

THE RED CLOUD CHIEF. THURSDAY JUNE 17, 1875. Webster County Condensed.

Webster Co., Neb., lies in the Valley of the Republican, is 70 miles long by the Missouri River and stretches the State line on the South. Winters are mild and dry; very little rain or snow falls in winter so little in fact that cattle live all winter with no hay or grain. Plenty of rain falls in the spring and summer. The summer are not disagreeably warm, as there is always a cool breeze especially in the evenings. The county first began to settle in 1870. In 1871 the county was organized with a population of 45. Its population is now between 2500 and 3000 and is rapidly increasing. There are at present 25 organized school districts within its boundaries and school facilities are therefore ample—better than those in some Eastern States. The proportionable school fund furnishes nearly enough money to pay teachers' wages. Farmers can buy B. B. land from \$1.50 to \$2 per acre—with ten years time. There is yet a considerable amount of government lands for homesteads and pre-emption. As a stock raising country it is hard to excel. Cattle do well, and for sheep it cannot be beaten. It is just suited to that. Fortunes can be easily made by raising sheep as the expense of feeding is very small. That corn, oats, barley, potatoes, buck wheat, and all kinds of roots and vegetables, are grown here with little labor, 25 bushels of corn to the acre is nothing new. Wheat averages about 25 bushels to the acre. Fruit does very well. Very few farmers have orchards growing. Forest trees grow rapidly. Cottonwood, boxelder, whitewood, soft maple, and many other kinds of trees grow into timber large enough for fuel in about three years. Orange groves do well, and in a few years your live forces can be made. Mechanics find employment and fair wages. The very best and purest water is obtained by going from 5 to 100 feet. The cost is very small when the well is bored—These wells never go dry. The streams of this county are the Republican and its tributaries, which are as follows: on the south side of the river, Walnut, Dry, Buffalo, State, Peony, Cedar, Hicks, Ash, and Little Rock creeks. On the north side are Willow, State, Cottonwood, Crooked, Indian, and Farmers creeks. In the north part of the county is the Blue river and its tributaries. The soil of Webster county is a dark, rich vegetable loam. The wild grasses are nutritious and abundant, and make most excellent hay. Timothy, clover, Hungarian millet will undoubtedly prove a profitable production. Those who have tried them so decide at least. On railroad prospects are good, and we will have a road as early as we really need one. But the farmers for years will find ready sale for surplus productions in the newer counties west and to new settlers. By the time these markets are closed roads for cheap transportation east will be opened. Our climate is beautiful, the air pure and bracing, and sickness of any kind is almost a stranger to the people here. The county seat, RED CLOUD on the Republican river, near the center east and west and a little south of the center north and south. It is a center for business of every branch of trade. The country around is such as to warrant a good business in every kind of merchandise. Red Cloud and Guide Rock are the only two laid out towns. Further information can be obtained from any land agent who advertises in this paper, or at this office.

THE Constitutional Convention adjourned last Saturday the 12th inst. We have seen an imperfect copy of the new constitution, in which there seemed to be some omissions. Otherwise the proposed constitution is in general very acceptable. It is much better than we hoped for a week or two ago. The special legislature which had begun to make it formidable has been much reduced. The reforms in the judicial and legislative departments are such as will probably satisfy our present wants, and indicate a disposition on the part of the east to accord us justice. Under the new constitution we shall probably have two terms of court each year, and a week sitting each term. This will be amply sufficient for the present. The legislators of both houses represent population. Our preference has been for a representation based, both on territory and population. The new counties will be practically without representation. But as Webster county is not one of these new counties, we are not disposed to grumble. This county will be represented by one representative in the lower house, and with Adams, Nuckolls and Thayer will be entitled to one senator in the upper house. We feel satisfied with the apportionment, which is to be attributed to Mr. Laird. These two reforms were the principal ones called for in this section, and we have no doubt that as far as the votes of the Republican valley count, the Constitution will be adopted.

COURT met at half-past nine, a. m., in the School House. On motion of Sheriff Bill, seconded by J. A. Talley, Daniel Grant was chosen chairman. J. A. Talley was appointed Secretary. Mark H. Warner was appointed Sergeant-at-arms. He quelled a rising disturbance by leading out thirty or forty men from the country under Abe Garber their ring-leader. They threatened to make mischief, but have been tolerably quiet and orderly. Meeting then proceeded to business. The chairman "dealt." But there were no leaves out. The lawyers all passed, and the chairman threw up his hands. Dilworth then took the "papers," shuffled them and distributed them around, turned up whiskey for "trumps." Kaley by some Heathen Chinese trick held four knives in his hand, and "ordered it up," and went it alone, lead out Dilworth's trumps and waxed him on the "suh." Conversation ensued between Dilworth and Kaley as to the "drinks." Kaley proposed Vingar Bitters. We didn't understand the law of the game, but knew something about "drinks." We demanded Vingar Bitters, and intimated that Ager's pills, Jagne's Al... "Shap" would be preferred. But we did not... thank you. Our

bowels were easy. The bar sustained the demurrer and suggested Hostetter's or "George's." The Court decided in favor of "George's," and adjourned thereupon adjourned.

Game began in the afternoon at one o'clock. Wilcox got the right foot on the bat and scored a tally without opposition. Kaley came to the bat manfully, but Bowen's ball had a trick in it and Kaley "fouled," the Judge took it in nicely. Colby had gone for a drink and foreclosed the innings with another tally. Kaley "cooked" one nicely on third, but "snuffed" a fly from Moore, which he should have closed. He attributed the snuff to a "false motion" by Wilcox. Game went on smoothly, good fielding keeping the tallies down. The Court recessed,—bar and reporter refreshed. Grounds were occupied in half an hour. Betting was quiet. Odds were rather in favor of Kaley, who showed good bottom and long wind. The start was fair, Kaley taking the lead. D. Worth spring after him and displayed good spring and muscle. He soon overtook and led Kaley—leaving him half a length. Betting quickly grew interesting, and the odds were given for Dilworth. At the last quarter post Kaley's strength of lungs began to tell, they came to the distance post neck and neck, after which Kaley gained, passing under the rope a full quarter ahead,—time 1:45.

All on hand Saturday morning—King formed,—sparring began between Kaley and Bowen. Wilcox & Gillham had their coats off and were girding up, when Kaley swore that he wouldn't and couldn't come to time, because of his trainers absence. Post-poned until the arrival of the trainer. Much disappointment was expressed as this was the grand attraction of the term. The rest of the term did not attract much interest. Court soon adjourned, sine die.

This is our reporter's first attempt. So the Judge, Clerk, Attorney, Grand and Petit Jurymen will please excuse his phraseology, as perhaps you may think he knows more about base ball than law, but we can assure you he is no "rat," and can sling "quads" with any one. He has little to say to the devil who washes the "forms" or slings his pi in the "hell-box," but uses an opportunity whenever an opportunity permits, which he says is seldom. The next time we want copy we will "sail" him out with full instructions concerning court proceedings, etc.

Salaries of State Officers. The proposed salaries of the State officers have been so much debated, and so often changed, as to leave many people rather uncertain of the outcome. But a reference to the proceedings of the convention yesterday afternoon, will show what will probably be the final action of the convention; leaving the salaries as follows, viz: Governor, Auditor and Treasurer, \$2,500 each; and Secretary of State, Attorney General, Supt. of Schools and Commissioner of Public Buildings \$2,000 each—with no fees or perquisites, nor a clerk for either the Supt. of Schools or the Attorney General. In reality, however, the Supt. of Schools needs to travel largely through out the State, visiting schools, counselling school officers, and especially holding teachers' institutes, and so imperatively needs a clerk.—State Journal.

Mr. Laird, of Adams county, and chairman of the committee on Apportionment, is to be congratulated on his success yesterday, in carrying through his report. It was confessedly the most difficult position in the convention, and many were the predictions, that whatever the report might be, it could not be carried through. And yet, so far as the essential points were concerned, it went through, not only without amendment, but without opposition. Even the minor points, in which it was changed, were nearly all mutually arranged, and with the approbation of the committee. Another commendable feature is that the result was accomplished by sagacity and good sense, exercised in fashioning the report, and in securing adhesion to it outside of the convention; and so avoided a tedious and unprofitable discussion, if not wrangle, in the committee of the Whole.

This result is one of the highest compliments that could possibly be given to Mr. Laird.—State Journal.

Among the rest of her wants, Lovell calls for a shoemaker's shop, and a machine to boil down the Con. Con. proceedings. Mr. Hobbs, of Franklin Co., adds 450 sheep to the Nebraska sheep-fold. Five wagons-full of cypresses were in Columbus recently on their way to Colorado. Mr. Dmlap, member of the convention from Johnson county, received a letter from home this morning informing him that eighty acres of crops on his farm had been eaten clean by the grasshoppers. He went to Omaha this morning to procure fast growing seed corn to replace what has been destroyed.—Evening Star.

tion recently to remain during the summer. They were wintered on the upper water of the Republican. The yellow-browed blackbird is doing some damage to corn fields near Gibbon. A vinegar factory is being built at Kearney.

D. W. McKinnon, Co. Clerk of Cass Co., died May 22nd at San Diego, Cal., of consumption. His remains were brought to Plattsmouth for burial. During the month of May the government debt was decreased \$1,189,456.

William Guy, of Lincoln, Treasurer of Lancaster Co. ten years ago, died June 7th. The Journal decries of rousing the patriotism of the Lincolnites and therefore offers the following resolutions: Resolved, That on the Fourth of July the citizens of Lincoln will be a bed all day. Resolved, That our neighbors in Seward and the balance of Lancaster county be cordially invited to the city on that day, and ample (sleeping) accommodations will be provided for them.

The Lincoln Star thinks a two months' session with 114 members in the legislature is out of proportion, and wants the number reduced and the time doubled. Fred Miller, delinquent tax collector of Richardson county, has resigned his position, as he thinks the people are already taxed enough by the grasshoppers. Mrs. Geo. A. Bell, of Falls City, died on the 8th of June. The Missouri river rises one foot per day. The Beatrice Courier says the rumor that N. K. Griggs is going to remove to California, is a canard. Mr. Cary, of Beatrice, has a flock of 1000 fine wool Merino sheep. The Hastings people are willing to bury the hatchet long enough to allow the Juniata folks to join in the 4th of July celebration—if they will. The ladies of Juniata turned out on last Wednesday and lathed a good share of the new church. They did it with their little hatchets. The Juniata young men must be a fearful set. The Gazette says they need praying for and educating. The Saline Co. Post thinks the Crete Cornet Band will musicate for the Hastingsites on the Fourth.

A young homesteader, who resides near this place, lately went to Red Cloud to attend a dance. When there all went as merry as could be desired; our hero was doing a great deal of soft talk to a very handsome lady, and as the party began to disperse he asked about "seeing her home." She replied: "Well I don't know, Mr. L., there's my husband over there fiddling her skin." Instead of doing so, he walked to the other side of the room, and gave vent to his feelings in several forcible exclamations.—Adams Co. Gazette.

Report says that grasshoppers are dying by the millions in Otoe Co. They ought to have died sooner. Cassius M. Cropsy, son of Col. A. J. Cropsy, died at Lincoln last week of consumption. The Fairbury Grange has passed resolutions as follows: Resolved, By the members of Fairbury Grange, No. 333, Jefferson county, Neb., that we as individuals will not allow any one to kill birds, quails, chickens on any farm or premises under our control at any time of the year whatever, and we hereby give notice that any person or persons found killing birds, chickens or quails on our premises will be prosecuted to the full extent of the law. Resolved, That we ask the co-operation of every Grange in the county, that they may have similar resolutions to the above. We believe we can accomplish a great deal of good by so doing. Resolved, That a copy of this preamble and resolutions be published in our county paper. L. A. STEVENS, Master.

Other Granges would do well to follow their example. A severe hailstorm visited the western part of Hall county, on the 8th inst., doing considerable damage to rye and barley which was headed out. A. C. Johnson, living near Grand Island, was fatally injured last Wednesday by a run-a-way team. He leaves a family. The Menonites who visited Columbus lately, said they never saw a better country and poorer farming. The recent heavy rains made of Columbus a second Venice. The Republican says they navigate the ponds in the streets in gondolas. Hastings offers \$25 to the best base ball club to play in that city on the 4th of July. York, Clay, Fillmore, Adams, Kearney, and Buffalo counties, all report "no grasshoppers" and crops are most promising. If Richardson county could have been well supplied with gophers she would have gained the victory over the g. hoppers. One of the said gophers recently killed there contained in its stomach 162 hoppers. By dividing the number of grasshoppers by 162, one can tell how many gophers they would have needed. If we recollect the number of hopper grasses as given by the Globe it was 1,000,000,000,000,000,000,000,000.

The Omaha Republican thinks that an assembly of 100 hundred men would be large enough to frame laws for the State for the next twenty-five years. The Omaha Republican of Sunday, has a full column of State News which are a verbatim copy of the Nebraska Notes in the Lincoln Star of Friday. The Republican is truly a fine paper.

Prayer by the Church. At a meeting of the members of the Christian Church of this city, it was agreed to set apart Thursday next, June 17th, as a day of fasting and prayer to Almighty God that He will remove the scourge that threatens to devastate our young State, and to invite all Christians in the State to unite with us. It is recommended that as far as possible the several denominations meet at the same place in each community and join in a union prayer meeting from 10 o'clock A. M. till 12 M., and that each denomination continue the worship at their usual places, in the evening. The pastors of the several churches through the State are requested to give notice of this meeting from their pulpits on Sabbath next. Will the papers throughout the State please copy. The Christian people of the several churches of this city are requested to meet at the M. E. Church, on Thursday morning next, at 10 A. M. By order of the committee. J. M. MCKENZIE, Sec'y.

RENNECKER'S HOTEL. A. J. RENNECKER, Prop. Six miles Southwest of Red Cloud on the road to Smith Center. A. J. Rennecker has opened a first-class hotel and would call attention to the excellent facilities for entertaining guests and the best of the country. A notice has been given that the hotel is open for business every day. A notice has been given that the hotel is open for business every day. A notice has been given that the hotel is open for business every day.
