

THE HERALD.

EXTRA.

PLATTSMOUTH, DEC. 29, 1881.

THE Kearney Nonpareil says the Reform School has very inadequate arrangements for obtaining a proper supply of water.

COL. JOHN W. FORNEY, a politician and newspaper man of renown, died at his home in Pennsylvania at the age of sixty-four. Previous to his dying he sent for S. J. Randall, *post haste*, to make him some important communications. Whether these communications are of a public nature or not, we do not know. Mr. Randall arrived just in time to receive Col. Forney's secret. One by one, the politicians of the old regime are dropping by the wayside.

TALKING with one of our hardware merchants the other evening, he made the remark: "You would be surprised to know how many men carry revolvers and how many shooting irons and ammunition are sold. More than half the young men and boys carry them, and men you would never think of, have a 'pop' in their hip pocket."—Pawnee City Republican.

Yes, and why are irresponsible dealers of all sorts allowed to sell fire-arms to every one that asks any more than poisons, or liquors.

THE following is Gath's opinion of Guiteau: "He is a man almost totally depraved; calloused to the sufferings of everybody but himself; a coward in everything that concerns himself; a liar, a thief, a dead beat; yet if you had undertaken to arrest him before he shot Garfield, every court in the country would have decided him sane, and all the witnesses would have sworn that he was responsible for his acts."

This seems to cover the ground nearer than anything we have seen, and if that Jury leaves the box, without a verdict of "Guilty," they must be a queer set of cranks themselves.

We think this should be published and fairly understood:

Attention is called to the fact that the reports of the Guiteau trial sent West do injustice to the Court and the lawyers concerned. From these reports one would infer that the prisoner did most of the talking before the Court. The facts are otherwise. Every word the prisoner says is faithfully reported, while the remainder of the trial is greatly condensed; the consequence is an incorrect impression as to the course of the trial. A lawyer who lately returned from Washington says the proceedings in court are usually as dignified as in similar cases before other courts, and that the interruptions of the prisoner are comparatively infrequent.—I. O.

Gentlemen whose beards are not of a pleasing shade can remove the defect by the use of Buckingham's dye for the whiskers.

—Some of Hatt's Christmas beef comes to our table. It's No. 1.

—Such weather, such weather! who ever saw such a climate and so much sunshine in winter before. We thought J. Sterling Morton would have to go back on himself and acknowledge that Nebraska's sunny days were gone, one spell this fall, but she is redeeming herself grandly now.

—Shiloh's Vitalizer is what you need for Constipation, loss of Appetite, Dizziness, and all symptoms of Dyspepsia. Price 10 and 72 cents per bottle. Sold by Smith & Black Bros.

Mr. Becker of Union, a son of Mrs. L. C. Becker one of the oldest citizens of Cass County, and who is now attending school at Peru, called on us yesterday, and took the paper for his mother, who with the editor of this paper realizes that Nebraska has become one of the bright galaxy of states in the years lately gone by.

—The long mooted Road question came up before the Commissioners on Wednesday, that is whether a man can be made to do duty on the highway, if he has not been duly warned out by the supervisor. In the new laws it requires 3 days notice (page 448, sec's. 78 and 79); under the old law the court decides the tax cannot be avoided for lack of notice merely, but under the law of 1880 notice must be given. That's about the substance of the ruling now.

—The case of Philby, smallpox patient, claimed from Saunders Co. came up before the Commissioners this week. Evidence showed that Philby worked in Saunders Co. started for Iowa, with intention to stay there, hired to one Fowler and got sick. Fowler turned him off and on the way back to Saunders Co. he was taken with smallpox at Ashland from whence he was shipped to Louisville and there put the County to \$600 expense to save his life and prevent others from taking the disease. Saunders refuses to pay; but either that county or Mills must eventually pay this expense as the man was never a resident of Cass County.

Officers of the D. P. Association for 1882 are U. V. Mathews, president; J. V. Weckbach, vice-president; A. W. McLaughlin, treasurer; Jno. A. MacMurphy, secretary. Directors—J. M. Patterson, D. H. Wheeler, J. N. Wise, E. Gorder, J. C. Gilmore.

Why Should They.

No man or woman can do satisfactory work when the brain is dull, the nerves unsteady, the system relaxed and they feel generally wretched. Why should lawyers, merchants, clergymen, doctors, mechanics or mothers often miserably drag through their work in this condition, when a small amount of Parker's Ginger Tonic will always, at moderate cost, clear the brain and give them the strength and the will to perform their duties satisfactorily. We have felt its strengthening and bracing effects and can recommend it most highly. See other column—Ed.
