A genuine Anti-Hitchcock candidate

County Ticket.

For Representative,

J. E. Smith.

For Commissioner of 2d District,

GEORGE BALL.

For Commissioner of 3d District,

W. J. Vance.

Last week we secured a "dead-head" pass and embarked with T. T. Webb, the enterprising proprietor of the Red Cloud and Hastings stage line, for the junction of the B. & M. and St. Joe & D. C. R.R. We traveled over some of the crookedest road in Nebraska. The road between Red Cloud and Hammel's certainly beats anything in the road line (for crookedness) that we have met with in the west. However, we arrived at Mr. Beach's in time for dinner. Here we change horses and take a fresh start. We arrive in Hastings in time to take a look at this thriving town before the shades of night close over the scene. Hastings is a thriving town, and some of its business men are enterprising; among which we might mention the following: Chas. Cameron, who eats an extensive stock of dry goods, boots and shoes, &c., &c. Give him a call when you go to Hastings. Morledge & McWade also deal in dry goods, groceries, clothing, &c. They sell cheap.

Mowery & Farrell, dealers in hardware, Farming utensils, &c., are doing a thriving business.

We called at the "Hastings Hardware Store" and found the proprietor very selling stoves and tinware, and everything in their line, cheap for cash.

C. P. Beck holds forth at the

Carmers' Hotel, and is prepared to accommodate guests at all times.

The Adams County Bank, holding a good business. Collections made a specialty.

As we returned the following day, we did not have much time to look around. We shall take another trip to Adams County, soon, and will try and give the county and towns a more extended description.

Last Sunday the editorial staff of CHIEF indulged in a pleasure trip down the River. We inspected the banks, the mills, the country, the farms, and then went up to interview the flouring mill. Finding on hand a great quantity of grain, we could not resist the temptation of taking a ride. Unfortunately we allowed ourselves to get too near the water, pouring over the dam, and liked too have got dunked. A little excitement prevailed, one of the ladies of the party was considerably wet, and though she was quickly dried, but we got out safe. When you catch us bearing again, throw clubs at us.

In spite of the President's proclamation, in spite of the soldiers who have been sent south to protect the citizens of that lawless country in the enjoyment of their rights, the colored people are intimidated by acts of violence. Murder and outrage seem to be the order of the day. Is it possible that the U. S. government is powerless to protect the lives and liberties of her own sons? The actions are meant to keep the negroes from the polls, or any other knowing man with the right to vote, then when they are extorting their opponents, and on the side of truth and justice.

CONCERNING THE OMAHA & REPUBLICAN PARTY, saluted the Republican City News says:

"Three-fourths of our citizens in all parties would support a proslavery proposition to the South; and we believe every county between Republican City and Warsaw would do the same. After all the bush against railroads the people are emphatically railway men, and we know where we speak."

TILDEN'S VERACITY.—Down goes the national debt. The Republican Administration persists in paying it off. Since Grant was inaugurated over six hundred million have been liquidated. In the face of this fact Tilden said the Government did not live within its income. It certainly would not have done so had all tax payers been as dishonest as the great railroad workers.

—It has been suggested that Mr. Gilman and his efforts to be elected Senator from this district as Melnyre will not be speaking throughout the country in defense of Mr. Gilman a large majority.

—The disheartening spectacle of a man up on North Hill last night trying to let himself in at the front door by unlocking a tree box with a lead pencil, gave rise to the rumor that he had been another democratic victory in Indiana.—Neb. Herald

—Call Creek Correspondence.

OAK CREEK, NEB., Oct. 16, 1876.

ED. CHIEF.—Time passes quickly by. The hoppers have come and gone, did but little injury to the corn. The threshing is mostly done—wheat yielding an average of about ten bushels per acre. Oats are good, and plenty for feed. Potatoes yielded a fair crop to those that planted whole ones, but those that planted eyes and chips will have to buy. In a wet summer eyes will do, but when it is as dry as it was this summer it needs the whole potato to give rise and nourishment to the top.

This precinct has received three new settlers within a few days—Mr. Haws, of Illinois, Wm. Hawley and Mr. Thomas, of New York, all men of some means, and they have commenced work as though they meant to become permanent settlers. Mr. Hawley is building a frame house 16x20.

Politics is nearly dead; some of the aspirants for office would do well to look to their interests and stir them up. Undoubtedly Mr. Gilliam will carry this precinct, for most of the voters want a man that will not sell himself for a nickel. Wo to the white-washed office-seeker!

Respectfully, &c.,

J. E. H.

THE WESTERN RURAL.

Milton George, a practical and successful farmer, and for several years connected with the editorial staff of THE WESTERN RURAL, has become the owner of that popular sterling Farm and Family Weekly, and has reorganized it upon a firmer basis than ever before. It is now greatly improved, and has the ablest and best editorial staff and list of contributors to be found on any agricultural paper in the country. It is also the champion of cheap transportation and equal justice to classes. Combining its practical information on Rural affairs with its entertaining and instructive literary departments, make it the most complete farm and family newspaper extant.

The price is \$2.00 per year, with rest of 76 free to new subscribers.

We will furnish the above named paper, in connection with the CHIEF, for one year for the small sum of \$2.75.

WEBSTER COUNTY.

The Republican Valley and Red Cloud

From Nelson, the county seat of Webster, to Red Cloud, the young seat of Adams, the red cloud hangs along the divide which separates the two rivers which run into the Blue river, these two empty into the Niobrara.

Taxes cannot be taxed as one does a cow and so accounted for. They

would not interfere with the separation of the members to the different families, since there is less with all the improvements made to the different school districts.

Why is that? I do not know.

Washington organized by the county of Adams—some organization, perhaps through which they might become organized, well known and then have an intelligence of some, a meeting of states and counties to discuss arguments upon the subjects that may affect a number of others of a similar class of people for the state to be part of.

The different trials have shown

the Bar Association, the county and State, the State prison, and the like, to be the best method to go about such. The trials themselves are now as regular as the best trials for securing the business of a county and no two of them have changed the course.

They are the matter over, and should be looked into at some time during the next session of the Legislature, you will have to do. Come on to see me the next time, and at any time the course of the law and make sure of your trial, and you will be well advised.

It may not be possible to get this before next winter, but it can be accomplished I hope.

Then the matter over, and should be looked into at some time during the next session of the Legislature, you will have to do. Come on to see me the next time, and at any time the course of the law and make sure of your trial, and you will be well advised.

It will be done, I hope.

It will be done, I hope.
