Thayer county demands three delegates to the Republican State Convention, and they will probably be elected by the coming county convention. The papers in the western part of the State have given the Central Committee a warm salute for reducing the reprerentation. Only one paper in the Fifth Judicial District is in support of the Committee - Though Co. Sentinel.

Yes, and that only supports the Committee for mercenary metives, and not because it is justice. Send your three delegated and see that they are conviction that the pest can be suc- best advertisement ever produced for

We have no doubt but the Sentine! and Journal in the above statement are referring to the CHIEF. If this be the case we beg leave to differ very materially with them. We base our eratement on figures, and claim, al though we are in favor of securing as large a representation as possible, that if anyone has grounds for grumbling it is the eastern part of the State. As for our supporting the action of the Committee for mercenary purposes it is utterly false. We simply take fig. pres for it, and think that it is no more than justice to the committee.

THE democrats of the House were severely chastised by the President last week. They had the effrontery to re quest the President to inform themas to whether he had performed any offi end acis away from Washington, the lawful seat of government, if so, what were the acts, and when and where they were performed. Grant in reply plainly told them he was under no ob Institute adopted a constitution and fortable wagous.

He, however, stated that he had been at times absent from the capital and that he performed the duties of his office, wherever be happened to be, and then conclusively shows that former presidents did the same, that the authority so to do was given by the Constitution, and has never been drawa in question. He pertinently asks the democratic rebels, whether if in the last rebellion the rebels had taken Washington, the President would be incapacitated from discharging his offices simply because he might not be at the seat of govern-

There were two modes used last spring, ditching and busning. The young grasshopper is readily driven, and driving them into ditches proved very efficacious. If we understand the second mode, it is to scatter straw or other combustible matter over the fields, upon which the infant grasshopper gathers in the evening, when the straw is fired. As before stated, we have no reason as yet to feel apprehensive. But it is well to have the subject in wind.

THE Farmers' lastitute met pursuant to adjournment last Briday afternoon. The meeting was not very well attended by the farmers or becount of the bad weather and the unsersoonbleof the time. #### NEBRASKA AT THE CENTENNIAL. Gov. Garber Has Ta en the Right Step---Let Others Follow in His Wake.

Gov. Garber has taken the question of Nebraska's representation at the Centennial in his own hands, and without delay has made the preliminary arrangements. We interviewed the Governor yesterday on this important subject and learned some very interesting facts concerning it. He informed us that Mr. Touzalin, land commissioner of the B. & M., had agreed to vanquished the two acknowledged ship upon request some three or four tons of Nebraska's products not as an advertisement for his road, but to benefit the State, and furthermore, publicans in that state.
