ART PUBLISHING.

Few people are aware of the wonderful progress that Art has made in this country during the last quarter of a century.

It is but a few decades since that those who desired to beautify and adorn their homes, were obliged to depend almost entirely on foreign artists.

But such a state of affairs in this age of progress and improvement could not last long with the great American people.

From the East to the West, from the North to the Gulf of Mexico, on the whole, answered the demand for a better, taste and refinement, and today our leading artists are not surpassed by the leading modern masters of Art in Europe.

Great Art publishing establishments have sprung up, and by various processes the finest and most expensive paintings are reproduced in all their elegance and beauty, and at a price within the means of the masses.

So that no one need be without the refining influences of beautiful pictures at home.

Among the progressive leading Art Publishing firms of the country, we take pleasure in mentioning George Stinson & Co., of Portland, Maine; they were among the first in the business, and we can only understand the colonial proportions their trade has now attained.

They have not better illustrated the magnitude of their business, than to state the amount of money paid by them for postage stamps during the year 1876; we have the figures direct from the firm, or we should think there was some mistake.

They paid for postage stamps during the year 1876, thirty-three thousand one hundred and four dollars and ninety-two cents (\$33,104.92) and in connection with this should be remembered that only small orders were sent by mail, the larger going by express and freight.

George Stinson & Co. are agents for the sale of every State in the Union and Dominion of Canada, and in every county with scarcely an exception.

Long since the enterprising firm recognized the value of printer's ink judiciously used in advertising, and they therefore have not only the best ink, but also the best ink, and what you can do by liberal and persistent advertising, and you will find few things made known and proved, will bring more than can be made in any other way.
