the wind and rain, and only saved from drowning by the timely aid of Mrs. Morgan, who barely kept out of the sweep of the water herself by the greatest exertion. Mr. and Mrs. Green desire herewith to express anew to her their thanks for her active efforts to save their child. The Boston Bookboard. An entirely new style of road-wagon, invented and patented by the Rev. W. H. Murray. No deadweight on axle; all the weight being suspended in mid air from the points of four flexible steel-springs. No jar, no noise, the best, lightest and strongest road wagon ever made. For weight it will carry more than any buggy, carriage or wagon made. Call and see at Herald office. J. N. A. MACMURPHY, Agt. for South Platte County, Neb.

The Dickens. The Dickens Entertainment was a very great success and seemed to please all our people as much as anything we have had lately. The house was crowded and all the parties performed exceptionally well. Mr. Woolley, as old Weller, surprised everyone, also his plea as Serg't Snubbins was excellently well done. Mrs. Squeers just beat anything! Pickwick was immense; but Samivel Veller removed the dilapidated linen from the juvenile tree as a pure English character. They were all good and we should like to mention each one by name, but time and space forbid at present. The proceeds, after all expenses were paid, were \$36.50—which was applied on the Rector's Salary. F. S. White has a big fine house full of ice which he is selling to his customers at low rates, and no one need suffer this summer for a cooling medium no matter how hot the weather may be. Mr. Hunter's ability as a performer on the concertina was amply demonstrated by his recent performance at the Dickens entertainment, and he informs us that with his own instrument he could have done much better although that hardly seems possible. A. G. Barnes, well known here, and now living in Lincoln, is having a great deal of family trouble. Monday Mrs. Barnes shot twice at Dr. DeNayer, a brother-in-law, accusing him of seducing her daughter, and mal-practices toward herself. The case is attracting considerable attention in Lincoln, though no details have been obtained as yet. Both Mrs. Barnes and DeNayer are under arrest, DeNayer having fired two shots in return at Mrs. Barnes. Chambers! Chambers! The harness maker, has a large lot of spring goods on hand which must be sold at once and cheap. Farmers, give him a call. Saddles, Brides, Harness, Whips, Lap Robes, Dusters, Summer Robes, Fly Nets, Light and Heavy Harness, all aching to be sold. Trot in at once and show your grit, for at this pace the shop will soon win the heat and be out first. One of our advertisers will, we hope, not be offended at the non-appearance of part of his locals, that were sent in last week; though wholly unintentional, it was partly the carelessness of our foreman and partly the carelessness of the writer, by writing on both sides of the paper. Composers become so accustomed to hanging up "copy" as soon as one side is "set up" that unless the article is not finished on the first page, they never look at the other side for more. Mike Schnellbacher has just built and is showing up a new Dexter Spring Buggy. These springs are far superior to any other now in use, and do ride soot superbly. The Editor and Mr. Pettee took a twenty-mile ride in this one the other day, before it went to the printers, and we pronounce it the ne plus ultra of springs. It is a neat, sturdy made wagon beside the peculiarity of Spring and fifth wheel which is also a new patent. The wagon can be seen at Mr. Ashley's paint shop and is for sale—cheap for cash. This being the last week of school we had intended to find out in person what was being done, and report, but press of other duties has prevented our doing so. We hear on all sides however good reports of the progress of the school, and the beneficial results of good discipline and mutual co-operation on the part of the teachers. We have not learned that the board have done anything in regard to next year. An trust they have had enough of the bad effects resulting from constant change to incline them in the opposite direction. The present corps of teachers seem to work well together and to have had good success, and we hope they may all come back to us another year. The Ladies of St. Luke's Guild desire to thank those ladies and gentlemen outside of their organization, and the church who so ably and cheerfully assisted them in the late Dickens Entertainment, giving much valuable time and talent; also Mr. Young for his liberality in the sale of tickets, Mrs. Stadelmann for the use of rooms, &c; and Mrs. Marshall and Mr. Hunter for the music so kindly given and which filled most effectually an otherwise lamentable void; to Prof. Love for his services as stage manager, which made all go off smoothly, and to many others who aided them in various ways. They hope some day to be able to return the many kindnesses shown them. A very important trial—to the defendants—and laughable to the others came off last week over our old city tax cases. Sometime ago several Gentlemen in town, it seems, agreed to pay a pro rata share of the expense of a suit to test the validity of certain taxes here. As usually happens in such cases some paid and some didn't, and by and by Lawyer Webster, of Omaha, who conducted the suit, in time sued for his fees. The suit, in time sued Webster, Windham for Stadelmann, Smith for Valley and others included in the suit. Pottinger for C. H. Parmele and E. H. Buttery, Stone for J. H. Buttery and Wheeler, Morrison looked on and laughed and Col. Philpot of Lincoln dropped in to see the fun and learn some Plattsmouth law. The case was finally adjourned until next week. Smith & Black Having purchased the stock of Drugs, Books, and Stationery of Chapman & Smith can now be found at their old stand, with a full stock of Pure Drugs, and solicit the patronage of the people of Plattsmouth and Cass county, and their old customers for past favors we hope by fair dealing to receive the same in the future and invite all to give us a trial. Straight & Miller. Lap Robes, Summer Dusters, New Buggy Tops, and a heap of new and stylish goods in their line. New light harness and horse equipments always on hand. Call at once for bargains.
