The Normal Institute.
 Twenty-five devotees to the acquisition of knowledge, may be seen each morning about eight o'clock climbing Plattsmouth's Hill of Science, to the temple of learning which crowns its heights, where, undismayed by the torrid heat of July, they devote the morning hours to storing their minds with the necessary information which shall serve them in their vocation of teachers. Prof. Wooley and Love, with like commendable disregard of the enervating effects of hot weather, are busily engaged in imparting this information, and when we looked in yesterday morning, we found the institute fully under way, and everyone seemingly working with a will.

We learned from Prof. Wooley that there were twenty-five pupils in attendance, of whom eight are in the first grade and seventeen in the second grade. The hours from eight to twelve are devoted to recitations, no afternoon session.

Arrangements will probably be made for the first of the series of lectures sometime next week.

Prof. Wooley, of Peru, is in the city and will probably make arrangements to conduct a class in vocal music. This will, however, be entirely distinct from the institute. He has just concluded a successful musical convention at Nebraska City.

—Charley Powell soon goes back to his Indiana home to take charge of an A. U. telegraph office there, and E. B. Lewis will take the one here to his store.

—Miles Chilcott, of Union, accompanied by Charles Clinton, came in Friday, paid in advance for the HERALD and took a look at our printing machines.

—Sportsmen and others will bear in mind that the chicken season has not yet arrived. Any violation of the game law in this respect will be summarily dealt with.

—Mr. F. Stadelmann has commenced preparations for a residence on Vine Street, west of the HERALD office; and still the good work of enlarging and beautifying our city goes on.

—Geo. W. Young, of Mt. Pleasant, delivered 146 head of hogs to Holmes, Dixon & Co., yesterday, for which he received \$1,224 in clean cash. He has sold 44 head before, and has over 200 head on his farm yet.

Miss Libbie Wheelers, accompanied by Master Chester Barnes, left on the morning train Monday, for Marysville, Missouri, where she will visit several weeks before returning to her home in Nashville, Illinois.

—Henry Kirkham, sr., returned on Tuesday from England, where he has been visiting his old home after an absence of thirty years. None of his people recognized him, of course, as the young man of long ago.

—A premium of a campaign subscription will be given for the largest melon left at our office during the coming month. We to have the use of the melons after recording dimensions of melon and name of competitor.

—Lawyer Hartigan was admitted to the Supreme Court this term and argued his first two cases there. He was appointed by Judge Maxwell as one of the committee to examine applicants for practice in the Supreme Court.

—Walter White is preparing to move the barn belonging to Mr. Fitzgerald to the corner, north of the HERALD office when a good substantial dwelling will be made out of the same, and a fire-trap removed from our midst.

—A very pleasant little party was given Miss Ida Waterman by her parents, on Saturday night. It seemed an enjoyable affair to all; the music and refreshments were delicious, though the latter received the "longest" attentions.

—Solomon & Nathan will commence a grand Clearance Sale on the 24 day of August, of all Summer goods, continuing thirty days. Don't fail, each and every one, to improve this golden opportunity of enriching yourselves, from this great sacrifice of all classes of goods in their line.

—What has become of our High School Reservoir? Waiting for a fire? Come mighty near it the other night. A lamp exploded, or rather cracked, in Mr. Wescott's store, and but for the fact of his having non-explosive oil would have been all day with that portion of Main Street.

—Sage Bros., with their usual enterprise, have obtained the County right for one of the best Cham pumps in the market. It will throw more water and at the same time fill the water with more air, than any other method known. Call and see them and you will be sure to buy one.

—W. B. Brown has been laundrying here some time and is well known to our citizens. Monday a bad accident happened at his house. They call it Martha, because it's a girl. Brown goes around whistling: "We meet up on the level, and we part upon the square." What words of precious meaning these things, on Monday, are.

—At the Garfield and Arthur club meeting Saturday, Judge Sullivan made some very pointed and just remarks, pointing out the danger ahead in a change of Administration. Uncle T. J. Todd put in some old time licks, and we had a glorious time generally. The new Uniforms will be here in a few days now. Be ready for them boys.

—"Gib" Huggs had occasion to examine a buggy that two of the boys had out the other night. In the vehicle he only found two hair-pins, one long pin, three brass buttons, a pair of gloves, two lace buttons, a pair of mitts and a newspaper with the young man's name on it: "A dead give-away." Gil says. We saw the name, but as he is one of our friends we'll never tell.

—Among other novelties to be found in Mr. F. C. Carruth's magnificent building when completed, is one which will show for itself, (on a dark night) in all parts of the house, viz: from sixty to seventy-five GAS JETS, or a sufficient number to light the upstairs and downstairs of the entire building. The gasoline, from which the gas is generated will be kept in a tank of boiler iron, buried ten feet, at a distance of sixty feet from the cellar, where a blower will be attached to the connecting pipe, run by a simple "clock-work" apparatus, which will keep the jets all prepared for lighting. Mr. C. deserves great credit for taking the lead in an enterprise of this kind and many others would admire safety from coal oil explosions were they to follow his example.

—The publisher of the Boone County (Iowa) Republican has recently been arrested and heavily fined for folding posters in his paper and sending the same through the mail. This is a violation of the postal laws, and all newspaper men will do well to look a little out. The department has its agents all over looking after publishers who similarly transgress the law by folding pretended supplements in their issues. A poster, hand-bill, or an advertising sheet is not a "supplement." As that is defined by the law, it must be a sheet containing matter for which there is no room in the principal sheet for the same issue, and really a part thereof. Hence, the law-breakers must stop printing, or be severely punished.—(Globe.)

We are repeatedly asked to do this kind of advertising, and when it is refused, are met by the remark that "other papers do it." If they do, it is at the risk of a fine.

The City Must Pay its Funding Bonds.
 Our Supreme Court has just decided the case of "The City of Plattsmouth, plaintiff in error, vs. John Fitzgerald, defendant in error," after a very full argument, in which John Fitzgerald was represented by Hon. Sam. M. Chapman, and the City by Hon. John L. Webster. We are informed that Mr. Webster made one of his best and strongest arguments in this case, but apparently to very little effect. This decision, by the highest tribunal of the State, is probably final, and we might as well address ourselves to paying off the debt at once without further costs.

A Hotel at Last.
 The Gordon property, occupied by Cummins & Fritsch, was bought on Monday by Fritz and Oswald Guthrie, who will proceed to erect a Hotel, forthwith; the dimensions are said to be 70 x 80 feet, three stories high. Whether the owners intend to run it themselves or whether it is to be rented we do not know at present; at all events a Hotel we are to have, without doubt.

Notice of Meeting.
 A Greenback meeting will be held in Rock Bluffs Precinct, at the Berger school house, next Tuesday, at 1 p. m. sharp. All Greenbackers invited.

Hurrah for Garfield & Arthur!
 —M. A. H. (Most All Hancock) went into a barber shop to get shaved, the other day. After lathering him superbly, the barber stood back and flourished the razor victoriously, saying: "Now promise to vote for Garfield, or I'll cut your throat!" M. A. H. never wined. "No! I'll never go back, but die a martyr!"—not like De la Matry, though, who seems likely to be crucified between English and the Voorhees wing of the democrats in Indiana.

—Major J. M. Bundy, Editor of the "New York Evening Mail," is writing the Life of General Garfield for A. S. Barnes & Co. of New York. The book will contain several illustrations, and possess many unique and special features. The narrative will present many of the qualities and attractions of a romance. Every young American will read with interest this account of a brilliant career, which, in a measure, open to them all for emulation.

—On last Saturday at a called meeting of the Congregational Church of Sarpary Center, Rev. Benjamin F. Diferdall was, by a unanimous vote invited to continue to serve the church as their minister for a year from the first of October next. Brother D. has served this church from the time of its organization over two years ago, and the general wish of the church, congregation and pastor is to continue the mutually pleasant and prosperous relations of the past.—Papillion Times.

—A farewell party was given at the home of Miss Olla Barnes, last Saturday evening, in honor of her guest, Miss Libbie Wheelers, at which several couples of her friends gathered at an early hour. The evening was passed very pleasantly with music and other amusements. A very handsomely bound volume of Shakespeare was presented to Miss Wheelers, by Mr. D. Campbell, in a few well chosen words, in behalf of her friends present, which she replied to, in a very able manner. After which the company dispersed, wishing her a safe journey home.

—Mr. Chris Hartman and his little son, Fred, came here losing their lives Sunday evening by their horse and buggy being thrown into a ditch near the Nail Works, the horse having been frightened by a dog. Mr. Hartman is confined to his bed by injuries received and the horse, valued at \$800, had to be shot, as his back was broken in the accident. The cur which caused the accident is probably of the class which would sell dear at a cent a thousand.—[Republican.]

Yes, and hundreds of useless curs run yelping after every buggy in this town, only to help break some one's neck, sometime. Do the owners of dogs know, or care to know, that their dogs have no business yelping at passengers in the street, and that they are and ought to be responsible for all damage?
