PRECINCT TICKET.

For Justices of the Peace

For Assessors

For Commissioners

For Judges of Election

For Clerks of Precincts

THE BRIDGE TAX.

A great many seem to suppose that if the bridge tax be voted down there will be no bridges built, and there are men in the county who would be willing to see the farmers of Walnut Creek had their grain to Riverton in Franklin County, than to give them a bridge so they can market their produce. And do their trading in their own vicinity. But this vote does not affect the question as to whether or not the bridges shall be built, because they will be built. The commissioners will have to build them whether citizens request or not. The question is, whether they shall build them out of the General Fund, or out of a Special Fund for that purpose. Let this be understood, and all who know about the character of our warrants will favor this tax. The tax does not add to our burdens, but simply divides them into two funds. At present all our warrants are drawn upon the General Fund. If this is not voted the bridges will be built out of the General Fund. Many suppose that there is no authority for building bridges except by vote. This is a mistake. The commissioners can build a bridge anywhere out of the General Fund, and they must do it if the people refuse to grant them any other fund. Under the laws of 1877 the commissioners must build bridges, and all other works of internal improvement out of this fund. The Constitution allows a special fund to be raised if the people vote for it. Now if the bridge accounts are charged to the same fund with the rest of the accounts they will overbalance the smaller amounts back and make them less valuable, and the county itself will have to pay at full value, but if the bridge accounts are charged to another fund, the General Fund accounts will not be affected, and the county will not be obliged to pay \$1 in paper for 60 cents of goods as I did when General Fund warrants were under sixty cents. We believe that no one can attack the truth of this argument, and that if all understood that the commissioners are authorized to build the bridges without a vote, and out of the General Fund, (and we have) will deny this, there would be but little opposition to the tax.

The Omaha News Works are abandoned.

Cloudy patches are full of nothing but resumption lands.

So the men will have to spin around to get ahead of Omaha and Chicago now.

All experience has shown that as irredeemable paper currency is among the worst evils that can befal a nation.

To abandon resumption would violate the pledges given by those who passed the law, both before and after its adoption.

The people of Walnut Creek trade now at Riverton in Franklin County, and a little at Red Cloud, their roads in either case rough and dangerous. With a bridge at Red Cloud how easy to cross the river to be built town opposite, and do their trading there. Either vote for the bridge tax out or prepare to pay off the bridge out of the general fund.

The storm of last week along the coast of the Atlantic mainland was severely destructive in Philadelphia. 10 billions were more losses.

Estimated loss over five millions of dollars.

Other damage was done which will foot up an awful total. Numbers of lives were lost.

Many were disappointed last Monday evening on learning that G. Nance, was called to his home by the sickness of his child and could not meet with us. All were somewhat in good humor however by the joyful prospect of Attorney General Robert. The General exhibited a sample of the so called fist made by the friends of irredeemable currency, and the audience was convulsed with laughter while he read it. All went from the room well pleased with the speaker and mightily convinced by his argument.

The awards of American exhibitors at Paris are ten grand prizes, thirty diplomas of honor, one hundred and thirty-four gold medals, two hundred silver medals, two hundred and twenty bronze medals, and one hundred and fifty-six honorable mentions. Proportionately to the number of exhibitors the United States received more prizes than any other Nation.
