ix, evenue of the Schoolmaster in His Transitory Ho r When it was customary for school teachers to board among the employers I was among the happy boarders.

The advantages of the system were so apparent to those who sometimes used in their large fireplaces stone "back-logs" and iron fore-sticks, that it was not the "thing of a day," but a condition of things that lasted several voung officer. He made her cause his years, and passed away like some other own, and so readily responded to every usages of the olden time.

in or were presents.

for the next day; the room was made cheerful by tailow candles and a blazing highest praise from the press and the fire of pine knots.

With some families the grinding of the coffee in the morning was the sigfor breakfast. At one place, after going down stairs, and out of doors a wanted some water to wash, and asked the man of the house where I could wash. "Down to the broot," he said. pointing in that direction; and down to the brook I went, where was plenty of water, washed and returned, seeing that was the way they did. Somestimes trout from the streams would be the fare, venison from the forest or silver eels from the Delaware, Sullivan county. Housekeepers knew how to prepare these for the plate and the palate, and once they gave me some of bruin's beef, as I was pleased to call it, which was produced at some risk of life. A good sized black bear left his tracks on the snow so plainly as to arouse a hunter's valor, who, with rifle pursued the bear to his retreat in a hollow tree, in which he was safe for the time; there was no getting at him there. To start him out, the hunter's boy, who to the top to survey the coast, and see This was the hunter's opportunity which it was safe and easy to get him bruin's beef.

house, where lived a sturdy Presbyte- of water; that hereditary poultry keep river, where we jumped the bank, and agency of somebody whose caste points is also a constant attendant, and both soon found our way where I always him out as the appropriate person to of these skillful and well known physihearty way of shaking hands, with too, have the habit of collecting around hearing.
