

THE RED CLOUD CHIEF

The Czar of Russia has presented the Amur of Afghanistan with a sword.

A man was killed and several horses stolen by Indians forty miles up the North Platte, last week.

Pullman's Angell has been captured in Lisbon, Portugal, and will soon visit his old home under arrest.

The North Platte Republican gives some pretty lively answers to the Nebraskans about Laird, Ashby, &c.

Canada is just now agitated over the prospects of a new governor general and she appears very much pleased about it.

Isaac M. Cate of Boston is writing some very severe letters about Judge Dillon, on account of his action in certain railroad matters.

Jewel County is getting warmed up in the matter of railroads. They are looking for an extension of the St. Jo. and D. C. through their county.

The Nebraska State Historical Society is now a sure thing, and our state will probably now have its historical records preserved in good order.

Resumption day will soon be here, and then we shall expect to see a little gold occasionally. Shall we? We will take all the greenbacks we can get between this and Jan. 1st.

The Grand Jury of the U. S. at Chicago, has found indictments against several architects and superintendents of construction, for conspiracy to defraud the government out of \$500,000 in building the Chicago Custom House.

Red Cloud's troubles have begun. She has a railroad but has to pay \$65 per car on freight from Hastings—40 miles.—Fairbury Gazette.

That was when they just started, but now we have cars coming direct from eastern points without chartering them from Hastings.

The Beloit and Red Cloud Stage Line is now one of the best patronized lines in the State. Their horses are crowded with passengers every day. For this reason of the year travel was never half so good since the country was first settled. By the way, daily service has been ordered on this en route from Beloit to Red Cloud.—Monitor Diamond.

Considerable agitation is being caused in Chicago by a gentleman from California, James Keene, who has \$4,000,000 to invest in No. 2 spring wheat. He is buying on a very close margin for December. He has already secured 3,000,000 bushels and has 2,000,000 Dec. options. He has also opened up in Milwaukee. His object is to keep up the price of wheat but all the buyers are opposed to him, and it is thought that he will break soon and the price will go down.

The trouble which have been fomenting between England and Afghanistan have at last culminated in a war. In 1869 the Afghans looked for protection from England against the Russians, but as it did not come in a way that they expected, they have steadily refused any terms of conciliation which the English offered. They declined to receive an embassy from England, and now to maintain her position, England as a last resort, has unsheathed the sword. The Victor of India says: "The Amur has only taken for weakness the long forbearance of the British Government, and has thus deliberately incurred its just resentment." The first battle occurred on the 22nd inst., resulting in the capture of fort Ali Musjid, near Jumrood, and many prisoners besides canons and stores. What the result will be, only the future can decide.

NEBRASKA STATE HISTORICAL SOCIETY.

A State Historical Society was organized at Lincoln on the 25th ult. Representative men from all parts of the state participated in the organization and it will be seen by the circular below, any one may avail himself of the opportunity to become a member. The fee for membership is two dollars and should be sent to the treasurer, W. W. Wilson, whose address is Lincoln.

The officers of Nebraska State Historical Society issue this circular to advise the public of the existence of the organization, and to urge the importance of placing it upon a substantial basis at once. To that end memberships are important and invited. Remittances to treasurer. State papers will favor the cause by publishing of this circular, or of such notice as will inform the people. A called meeting of the society will be held at Lincoln sometime the coming winter during the session of the Legislature.

SAM'L AUGUST, Sec'y.
R. W. FURNAS, Pres.

A large party went from here to Wheatland last Saturday to attend the Association of teachers. After a long cold ride we arrived at the school house, about eleven o'clock. The Association organized at once, and a lesson in Physiology was given when we took a recess for dinner.

After refreshments, of which all got a plenty, well served, Mr. Winter illustrated his method of teaching botany, and showed why this study should be taken up in our common schools.

This was followed by Mrs. Saunders who gave her views in teaching Grammar. Mr. Bush followed with a very practical illustration of teaching Geography, following out the plan now adopted in our best schools of commencing at home and finding the world afterward.

Mr. Bailey took History for his subject. He was very thorough in the work and aroused many thoughts in History.

We are glad to note that he did not think altogether of war, but found interesting history in the more peaceful occupation of our people.

We cannot speak too much in praise of the reading by Miss McCullum of "Beware of the wine cup."

The reading of Miss McCullum was very good.

Just before dark we adjourned, and our party started for home, which we reached after experiencing several adventures, which it would take too long to relate here.
