To all Our Friends.

are interested in the fashion of making ollections." we are having printed for "Card Collections." we are having printed for them a set of seven beautiful cards, each in six colors and on a gold background, in the very highest degree of art, illustrating Shake-speare's "Seven Ag's of Man." We have spared no expense in these cards—they are simply little art-gems. Our only aim has been to publish the finest cards yet shown. Applications for them have come in so rapidly that nearly the whole edition is engaged before the receipt by us of the cards from the artist. We have therefore been obliged to adopt the foider: No more of the gilt Shakespeare cards, seven in the series, will be sent excepting upon the receipt of a statement from a grocer that the person applying for the cards has bought of him on that day at least seven bars of Dobins' Electric Soap, with price paid for same. All applying in this manner will receive the full set of seven cards graits by mail. This will insure us that our friends and patrons get their share of these beautiful designs, although it in no manner repays us for the cost of the cards. Your grocer has the soap or will get it.

it in no manner repays us for the cost of the cards. Your grocer has the soap or will get it, and the purchase by you of seven bars of it at one time will secure for you gratis seven beautiful cards. The soap improves with age and is an article of necessity in your house every week. Therefore you are not asked to buy a useless article, but one that you must have anyway. Flease send us your a plication at once, and tell your lady friends making "Card Collections" to do the same.
