Webster County Condensed.

Webster Co., Neb., lies in the Valley of the Republican in 150 miles west of the Missouri River and touches the State line on the South. Winters are mild and dry; very little rain or snow falls in that season so little in fact that cattle live all winter with no hay or grain. Plenty of rain falls in the spring and summer. The summers are not disagreeably warm, as there is always a cool breeze especially in the evenings. The county first began to be settled in 1820. It was organized with a population of 400. Its population is now between 200 and 300 and is rapidly increasing. There are at present 35 regular school districts within its boundaries and school facilities are therefore ample—better than those in some of the Eastern States. The appropriate school fund furnishes nearly enough money to pay teachers' wages. Farmers can buy R. R. land from \$1.50 to \$6 per acre—with ten years' term. There is yet a considerable amount of government lands for homestead and pre-emption. As a stock raising country it is hard to excel. Cattle do well, and for sheep it cannot be beaten. It is just suited to that. Fortunes can be easily made by raising sheep as the expense of feeding is very small. That corn, oats, barley, potatoes, buckwheat, and all kinds of roots and vegetables, are grown here with little labor. 25 bushels of good corn to the acre is nothing new. Wheat averages about 25 bushels to the acre. Fruit does extremely well. Every farmer has his orchard growing. Forest trees grow rapidly. Cotton-wood, boxelder, whiteoak, soft maple, and many other kinds of trees grow into timber large enough for plant in about three years. Orange plantations do nicely, and in a few years your five tenes can be made. Mechanics find employment and fair wages. The very best and purest water is obtained by going from 5 to 100 feet. The cost is very small when the well is bored—These wells never go dry. The streams of this county are the Republican and its tributaries which are as follows: on the south side of the river, Walnut, Dry, Buffalo, State, Perry, C. Jar, Hicks, Ash, and inside Rock creek. On the north side are Willow, Elm, Cottonwood, Rock, Indian, and Farmers creeks. In the north part of the county is the Blue river and its tributaries. The soil of Webster county is a dark, rich vegetable loam. The wild grasses are nutritious and abundant, and make no excellent hay. Timothy, clover, Hungarian and timothy will undoubtedly prove a profitable production. Those who have tried them so decide at least. Our railroad prospects are good, and we will have a road as soon as we really need one. But the farmers for years will not be surprised to see the railroad in the west counties west and to new settlers. By the time these markets are closed roads for cheaper transportation east will be opened. Our climate is beautiful, the air pure, and breezy, and sickness of any kind is almost a stranger to the people here. The county seat, RED CLOUD, on the Republican river, near the center east and west and a little south of the center north and south. It is an excellent business men of every branch of trade. The country around it is such as to warrant a good basin in every kind of merchandise. Red Cloud and outside Rock are the only two laid out towns. Further information can be obtained from any land agent who advertises in this paper, or at this office.

TAXATION OF RAILROADS.

We have heard many of the farmers of this county express their lack of information on this subject, and consequently deem it advisable to place the matter before them. The 17th Sec. of the Title Revenue in the Revised Statutes of Nebraska contains the law on this subject, and provides in substance as follows: The President or other accounting officer within the State of any railroad company, shall list for assessment or taxation, which list shall be verified by oath, the following property belonging to the corporation, viz: road bed, super-structure, right of way, rolling stock, side track, telegraph lines, furniture and fixtures, and personal property belonging to such corporation. Such list shall also contain the number of miles of such railroad in the state and the number of miles in each organized county. The State board of equalization, consisting of the Governor, Treasurer and Auditor, shall assess the value of each mile of the road by dividing the total value by the number of miles, which assessed value per mile shall be certified to the several county clerks, with the number of miles of said road in the respective counties. The county commissioners of each county shall then divide the total assessment among the several precincts, townships and school districts, according to the number of miles of the road in the said precincts, townships and school districts. The real estate other than the road bed, super-structure, rolling stock, telegraph lines, furniture and fixtures, and personal property, shall be assessed and taxed as other real and personal property.

of the precinct in which the property is located. The above is a summary of the provisions of the 17th Sec. of the Revised Statutes, page 906, on the subject of railroad taxation. It will be seen that the road bed, rolling stock, and personal property, no matter where kept, is for the purposes of taxation, divided equitably among the several counties through which the road passes. The road bed and personal property is assessed at its actual value. The estimated cost of the proposed narrow gauge is about 9,000 per mile, including rolling stock &c. A road running through the county would give us at least twenty-six miles of road to tax, which at \$9,000 per mile would amount to \$234,000. Assuming the present mill tax to be levied, which is supposed to be about twenty-one mills, including county and school district taxes, and the amount of taxes that the proposed railroad company would be obliged to pay, would be nearly \$5,000. In addition to this the company would be obliged to pay taxes on the real estate including depot buildings.

This view of the subject suffices to show that the bonds which this county is authorized by law to vote for railroad bonds, are not sufficient for their interest to neutralize the taxes which the railroad would be compelled to annually pay to the county. In other words the railroad would receive from the county about \$4,000 a year in interest on bonds, and would pay into the county treasury \$5,000 taxes, at the present rate of taxation. The question of voting bonds is simply a question of relieving the railroad from the burden of taxes while the bond runs. The above statement also demonstrates that no additional tax need be imposed; that the present rate of taxation is sufficient to pay the interest on the bonds. No body need be, and probably will not be taxed a dollar more on account of the railroad. The taxes which the corporation would be compelled to pay at the present rate of taxation would pay the interest on the bonds without further burdens on the people.

RED CLOUD, Neb., Dec. 26, '75. ED. CHIEF.—In response to a call published in the last issue of your paper, for a meeting to elect delegates to the railroad convention to be held at Lincoln, Jan. 6th, 1876, and to discuss the railroad interests of the county a meeting was to-day held, which was organized by calling W. J. Vance to the chair. The meeting then adjourned to the school house. The different precincts were generally represented, the most distant ones sending able and energetic men to represent their interests. The most perfect understanding and good-feeling seemed to be prevalent between the residents of the different parts of the county. Mr. Gibson being called for, addressed the meeting. Mr. Luiz referred to the letter of Mr. E. H. Miller of Colorado to a committee at Lincoln, which the secretary then read. The following very able men were then named and elected delegates to the Lincoln convention: viz: H. C. Minick, of Harmony; Alexander Bentley of Inavale; O. L. Battles of Guide Rock; M. H. Warner and H. S. Kaley of Red Cloud. On motion the President appointed A. Garber, M. B. McNeil and L. C. Olmstead, finance committee. W. F. Coyie was on motion added to the finance committee. The success of the finance committee proved the people in earnest. Everybody seemed pleased to find his neighbor thinking just as he did, and in short if earnestness and enthusiasm, and a desire on the part of people from all parts of the county to work in unison has anything to do with our railroad prospects, they are in a flattering condition. Yours, Secretary.

THE HOW. M. V. Moody has removed to Hastings. Hastings seems to be the last resort for unmercantable goods and unmarketable politicians. We can think of one or two more who will remove to Hastings ere long. THEY have had a robbery up in Hastings. Mc. Mastin, the B. & M. agent while inspecting the brakes on the cars, had a handful of pepper thrown in his eyes and face, and while blinded by the pepper, was seized and choked by one man while another robbed him of \$300. No traces have been discovered of the thieves. Judge Maxwell, Supreme Judge elect is the recipient of a magnificent gold headed cane, presented by the Washington county bar. The State Superintendent has determined to hold three conventions and has enjoined upon the county superintendents the duty of attending one of them. They are to be held at Kearney, Lincoln and Fremont. The Convention at Kearney comes off on the 11th of next month. The people of Harlan county are wide awake and energetic on the pro-

THE CINCINNATI Weekly Enquirer. Is the only paper exclusively devoted to the POLITICAL AND GENERAL Welfare of The People. It publishes letters of inquiry direct from the people and answers them fully without regard to party bias or benefit. It is the advocate of right and justice to all, and the greatest good to the greatest number. It is opposed to the unwise and dishonest class legislation that has benefited the few and oppressed the many, as realized in act of congresses retiring from circulation nearly two-thirds of the people's money. The National Bank Scheme, a device to place the control of the currency in the hands of the Money Kings and creating non-productive aristocracy. The Salary Grab Robbery, in expending the pay of government officials, while the pay of labor and its products, real estate, and greenbacks, (the people's money) have depreciated. The act changing the original contract with bondholders, and making bonds payable in gold instead of legal tender, as first agreed upon; a favoritism of 25 per cent. in value to the few at the expense of the many. The Resumption Act, demanding that which is utterly impossible, and placing the object sought for twenty years further off. For such and other crimes against the people the Enquirer will advocate a change in the administration of government affairs, a fitting Celebration for the Centennial Year. If you would know and understand the issues, merits and effects of past and future legislation, read the Enquirer during this all important crisis, and subscribe for the year 1876.
