

Our Club List. Here are with our Club List. To every subscriber who pays for the coming year in advance we will give a copy of Kendall's "Horse and His Diseases" free.

Table with 2 columns: Name of publication, Price. Includes items like 'The Herald and Inter-Ocean', 'Chicago Herald', 'Boston Herald', etc.

We call attention to the sale of stock advertised by Timothy Clark of Weeping Water, in this paper.

The letter from Three Groves on "Teaching" is very acceptable and we thank the writer for the same. It would have appeared last week but for want of time to "set up."

The Watchman is still marching into Lord Frederick Davis; gives Steele and Johnson a whack, poetizes E. U. P. Director Housel, and pulverizes a temperance crank or two as he calls 'em.

Mrs. COLBY, of Beatrice, one of the most prominent workers in the cause of Woman's Suffrage, has gone to Washington to attend the National Women Suffrage Convention, where she will deliver an address on "The Social Evolution of Women."

The coils of the Gileau trial are still unfolding, Scoville making his final argument, which was probably closed last night. His sole plea is the insanity of Gileau, claiming that he has been insane since his nineteenth year. After Scoville, Porter will make the final close.

The first case of small pox was reported in Omaha on Saturday, a man by the name of Neilson. The man was quarantined at once. A pest house was ordered by the board of health and all means taken to prevent the spread of the disease.

THERE is rumored to be a project on hand by some prominent capitalists of Minnesota to open up a route from the nearest point on the Northern Pacific to the Yellowstone National Park and the Geysers. Ten years from now, that will be the great road of America. These parties also intend building some big hotels to be ready when the road reaches there.

RANDALL "the great Democratic leader of the minority in the house" as Dr. Miller calls him, is according to the same authority "free trade per se" but "tariff is a practical thing," and Pennsylvania not free, trade so Randall is contra se as to any great meddling with the tariff.

The Lincoln Democrat laughs at this position, but if he lived here he could often see great men for things per se, and after dodging 'em, contra se?

The Fremont Tribune says we are "mistaken" about Geo. W. E. Dorsey being a candidate for Governor—because he lately told the Tribune man that "he had never asked anything of the Republicans of Dodge Co., and never expected to." This in italics. We never said Dorsey was a candidate, but only that a fellow told us that a lot of other fellows in Lincoln told him so—but then what has struck all our great men? Has Jao. I. Redick been earning lessons in modesty all through Nebraska, and found devoted pupils?

MAJOR WHEELER is a candidate for Secretary of State Board of Agriculture. He has made a good one in the past, and if the Institution called the State Board of Agriculture must be kept up, Daniel H. Wheeler is as capable of keeping it at the front as any one we know.

Ex-Governor Furnas is a candidate, too, and equally capable, and being an old friend of the Herald, we wouldn't know how to vote, if we were there, so we're doubly glad we are an Editor, and not an Agriculturist about these days.

The House rather set down on Congressman Haskell's resolution "that no polygamist should be admitted to a seat there, and our democratic friend here rather chuckles over it and thinks Haskell no match for S. S. Cox. You just wait till the women vote here, Bro. Sherman, and you and your democratic congressman too, will be glad enough to vote and speak against Mormons in the House of Congress, or anywhere else in public position—unless your party will stay out in the cold till eighteen hundred and froze to death.

FERRIBLE RAIL ROAD DISASTER

On a New York Road.

SENATOR WAGNER OF NEW YORK

SIX OTHERS DEAD AND MANY WOUNDED.

New York, January 13.—The Chicago express train leaving Albany at 2:30 this afternoon with many passengers, was wrecked on the New York Central road in a cut about a quarter of a mile east of Spuyten Duyvil junction with the Harlem main line. The two rear cars (Wagner's drawing room of the Chicago train was telescoped and set on fire. It is reported seven bodies have been taken from the wreck. Senator Wagner, it is feared, is hurt to death, as he was last seen entering the car "die wild" a few moments before the collision. The following is received at police headquarters: "About 7:50 p. m. the Tarrytown train ran into the rear of the special Express at Spuyten Duyvil, destroying two cars by fire with loss of life. Notify the coroner and send ambulances." "Every available engine has been taken to the scene of the accident from Bellevue, Ninety-ninth street and New York hospitals. It is reported that the body of Senator Wagner was found in the wreck of the New York Times is killed. "New York, January 14. The cause of the accident on the New York Central railroad at Spuyten Duyvil, is thought to be this: The special Tarrytown local, theatre passenger train, at full speed, ran into the rear of the through western express to New York, which was crossing Harlem river to Manhattan island, because of some accident to the air brakes. The brakeman on the express failed to go back and put up the danger signals, and as the cut is a very sharp curve, and at a point where stops are never made, the engineer had no means of knowing the danger ahead until within a few feet of the express. He was going so fast that his engine cut clear through the rear coach of the express and drove most of its timbers through the coach immediately ahead.

The following is a correct list of the names of the persons killed: Senator W. Wagner, New York; Park Valentine, Bennington, Vermont; Mrs. Louise Valentine, of North Adams, Mass.; Dr. D. I. Ramon, Messina, N. Y.; Rev. Father Marcellus, S. J., Troy; O. B. Keeley, Spring City, Pa.; L. R. Pingle, Philadelphia.

WOUNDED. Brigs, New York, severe internal injuries; J. W. Browning, senator of New York, cut in the head and otherwise badly bruised; Edward Smith, New York City, bruised about the ribs and back; A. Chapin, assemblyman, Brooklyn, cut in the head with glass; Mary Daniels, Sherwood house, New York, severely bruised on the head; John C. Jacobs, senator, Brooklyn, bruised about the head and shoulders; Edward Kearney, New York City, bruised about the arms and back; Lecky, New York, severely bruised about the head and shoulders; Robert A. Livingston, assemblyman, Putnam, slightly bruised; Snyder, R. Nichols, police commissioner, New York City, cut on the arms and legs; Mrs. E. H. Phillips, White Plains, severely bruised on the head and shoulders; Hampton J. Robb, assemblyman, New York City, severely bruised about the body.

ALBANY, January 14.—The senate chamber has been draped in mourning. The day after the late Senator Morgan is also draped. At the meeting of the senate Monday night arrangements will be made for attending the funeral in a body tomorrow.

Young Valentine, who was killed together with his bride, Mrs. Miss Louise Gaylord, of North Adams, Mass., were married on Tuesday night. They were crushed and burned to death in the fire which followed. Lieutenant Governor Barstow, of Vermont, was with the bride party, but went forward as the train stopped, and escaped unhurt.

Park Valentine, who, with Valentine was on the platform of the rear car and jumped off, escaping uninjured.

Vote of Thanks. ELMHURST, N.Y., Jan. 7, 1882. At a meeting of the Elmhurst Farmers' Alliance, No. 113, a vote of thanks was tendered the Nebraska Herald for gratis publication of Alliance meetings, and other courtesies.

W. H. POOL, Sec'y. Virtue brings its own reward, for say we begin to feel rewarded for some of our work fully, and shall always remember the efforts of true friends to see that justice has been done. Kind words gain and make more friendships than fault-finding and scolding, and the Herald and its farmer friends will both reap the advantage of closer acquaintance and interchange of friendly greetings.

MR. HASKELL, of Kansas, is dead, as declared in his declaration of war against Mormonism and polygamy. In the House, Wednesday, he sought to have his resolution declaring polygamists ineligible to seats in the House put upon its passage. The Utah case has been sent to the Committee on Elections, and Mr. Haskell's high-sounding resolution was not germane to anything before the House. But the gentleman from Kansas pleaded that this was a privileged question, and, therefore, to be immediately considered. The House decided that a proposition to establish monogamy as a test of eligibility was not a question of privilege, and Mr. Haskell was cruelly snubbed in his attempt to get even with the "Scarlet Woman" for his defeat of the day before. Mr. Haskell's real remedy for the evil of which all good men complain should be an amendment of the Constitution of the United States, so that it should thus: "No person shall be a Representative who shall not have attained the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State in which he shall be chosen—and who shall, when elected, be a native-born citizen."

Joe Connor would say "snug," may be.

Temperance Column.

The wife of Congressman Valentine, is reported seriously ill at Washington.

We want a postal telegraph. The time has come for it. Congressman Valentine, before those other fellows get there, and while you may have all the glory, bring up this postal telegraph business and let us see how much sense you've got. At this date of the world America demands every facility for her commercial and social interests, and cheap telegraphy is one of the needs of the hour.

An Agricultural exhibit our fair has have been pretty thin sometimes, but not quite so bad as this from the Iowa Homestead which Bro. Deane, reproduces for us: "At a county fair heretofore the agricultural implements consisted of two plows, two wagons, and twenty wheels of fortune. That assortment ought to stand with any fair."

We should say so; beats "no premiums" all hollow.

The United States Senate has appointed, by a vote of thirty-five to twenty-three against, a select committee on the rights of women, and the ladies are exultant in consequence as they think they can wear out one committee during the session, that is obliged to take their plea under consideration. The only objection here yet is that the committee are nearly all old roosters, and supposedly, less susceptible.

The State Board of Agriculture met at Lincoln Tuesday. They were short of County delegates, it seems, and so our young secretary and a lot of other were admitted, as follows:—

Bushnell, Yocum, Paris, Blom, Ogden, Walker, Cannon, McClure, Bedford, Shyrtun, Barnes, Roby, Neil, North and McClure.

There were four candidates for secretary: Furnas, Wheeler, Walker and Yocum. D. H. Wheeler was elected as such. It is well.

CONGRESSMAN Helm, of Maine, remarked today that it was difficult in the way of effective legislation against polygamy, in his opinion, was that under the system the enforcement of laws depends upon the local sentiment of a community to which it applied. Congress might enact statutes, but if the weight of public sentiment was against it, it would be ineffectual. This was the case in the South, and it had become so apparent here that no one would attempt to force a law upon a community where the weight of public opinion was hostile to the position and he was practically abandoned. This was the trouble in Utah.

We have argued that in regard to temperance, but the sentiment of the country is changing and the tendency is to pass the law, if it is right, and let the people work up to it. At least that is what our Temperance friends are aiming at; and if it is true in one case it is in another. Let Congress enact a plain square act tomorrow law, whether by amendment to the constitution or statute law, and we'll see if it will not have to be obeyed, as well as other laws. To prosecute, by force of arms, illicit distillers in a community whose local sentiment favors distilling and shelters the distillers, cannot be harder than to enforce anti-Mormon laws in a community locally anti-Mormon, and if one is right there is no argument against the other.

The secretary of the St. Joe L. convention has, so far, failed to forward credentials to those gentlemen who were selected for the Washington convention. This is rather strange, for he has been personally and publicly requested to do so. We once again call upon him to forward these credentials at the earliest possible moment, so as to enable the respective members of the committee to show the official character of their mission while appearing before such committees of Congress as they will have to confront.

We set the following in motion here by a debate at the Farmers' Club last Friday evening which lasted until a late hour and then had to adjourn to next meeting night to allow a chance to the negative. A couple of ladies of good education and accustomed to speaking, took a very active part on the affirmative; this correspondent, et al, on the negative. When about to return it was moved to take a 14-day vote, first of the ladies and then of the gentlemen, which being carried out, resulted in a large majority of both sexes in favor of the affirmative. I look up over my writing desk at the picture of Mr. and Mrs. MacMurphy, I wonder how they stand upon this question, and this train of thought brings some pleasant recollections of old Plattsmouth friends.

Well, the weather, what shall I say? Is it possible that our "Indian summer" is going to last all winter, or have we been, alas! disappointed to the sunny clime of Italy, or the sunny clime transported to us? At all events we have as yet had nothing to call winter as we have been accustomed to see the earth so well saturated with moisture, and all entertain great hopes of having good crops the coming season. The hardness of winter has been owing to hot winds and chinch bugs, not drought.

The great lack of this country is capital and enterprise. There are several excellent sites for mills, but we have no one to build them. I was well saw and flouring mills would pay well for the investment even now and a sure thing for the future. The doctors and I have been having quite a boom for the past two years, which is very gratifying to us, for our association sake, and the friends still there, others would become at once healthy.—Bulletin.

Grand Prairie News.

The weather opens out a little colder this week than it has been this year.

Corn was gathered before winter set in with few exceptions. Mrs. Sara Oona and her sister Anna, who have been visiting in eastern Iowa for some time, are expected home in a few days.

Mr. Wm. Biggs, from Michigan, is visiting in this community. R. H. Ingham returned the first of the week from Pacific Junction, Iowa, where she has been visiting the past week with her sister.

D. D. Andrus traded his buggy for a Concord, and Miss Dottie Cook intends to start for Ann Arbor, Michigan, Wednesday, the 15th inst., in company with her brother-in-law, Mr. Biggs. Miss Cook will take a course in music at Ann Arbor.

Will Hoffman returned from Canada lately, and the knowing ones say he is no longer a bachelor. R. B. Carley is visiting Avoca, Pa.

We have a full school this winter, forty-six names enrolled with average daily attendance the past month thirty-eight scholars.

South Road Sessions. JANUARY 10th, 1882. Ed. Herald.—According to promise we drop you a few lines. For the last few days our ice men were down in the mouth but this morning we were up and about, and see the ice men at work cleaning out their houses preparatory to filling them. They get their ice on Ronnie's fish pond, two miles south of town. Our street was terribly shaken last night; men were running hither and thither with licks, and on inquiring the cause of all this excitement we hear inquiry from town to town, and a man of good standing hitherto, and having the fear of man before his face had absconded with one of our fair daughters, as supposed to that haven of refuge, the city of New York.

Mr. J. G. Odham is building a tenant house on his place; Mr. Grey will occupy it when finished. Geo. W. Dalton from Glenwood Iowa, has been visiting in our locality the past two weeks. He returned on Saturday.

Mr. William Grey, who had his hand nearly torn off, month or two ago, by a threshing machine, is improving rapidly, although his hand has been making slow progress it is thought it will get well without losing any of the fingers, or even the use of them.

Eddie Young and his sisters went out to Mt. Pleasant on Saturday and returned Sunday.

Alphonso Calk, John Beadle and the two young Mr. Allison's had a grand hunt last week, the losing party to get up and pay for an oyster supper. They met with poor success and said it was a poor day for hunting, the result was as follows: The pointer, a quail, they called it a tie and agreed to hunt again.

F. M. Young Sr. looks more pleasant than usual this fine winter weather. It is no 6 and a fine boy, Miss Bird, is conducting our winter term of school. Her school closes in about three weeks.

Miss Vass has charge of the Rock Creek school and we learn that she is progressing with good success.

P. S. Since writing the above the mercury has crawled down below zero and the probability is that the ice famine will be avoided after all.

REPORTER. MAJOR PUSHING HIS CLAIM. WASHINGTON, D. C., January 12.—Thomas J. Major, of Nebraska, is here for the purpose of claiming his right to a seat in the House of Representatives from that State. Last fall he was elected as a contingent member from Nebraska, the popular vote of the State having increased to fighting to seat him to two members.

We would like to see "Tom" get in as well as any man on earth, but really never saw where or how the precedent could be legally claimed.

REPORT OF THE CONDITION OF THE FIRST NATIONAL BANK at Plattsmouth, in the State of Nebraska, at the Close of Business, December 31st, 1881.

Table with 2 columns: Description of assets and liabilities, Amount. Includes items like 'Loans and discounts', 'Overdrafts', 'Cash on hand', 'Capital stock paid in', etc.

Three Groves Comings.

JAN. 10th, 1882.

Ed. Herald.—While reading over the last week's Herald the thought struck my mind that the long winter evenings might be spent to a good advantage by writing up a few scattering notes once in a while for your paper from our neighborhood.

We very often hear it retold what has become of all the Herald correspondents? For my part, I don't know, but I have neglected the Three Groves items for the last three or four months, for one two reasons: first, it takes a good deal of time and patience to write and gather up items for a newspaper by one who is not a journalist; again, it is very often the case that we only have two mails a week here, especially if the weather is a little stormy or disagreeable.

If the mail don't go up on Monday our items have to lay over until the following week before publication and then they are a week old; however we will try and continue our correspondence from time to time whenever convenient.

The old saying is too true "So is Christmas coming" it has come and gone before any body hardly knew it, at least it was that way in this neighborhood. New Years followed with few announcements of any importance; shooting matches, social hops and a turkey roast here and there was all that aroused any excitement whatever.

This middle of January and not so far from yet is somewhat remarkable for winter weather still, it is something that we can boast of. No day has passed yet but what the thermometer has been in the red without suffering any inconvenience from the weather, although the roads have been bad and rough; who could expect anything else for an open winter.

James Cole Esq. went out to Sevard a few days ago. He returned one day last week. We noticed the pleasant face of our friend Mr. William Case, from Centre Valley, in our vicinity on Saturday.

Frank and Charley Moore have taken quite an interest in the rock quarry west of Rock Butte this winter. Mr. J. G. Odham is building a tenant house on his place; Mr. Grey will occupy it when finished.

Geo. W. Dalton from Glenwood Iowa, has been visiting in our locality the past two weeks. He returned on Saturday.

Mr. William Grey, who had his hand nearly torn off, month or two ago, by a threshing machine, is improving rapidly, although his hand has been making slow progress it is thought it will get well without losing any of the fingers, or even the use of them.

What Will You Take?

"What will you take to drink?" asked a water-drinking vendor, who for the third time accompanied his father to a public dinner. Uncertain what to say, and feeling sure that he could not do so without the disapproval of his father's example, he replied, "I'll take what father takes."

The answer reached his father's ear, and instantly the full responsibility of his position being upon him, he said, "I'll take, as he had always said, his son would take it also, and then?" And the father considered as the history of several young men, one of whom was a young man, his son, and, turned by drink, started up in solemn warning before him. Should his hopes also be blasted, and that he was to be a water-drinking man, for strong drinks they would have been so earnest, prosperous men; and if that could work such ruin upon him, was his own safe? Colder than the winter wind, he thought of his mind, and in a moment the decision was made. "If the boy falls he will not have me to blame," and then in tones tremulous with emotion, and to the astonishment of those who knew him, he said, "Water, I'll take water," and from that day to this strong drink has been banished from that man's table and from that man's house.

B. P. RAILROAD NOTES. Weeping Water to have a Round House, Machine Shop, and a Division Station. We hear it from good authority that it has been decided to have a round house, machine shop, and a division station at Weeping Water. The plan is to have a round house and a machine shop, and a division station at Weeping Water. The plan is to have a round house and a machine shop, and a division station at Weeping Water.

There have been several of our Sary neighbors over the last few days; through the kindness of our gentlemanly R. H. agent, Mr. Phelps, we are enabled to give the number of ears shipped from and received at this point from Jan. 1st, 1881, to Jan. 1st, 1882.

Cuticura.

For the cure of all the eruptions of the skin.

THE CUTICURA TREATMENT, for the cure of all the eruptions of the skin, is the most perfect and reliable remedy ever discovered. It is the only medicine that cures the skin diseases, and restores the system to its normal condition. It is the only medicine that cures the skin diseases, and restores the system to its normal condition.

SKIN DISEASE. E. H. Drake, Esq., Detroit, Mich., suffered beyond all description from a skin disease which appeared on his hands, head and face, and nearly destroyed his eyes. The most careful doctoring failed to help him, and after all he failed to use Cuticura. He used Cuticura internally and externally, and Cuticura Soap the great skin cure, externally. He was cured, and has remained perfectly well ever since.

SKIN RHEUM. Mrs. E. H. Whipple, Decatur, Mich., writes that her husband had a skin disease which appeared on his hands, head and face, and nearly destroyed his eyes. The most careful doctoring failed to help him, and after all he failed to use Cuticura. He used Cuticura internally and externally, and Cuticura Soap the great skin cure, externally. He was cured, and has remained perfectly well ever since.

He was cured, and has remained perfectly well ever since.

SKIN RHEUM. Mrs. E. H. Whipple, Decatur, Mich., writes that her husband had a skin disease which appeared on his hands, head and face, and nearly destroyed his eyes. The most careful doctoring failed to help him, and after all he failed to use Cuticura. He used Cuticura internally and externally, and Cuticura Soap the great skin cure, externally. He was cured, and has remained perfectly well ever since.
