

# THE HERALD.

JNO. A. MACMURPHY, - EDITOR.

PLATTSMOUTH, FEB. 16, 1882.

## Our Club List.

Here we are with our Club List. To every subscriber who pays for the coming year in advance we will give a copy of "Kendall's Standard and His Diseases" free. As will be noticed by looking over this list carefully, several premiums are offered by other papers and magazines, so our readers can, if they wish, obtain two premiums as well as two papers at low rates.

And now they call it James Guano Blaine.

Read the "Prayer" on the outside. It is one of the best things we have seen in a long while.

**EX-Secretary of State.** Tazluch has been nominated by the President as U. S. Consul to Vera Cruz.

A CORRECT list of presents, &c., at the late wedding will appear in the weekly of the Journal, published to-day.

A GERMAN has discovered how to consolidate coal oil into solid chunks. Hereafter we may buy kerosene by the foot, cord, perch, yard or chunk.

FIVE B. & M. conductors—old timers—were "let out" Tuesday by the B. & M. In Kansas City the R. R. authorities discharged fifteen Friday last.

The Bee makes fun of Datus Brooks at the Woman's suffrage meeting at Lincoln, and thinks he run the machine to get a chance for a "lick" at Fairfield.

We call attention to the large and new advertisement of O. N. Anstey in this week's supplement. We have so much matter we are obliged to put three ads. on a supplement.

**A NEW YORK** World, from D. H. Wheeler, reached us last week, and looked very natural. We can remember very well when the old World building lately burned, was built and just how the old corner looked.

THERE was some difference in Ryman's two fights. In 1880 he whopped Joe Goss, in West Virginia after 87 rounds, lasting one hour and twenty minutes. The other day he got licked in Mississippi in nine rounds, taking about eleven minutes. Such is fate.

## Nominated.

The President sent the following nomination to the state: John C. New, of Indiana, assistant secretary of the treasury; Edward H. Nevin, Jr., surveyor of customs for the district of Philadelphia; Benjamin Flager, collector of customs for the district of Niagara, N. Y.; L. R. Erverge, Maryland; U. S. consul at St. Paul, De Landis; Moses M. Drew, U. S. marshal of California; Hiriam M. Van Arman, of Arizona, secretary of the territory of Arizona.

That knocks Nebraska higher than that well known kite in Ast. Secretary of the Treasury. And Van Arman, too. I am goin' crazy?

## Shooting Affray in Washington.

On Friday last a Mr. A. M. Soteldo and his brother A. C. Soteldo visited the Washington Republican office about 9 o'clock and A. M. Soteldo clinched him and a scuffle ensued, both men drawing pistols. The younger Soteldo also drew and commenced firing. The elder Soteldo fell and Barton and the young Soteldo then clinched and struggled out on the sidewalk. A crowd, of course, assembled, Barton was put in a carriage and sent home wounded and the younger Soteldo was arrested and sent to the station house. On re-entering the room where the fracas commenced the elder Soteldo was found lying on a pile of exchanges shot in the neck at the base of the brain, and he died Sunday night.

A post-mortem revealed by the bullets that the younger Soteldo must have fired the fatal bullet that killed his brother while endeavoring to hit Barton. Barton is but slightly hurt. The Republicans had attacked Soteldo's character and Soteldo had been writing adverse articles and aiding the investigation of the Star-route frauds. Soteldo was clerk of the senate committee on railroads.

SAYS a prominent horseman, in giving his opinion of Vanderbilt's mare, Mandu S., whose great feat at Chicago put her at the head (and dubbed her "Queen of the Turf"), "In my opinion the time is not far distant when a two minute gait will be recorded." It will certainly be the case if horsemen continue to use Kendall's Spain Car as it limbers up the joints, removes all blemishes, and in fact has made a complete revolution in the horse business.

## Nebraska Woman's Suffrage Association.

The advocates of Woman Suffrage, in the state of Nebraska, held their annual meeting at Lincoln Feb. 8th, and continuing three days. The meeting called together a large assembly of the representative women of the state, and the meetings are said to have proceeded with all the necessary parliamentary formality, and with a knowledge of the proper usages of such a body, hardly to be looked for under the circumstances. The officers for the previous year were Mrs. Harriet S. Brooks, Pres. Mrs. Clara B. Colby Vice president at large; Mrs. Ada M. Bittenbender recording secretary. Gertrude McDowell corresponding secretary. Mrs. Dissemer of Omaha, offered the following, which was adopted:

WHEREAS, The educational interests of the state are and should be of paramount importance to women, therefore,

Resolved, That the Nebraska woman suffrage association in annual convention, will make a resolution, and adopt, that all women qualified to vote at school elections exercise their right to its fullest extent at the coming spring election.

In the discussion which ensued on this question it was stated in answer to a question that the qualifications under this law are the same for women as for man, the bill giving such qualifications having passed the last session of legislature.

Thanks were extended to the Republic members of the United States Senate who voted to appoint a standing committee on woman's claims. The opening address of the president, Mrs. Brooks, had for a subject, "Work, Wages and the Ballot," being an answer to Chancellor Fairfield's lecture on work and wages. Judge Mason and Dr. McNamara made most interesting addresses; also Mrs. Youcum of Hastings, Miss Lydia Bell, and Mrs. Reed. A reception was given at the Commercial hotel by Mr. and Mrs. Imhoff under the auspices of the society.

Thursday the election of new officers took place and results are as follows: Mrs. Ada M. Bittenbender, Pres. Mrs. Iselle Bigelow, of Genoa, recording secretary; Mrs. Russell, corresponding secretary; Mrs. Colby, treasurer; Mrs. Colby vice president at large. Executive committee, Mrs. H. S. Brooks of Omaha, Chairman, Hon. E. M. Correll, Hebron; Mrs. Sufie Field, Fairmont; Geo. Skinner, Lincoln; Rev. Jno. McNamara, Omaha; Mrs. J. F. Holmes, Tecumseh. The vice presidents, first judicial district, Mrs. B. J. Thompson; second, Mrs. O. H. Wood; third, Mrs. C. Dinsmoor; fourth, Mrs. Ada V. Pelt; fifth, Mrs. S. H. Sydenham;

This is a matter of considerable importance to the state, and a question fast approaching us in such a manner that we must decide it one way or the other, we shall endeavor to keep our readers posted at more length as those advocating the cause, and also discussions about suffrage. We invite opinions from our county correspondents, on the feeling in their neighborhoods.

There is a school teacher in Crete who ought to be honored and the sooner the better. This creature in full school demaded of his class, "Which is the best way to become president of the United States?" The question of course was mischievous. The teacher did not suit the dominion inclined the following poison into the young minds who are under his charge. "The best way to become president is to be elected vice president and then hire some one to kill the president." Only this and nothing more. The newspaper of Crete ought to root the fellow right out.—Lincoln Democrat.

Any teacher in this state is guilty of such an enormity as to instill into young minds such foolishness as the above, the superintendent of that district should never let the sun set on his head as a teacher, and if he hasn't the sand to do it the State Superintendent should look after the matter.

A coat of tar and feathers warmly and promptly applied by the parents sending to school, would emphasize the guilt of such teaching fully.

## Friend Gilbert's Reply.

For the HERALD. In the HERALD of February 2, 1882, you say: "We would like to have friend Gilbert tell us which would be better, to be a member of the Alliances?" Most cheerfully, Bro. Mac. G. D. says: "I am a member of the Alliances." Then he did not suit the dominion inclined the following poison into the young minds who are under his charge. "The best way to become president is to be elected vice president and then hire some one to kill the president." Only this and nothing more. The newspaper of Crete ought to root the fellow right out.—Lincoln Democrat.

If any teacher in this state is guilty of such an enormity as to instill into young minds such foolishness as the above, the superintendent of that district should never let the sun set on his head as a teacher, and if he hasn't the sand to do it the State Superintendent should look after the matter.

A coat of tar and feathers warmly and promptly applied by the parents sending to school, would emphasize the guilt of such teaching fully.

## Collection Notice.

I am hard up, my force is low, coal is out, the tires are loose, the wagon axles, I might have some money to conduct a business properly, but I have no money for years. I have been lenient, but I have buildings to pay for; stock to buy, men, cash. I therefore say to my customers, good friends and all, please come up and pay. I want to be a business settler by March 1st, and mean to have them and all not settled at that time will be placed in the hands of Collectors. Take due notice and govern yourselves accordingly. J. M. SCHNELLBACHER, Plattsburgh, N.Y.

NOT TO BE SNEEZED AT. That pure, sweet, safe and effective American distillation of witch hazel, American pine, Canada fir, marigold and clover blossom, called "Sanford's Radical Catarrh." A few doses instantly relieve the most violent fits of sneezing, colds, etc. It is the non-arrival of the HERALD was mis-taken. The HERALD was mis-taken, however, in the case of the "Queen of the Turf," "In my opinion the time is not far distant when a two minute gait will be recorded." It will certainly be the case if horsemen continue to use Kendall's Spain Car as it limbers up the joints, removes all blemishes, and in fact has made a complete revolution in the horse business.

## CORESPONDENCE.

### Grand Prairie Occasional.

ED. HERALD.—We are still living and moving as gently and good natured as we can under the pressure of bad colds, spring fever, etc. Grand Prairie affords little in the way of "notes." Times are somewhat dull, business moderate.

No small-pox around; yet there is a general attention being paid to vaccination and re-vaccination, and some arms are the order of the day.

Mrs. Stevens, from Red Oak, Iowa, was visiting in this neighborhood last week. Wm. Coon, now head of the Concord Tuesday, and Mrs. Bouton disposed of all her young stock at the same time.

Jesus Merrill has purchased Henry Con's farm, and will move onto the same the first of March. Our friend, Mr. A. P. Woodard, has rented his farm and will move onto the same the 1st of April, when he expects to reside hereafter.

Mr. Dissemer of Omaha, offered the following, which was adopted:

WHEREAS, The educational interests of the state are and should be of para-

mount importance to women, therefore,

and tried the experience of running it by check, found it up hill business; we expect lively times before all is settled.

There is considerable sickness at present, this is splendid weather, but it would be better for health if colder. Will close for the present. Yours, S. B.

Send us some bass you old Pickers!

You what you want to make our mouth water for nothing for.

### PRESS OPINION.

ACADEMY OF MUSIC.—O. C. Smith's Great Doubt—"Uncle Tom's Cabin" Company opened a five night's engagement at the Academy on the 10th instant, the afternoon of the 11th, and the houses of the season, hundreds turned away at the matinee, and house crowded in the evening. It's the best representation of this moral drama ever given here.

Sam Lucas, in his specialties, was the star of the show, and the Concord

afforded our city fruit stands and in our markets the Concord appears first and stays longest. Early in the season it was the Delaware for a rival, but this delicious little grape with its red and its delicate flavor, is not a profitable business, and it sells for about twice the price of the Concord.

Lester comes the Catawba,

an excellent grape, but too often

picked before its best qualities have

developed. Besides these three varieties the Concord is the best, and it is a

large, round bunches ripe with

several clocks. His exercise was to

wind up each of them, Count William, formed

an artificial island and built a citadel upon it.

It was elaborately constructed,

according to the science of military engineering.

It and its garrison of three hundred

guerrillas defended a

cabbage-garden, and a small observatory with a worthless tele-

scope.

Another prince, one Gunther, ruled

over seventy-five thousand men, women

and children, who lived on here com-

bined into a medicine of such varied power as to be used to treat the greatest

ills.

Two virtuous, namely, to obey and to

pay. The follies of some of these petu-

ty rulers were so extravagant as to be

ridiculous in their

excesses.

Another prince, one Gunther, ruled

over seventy-five thousand men, women

and children, who lived on here com-

bined into a medicine of such varied power as to be used to treat the greatest

ills.
