THE NEW LAWS OF THE STATE. Acts Passed, Signed, Sealed and Delivered. FEB 17th. The following acts have been passed by the legislature, signed by the Governor, President and Secretary of the Senate, Speaker and Chief Clerk of the House and are now laws of the state:

H. R. No. 78, to provide for the payment of officers and members of the legislature. H. R. No. 66, providing for the payment of the incidental expenses of the legislature. H. R. No. 3, providing for the payment of salaries due stenographers and reporters of the various judicial districts of Nebraska.

H. R. No. 15, providing for the organization, government and powers of cities, towns and villages. H. R. No. 14, amended section 1 of an act entitled "an act to incorporate cities of the first class."

H. R. No. 36, authorizing the county commissioners of Polk county to use \$4,900 of the sinking fund to build a court house. THE OMAHA REPUBLICAN is a newspaper that sometimes talks sense and sometimes nonsense. It depends on who it is editing it for the day.

IT tries to make some remarks on Mr. Correll's resolution relative to the election of a U. S. Senator by the people. If it has objections to this mode of choosing almost the highest elective officers in the commonwealth, it might state this with the dignity becoming a newspaper.

THE ST. LOUIS REPUBLICAN says:—A. A. Pratt's contribution to the Graphic Club, St. Louis, was a crayon sketch entitled "our Grandfather." The drawing consists of a fox looking wistfully at the grapes on a trellis, while an owl seated in the branches looks inquiringly at the intruder.

MR. Prall has part of the inside ornamental work of Boyd's Opera House Omaha, to complete this summer, and we hope he may get up to see us. TUESDAY, Feb. 23rd, was Washington's Birthday, think of it young men! How the bump of veneration has lessened in America.

WE received the speech of Hon. E. K. Valentine on the contested election case of Yeates vs Martin, delivered in the House of Representatives, January 29, 1881. It is one of the North Carolina cases, in which a Republican covered a certain election, and so utterly at variance with the cause and motive of the introduction of this resolution that we forbear to comment on it.

THE next objection worth a line of reply is: that election by the people turns it over to a nominating convention and argues that convention "are the sport of tricksters"—about as complimentary to the people who form conventions, as to the members of the constitutional convention a few lines before—and not to be trusted to elect a U. S. Senator, as is the case with the people who elect a Senator.

THE bill reported by the ways and means committee on R. R. taxation does the place of Roots' bill it seems. We don't know how that suits "Doc" Leitch's writing.

EVERY THING GOES. We ship horses, hogs and cattle to England now—besides corn, wheat and barley—what next? The New York Horse Exchange company's first lot of horses sent for sale in London, arrived in good order with a loss of five out of thirty-six, which died on board on injuries received during a severe storm at sea.

THE woman's suffrage constitutional amendment bill passed the House Monday afternoon, and this is the how (Howe) of it. After the ballot had been taken, but before the result was announced it was discovered by those who kept tally that the bill was lost by one vote. Howe was upon his feet to make a motion to recommitt, when Heacock seizing upon the opportunity of achieving a glorious victory, changed his vote from no to aye.

Explaining his vote, Howe said, "I thought that there is life in the bill as yet to extend the right of suffrage to the women of my adopted state." "I thought, in explaining his vote," said, "Believing that my wife is entitled to all the rights which I enjoy, I vote aye."

JOHN H. AMES of Lincoln has been walking into manager Tomzlin in the Democrat lately and W. B. Hamblin answers him thusly. We publish part of it, for the information given as to the real rates charged &c.

ANOTHER RIOT NEAR LEADVILLE. FEB 16th, another disturbance took place over the Robinson mine near Leadville. A policeman named McElvaney shot a miner named Harbo and the miners were scattered about. Outside parties were about equally divided it seems and at last accounts 40 or 50 desperate armed men were confronting each other on either side and a universal riot seemed imminent.

ANTI-MONOPOLY IN NEW YORK. A large mass meeting was held tonight at Cooper Union, under the auspices of the national anti-monopoly league. Peter Cooper was president. Chittenden briefly stated the objects and purposes of the league, asserting its origin to be the outgrowth of abuses of corporation powers and the necessity of universal organization on some systematic basis of reform.

Past experience shows us that any license bill that leaves the granting of the license, or the amount of the same to the Council of a city, or to the Commissioners of a county, results in bribery of the whole election on this point, irrespective of the fitness of the candidates for the office in question.

COVINGTON has been so long with Garfield and great wonder has been expressed as to what was done at this famous interview. They even showed the great senator, as the telegraph says:—CLEVELAND, February 16—10 p. m.—Conkling did not leave Buffalo until this morning. He gave out that he would leave at midnight, and would throw two of Blaine's emissaries off his track, who had dogged his steps from New York. Conkling arrived at Cleveland this afternoon, and was met at the depot by Garfield's carriage and driven direct to Lawndale.

WE promised some time ago to publish the list of New York soldiers in Nebraska, and present at the last report. From Senator Dismore we receive the following list, which we shall be pleased to add to our portion of the state, if names are sent us:

Table with columns: Name, R. Co., Rank, Address. Includes names like J. H. Noyes, John Steiner, H. H. Hisecock, etc.

THE TEMPERANCE COLUMN. A CURIOUS experiment has been tried in Germany for some months past with success. It is the importation of live hogs from the United States to the port of Bremerhaven, from whence they are shipped to Brunswick, Mueggenburg, Cassel, and other North German cities.

A valuable friend and able farmer about this time the temperance reform was beginning to exert a healthful influence in the country, said to his new hired man: "Jonathan, I did not think to mention to you, that I think of trying to do my work this year without rum. How much must I give you to do without?"

"Oh," said Jonathan, "I don't care much about it; you may give me what you please." "Well," said the farmer, "I'll give you a sheep in the Fall, if you do without."

"Agreed," said Jonathan. The soldier said, then said, "Father, will you give me a sheep if I do without rum?" "Yes," said the farmer, "you shall have a sheep if you do without."

A certain doctor, struck with the large number of boys under fifteen years of age he observed smoking, was led to inquire into the effect of tobacco upon the general health. He took for his purpose thirty-eight aged, from nine to fifteen, and carefully examined them. In seventy-seven he discovered injurious traces of the pernicious habit.

Do we forget the value of the free man? I think so. We hold human beings in slavery in our country. We ship in the slave. Suppose you had a plantation of slaves, 150 in number, on an average such would be worth \$300.

THE TEMPERANCE COLUMN. A CURIOUS experiment has been tried in Germany for some months past with success. It is the importation of live hogs from the United States to the port of Bremerhaven, from whence they are shipped to Brunswick, Mueggenburg, Cassel, and other North German cities.
