J. S. GILHAM,
Co. Superintendent.

—Sherer just "rapped" his new stock of fine cigars yesterday.
—We are glad to see the improvement Mr. Noyse has made in removing the old log stable near the LaCleda Hotel. This building has been a nuisance for a long time, and its removal will be a great improvement to that part of town.
—W. N. Richardson returned Monday from Chicago, where he had been with stock.
—J. S. Gilham went to Juniata Monday to attend to some law business in court at that place.
—Mr. Bentley of Farmer's Creek, dropped in to see us Monday morning. He reports everything lovely on the creek, the farmers are getting on fine with their work and say they never saw a spring open more flattering than this.
—Do you know where to get your Wall Paper? If you don't, go to Sherer and he will show you the finest and most complete stock ever brought in to this market. He is the only man in town who keeps it.
—We noticed our friend Isaac Hummel in town Monday.
—Two gentlemen from Belleville, Kansas, were in town Friday and Saturday looking for a place to locate.
—Last Monday, Rev. Maxwell set out 102 trees around his residence. If more of us would follow his example how much it would add to the appearance of our town.
—We were pleased to add the name of Geo. Beaman to our list of Riverton subscribers. There is still room on our books for a few more names from that enterprising town and we should be pleased to fill up the vacancy.
—Mr. McCool of Riverton, formerly of Buffalo, N. Y., gave us a pleasant call Monday.
—Oh! say, have you seen that new show case at Sherer's? It is a fine affair and is clock full of nice things too numerous to mention.
—We understand that Mr. Z. P. Earl, living four miles east of this place on Elm Creek, has sold his farm to a gentleman who intends to build a flouring mill. Elm Creek has several good mill sites and undoubtedly an enterprise of this kind would be a success.
—Our enterprising citizen, Ira Sleeper is erecting a dwelling of considerable size on his lots in the northeast part of town.
—Notice L. Baum's new advertisement this week. All parties who wish an outfit either for the Centennial or the Black Hills will do well to call on him.
—The Industrial Association of the place having now got thoroughly organized, the meeting to night will be one of great importance to all interested in the welfare of the place. Let us have a large turnout to this meeting.
—In conversing with men from different parts of the county we learn that there are a good many emigrants continually coming in. There is yet some vacant land and some that can be bought cheap. Everyone interested in the prosperity of the county should consider it their duty to do all in their power to advance the interests of the county in this direction.
—Another instance of carelessness in leaving teams unhitched occurred last Friday H. B. Holmes, the River Mail Carrier left his team standing in front of the post office while attending to some business around town. They took fright and ran away taking a circle around by the Valley House, up setting a buggy in front of the barn, thence down across Crooked Creek where the wagon came near upsetting, and finally brought up at Mr. Kaley's corral. The result of this runaway was a very bad cut on one of the horses hind legs, which will render the animal unfit for service for some time, but under the skillful care of J. C. Warner it will undoubtedly speedily recover.
—Look at your wheat fields and see if you can discover any grasshoppers. They have made their appearance in Adams county, but they are too small to determine whether they are the native or the migratory plagues.
—Rev. Chas. Riley of Juniata called in to see us last Friday. Mr. Riley was down to preach the funeral sermon of Mrs. Asher Beal of Guide Rock who died about a month ago. We listened with a great deal of interest to a sermon delivered by him at the school house Sabbath evening. He is trying to make arrangements to preach to us once a month and if he succeeds we shall be highly pleased.
—W. N. Richardson brought home with him a very fine hog of the Poland breed.
—Carl Weber left this place for the Black Hills last Monday.
—Uncle Sam. has been displaying his enterprise by setting out a very nice row of cottonwood trees in front of his lots on Webster St. We wish that others would do likewise.
—Mr. Thos. Tracy, residing in Valley county, has recently removed his family from that county to his brother-in-law, Mr. A. Wells, living in Stillwater precinct, for safe protection.
We are informed that the Indians are committing a great many depredations there by running off stock and plundering whenever they get an opportunity. Considerable trouble is anticipated the coming summer.

WE WISH THE LADIES TO KNOW that if they want a real love of a hat they want to get one of those at the firm of Tulleys and Dixon.
—The enterprising proprietors of the State Journal have enlarged their daily to a 32 column paper. It is one of the best edited papers in the State, and it has many friends in this part of the country.
—Ed. CHIEF—Please announce that Rev. A. G. White, Presiding Elder, was sick and unable to attend the quarterly meeting at Red Cloud on the 23d of April.
—We are under obligations to Hon. L. Course for a copy of the Congressional Record.
—A few 12 inch Red Breaking Plows for sale very cheap. Inquire at the Post Office.
—Mrs. Tulleys & Miss Dixon have just received a very large assortment of Hats, Gloves, Ribbons, Flowers, etc., which will be sold at the very lowest prices. Ladies call and see for yourselves.
—We understand that a party of the little ones went fishing the other evening. Only those who were in their class were invited.
—Crocket has again started up in town, and all lovers of the game are having a lively time of it, these fine evenings.
—Baum's fishing party brought home with them a fine lot of fish last Tuesday evening.
—Mr. Brice has given up the idea of going to the Hills, for some time yet.
—Last Sunday night Rev. Reilly organized a Methodist class and received into the church eight new members. The Methodists are now the most numerous church in the village and vicinity. The Congregationalists are, however, the strongest church in the county, owing to the continued and energetic labors of the Rev. Mr. Maxwell.
—Notice L. Baum's new advertisement.
The small grain is looking fine down here in the valley. We are decidedly in advance of the country to the north of us in that direction. Wheat is up from two to six inches and looking thriving and vigorous. We'll put the valley against the high prairie land every time.
—Minck arrived with his trees last Friday. He was disappointed by those of whom he purchased, and his stock was in consequence small and inadequate to supply the demand. The people here are beginning to be in earnest about fruit trees. If some good tree man would start a nursery in the valley he would secure an abundant trade. The people are fast losing confidence in trees imported from Eastern nurseries.
—A. L. SCHUBNER and MISS EILEEN SMELSER were united in the holy bonds of wedlock, Sunday, the 7th day of May. The parties are worthy and respectable and are in every way deserving of the sympathy of their neighbors.
—MARRIED—On the 6th day of May at the residence of Manly McMill by Judge Warner, MR. M. H. WARNER to MISS SARAH A. MUNKELL.
—What the boys say 12-12.
—The "Old Man" departed this life in full hope of a brighter and more blissful existence on the 6th day of May, April 25 years.

—Everybody should turn out to the County Convention next Saturday the 13th.
—Mr. Knight called the attention of the farmers, Friday, to the spread of the obnoxious weed commonly known as the sand bar. It would be well to give this subject considerable attention. Probably it will be discussed at the next Institute.
—Uncle Sam. has offered to lease to the Agricultural Society any forty acres of his land east of town, for five years, free of rent. The land is a very smooth level tract, and the most suitable for fair purposes of any land in the vicinity of the village. The proposition of Mr. Gardner is certainly a liberal one and entitles him to the gratitude of the Society.
—The Adams & French Harvester is the only tried and successful Harvester in which there are no gears and bins, and with a horse equivalent can be drawn by a horse and cut from 15 to 20 acres per day. A harvester is also built by the same company for two handings. These are the most durable Harvesters made. They have no gears or bins to get out of repair. They have been sold for the past two years by Oils L. Battles & Son, Red Cloud, Neb.

Webster County Condemned.
Webster Co., Neb., lies in the Valley of the Republican, 10 miles west of the Missouri River and touches the State line on the South. Winters are mild and dry, very little rain or snow falls in that season. Little ice in fact that settles all winter with no snow or ice. Plenty of rain in the spring and summer. The summers are not disagreeably warm, as there is always a cool breeze especially in the evenings. The county first began to be settled in 1870. In 1877 the county was organized with a population of 17,000. Its population is now about 20,000 and is rapidly increasing. There are at present 18 organized school districts within its boundaries and school facilities are in the most ample manner than those in some Eastern States. The agricultural school term facilities nearly enough money to pay teachers' wages. Farmers can buy R. R. land from \$1.50 to \$6 per acre, with ten-year time. There is yet a considerable amount of government lands for homestead and pre-emption. As a stock raising country it is well adapted for that purpose, and for sheep raising. It is just suited to that purpose and can be easily made by raising sheep as the expense of feeding is very small. That corn, oats, barley, potatoes, buck wheat, and all kinds of fruits and vegetables are grown here with little labor. 20 bushels of corn to the acre is a thing new. Wheat averages about 25 bushels to the acre. Fruit does not grow here. Every farmer has his orchard growing. Fruit trees are rapidly becoming numerous and the soil is very fertile. The very best and purest water is obtained by going from 5 to 100 feet. The cost is very small when the well is bored—The wells never go dry. The streams of this country are the Republican and its tributaries which are as follows: on the south side of the river, Walnut, Dry, Buffalo, State, Perry, Cedar, Hoke, Ash, and Guide Rock creeks. On the north side are Willow, Elm, Cottonwood, Crooked, Indian, and Farmers creeks. In the north part of the county is the Blue river and its tributaries.
The soil of Webster county is a dark, rich vegetable loam. The wild grasses are nutritious and abundant, and make most excellent hay. Timothy, clover, Hungarian and millet will undoubtedly prove a profitable production. Those who have tried them so decide at least.
Our railroad prospects are good, and we will have a field as soon as we really need one. For the farmer forty acres of wheat ready for sale or surplus production in the newer counties west and to new settlers. By the time these markets are closed roads for cheaper transportation east will be opened. Our climate is healthy, the air pure and bracing, and the scenery of any kind is almost a stranger to the people here.
The county seat, RED CLOUD, on the Republican River, is at the center east and west and a little south of the center north and south. It is one of the best locations in the State for a business center. The country around is such as to warrant a good business in every kind of merchandise. Red Cloud and Guide Rock are the only two laid out towns. For further information can be obtained from any real estate agent who advertises in this paper, or at this office.
