—The last T. A. M. Dance of the season took place last Friday evening; a large crowd were in attendance, and all enjoyed themselves hugely. The T. A. M. Club had a business meeting last Tuesday evening and decided to break up for the season.

—Glanders is reported in the neighborhood of Mt. Pleasant. A Wm. Johnson is reported as having a glandered horse, and still using him on the road and elsewhere so that the disease may be communicated to other animals. This is a very dangerous and contagious disease and the matter should be looked into at once by some proper authority. Too much property is at stake, to deal negligently with the matter. It beats small-pox all hollow, once give it a good start amongst horses.

—For nearly three weeks, dating from about the 29th of Jan., we did have about as beautiful a "spell of weather" as is often vouchsafed mortals here below. Bright, sunny, days, with the thermometer up in the sixties and seventies, followed one after another until it seemed that the weather clerk had forgotten us and was sending all the storms on our eastern neighbors, but last Friday he got his weather eye on us, and has given us a good big dose since; sleet, rain, thunder and lightning, cold, snow, clouds, and a big blizzard all in a heap.

**INFORMATION.**

**It is quite often asked why goods bought at the "Red Lion" are from 5 to 10c per yard less than other houses ask for the same goods. The large amount of goods sold by us enables us to sell them cheap, and we prefer to have our store crowded with customers at a small advance on goods than a high-priced empty store. Come, Everybody!**
