> How to Make Soap for a Cent a Pound. Shave into small pieces five bars of Dobbins' Electric Soap, and boil in three quarts of water until the soap is thoroughly dissolved, so that upon straining through a sieve nothing remains; add to the solution or "suds" three gallons of cold water; stir briskly for peveral minutes to mix, and set it away to cool. Al-though it will look like nothing but soapsuds while warm, a chemical reaction will take place and in twenty-four hours' time will develop forty or fifty pounds of magnificent and white soft soap, costing less than one cent a pound and as good as many of the adulterated compounds called soap, and sold at 7 to 10 cents a pound. How long would it take for any other soap used the same to become anything but "soap-suds?" Any housewife knows that it cannot be done with any soap she has ever used. See if it can be done with Dobbins' Electric. For sale by all gracers. trie. For sale by all grocers.
